Abstract

This is an instruction for manuscript preparation for the IE NETWORK 2020. Please strictly follow this guideline as it would appear in the proceeding without retouching. For a Thai article, an abstract in English must accompany the Thai version. It should contain a single paragraph and its length should not exceed 200 words. The abstract should include a concise statement of objectives, research methodology, and a summary of important results.

Keywords: 3-5 words, Browallia New 12 point size

1. Introduction

This document outlines the formatting of the documents required for the submission.

2. Format

A complete document consists of a title, author names, institutions names, an electronic mail of the corresponding author, an abstract, a body, and references. The length of the document should be 4-6 pages.

2.1 Paper Size

Please use A4 letter size (21.0 cm x 29.7 cm) and use the two-column format. The left and right margins are 2.25 cm while the top margin is 3 cm, the bottom margin is 2 cm. Please leave one empty line above the section headings and the subsection headings.

2.2 Font

Please use Browallia New as the font in this document. The format of the document title is bold face with the size of 18. For author names and institutions names are bold face with the size of 12. For the headings and the subheadings, the font should be boldface with the size of 12. For the rest of the document, the format is normal-face with the size of 12, except for the figure and table captions where the font size is 11.

3. Numbering

Please use the Arabic numerals in cross-referencing. Every equation must be accompanied by a right-align number in parentheses as follows

$$A = \pi r^2$$

(1)

where A is area, r is radius.

The font in the equation should be Browallia New with the size of 12. The symbols should be inserted via MathType or Equation Editor with the size of 10.

The reference should be indicted by a number in square brackets as follows [1], [2],…

4. Figures and Tables

It is recommended that the figure is contained within the width of the column. However, to illustrate fine details, the figure may be enlarging to fit the entire page. The figure resolution must be high enough for readers to distinguish the detail in the figure and the text should not be too small. An illustration should be drawn with blank lines and an image should be in greyscale with sufficient resolution.

Every figure should be accompanied by a number and caption. The numbering should be in the order of appearance. The figure should be center aligned with an empty line above the figure and one empty line below the caption. Every figure must be crossed-referenced.

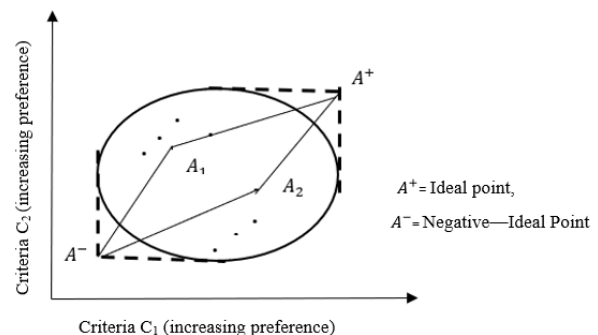

Figure 1 Basic concept of TOPSIS
(Browallia New 12)

For the table, the caption must be placed above the table and is left-aligned. Please leave an empty line above the table caption and an empty line below the table. The table must also be numbered in an order of appearance.

Table 1 Example table (Browallia New 12)

x	a_r / m_r	$2\zeta_r\omega_r$
0.1	2.7470e+01	2.7483e+01
0.5	3.5352e+01	3.5360e+01

5. Summary

Before submission, the manuscript should be reviewed by all authors. To make sure that the manuscript is high quality that will be considered.

Acknowledgement

Thank you to all the authors for their cooperation and for keeping the manuscript writing template strictly.
