

Did you know?... Your child can access their small group instruction books by logging into their Google Classroom. Please designate time throughout the week to have your child practice reading their decodable stories. This will help improve their decoding skills and their confidence!

How to access your child's Geode's books

1. Log into your child's Google Classroom
2. Log into Clever
3. Click Great Minds and select the option to Log in with Google
4. Once your child is logged into Great minds, click the "waffle" in the right hand corner.
5. Select Geodes
6. All of the books we have read will be available to them. I will add new books each week
7. Thank you for your support!

Happy Reading 😊

Ms. Delayo
