

BAY VIEW MIDDLE SCHOOL

2024-2025

Guidelines for Parental Input for Student Placement

1. Parents are given the opportunity to give input on student placement during the input window only (**March 6 thru March 29**) for the next school year. No changes in placement will be made after placements are established.
2. Consideration of all educational factors, academic, emotional and social, are the primary determinants in placement decisions. *The final decision for placement rests with the principal after consideration of both staff and parent input.*
3. A written request, or lack of such request, will have no effect on a child's placement. *All students' needs are a primary consideration in placing students.*
4. All parent requests will be considered, however, balance of classes in terms of course placements, gender, ability, behavioral concerns, etc. is the highest priority.
5. A student's IEP, at-risk, or gifted needs will supersede a parent request.
6. ***We are not able to accept specific bay or teacher requests*** because student placements are based on academic and program needs.
