

## The Bethesda-Chevy Chase High School Educational Foundation

How do we ensure a world-class education for all students at B-CC?

**Academic excellence.**

**College and career readiness.**

**Empowered teachers.**

The B-CC High School Educational Foundation is an all-volunteer organization that funds high-need, high-impact academic programs to drive student success across our entire school.

We begin this school year facing big challenges. The Covid-19 pandemic has underscored the urgency of the Foundation's mission – ensuring that *all* of our students have the academic skills they need to succeed. We are working to combat a year of learning loss, intensifying our efforts to create equitable pathways to success, and celebrating the diversity in our school community.

The Foundation funds programs to boost academic success for all B-CC students:

- **TAP** (Time for Academic Progress): Provides after-school Math, Science, English, and Social Studies help from B-CC teachers. Open to all, no appointments needed.
- **Link Crew**: Year-long mentoring program helps 9<sup>th</sup> graders transition to high school
- **CollegeTracks**: Supports first generation college-bound students
- **AP/IB/TOEFL Support**: Expands access to more students by covering program fees
- **Professional Development**: Underwrites 100% of teacher grants to attract and retain the best faculty
- **Summer Programs**: Funds a wide range of academic-boosting programs, historically including a college essay workshop, girls' leadership initiative, 9<sup>th</sup> and 10<sup>th</sup> grade academies, and ESOL support

### PLEASE DONATE TODAY!

Join the generous parents, alumni, community members, and local business leaders who recognize the critical role of an exceptional public high school.
