

Enhance Your Glow: Add to the Facial Alchemy session

BioRePeel

Concerns Addressed: Age, Spots, Acne, Lines, Dull skin, Reduces appearance of pores, smoothing, revitalizing

Suitable for: All skin types

Details: Dr. created treatment suitable for all skin types and areas of the body. Rich in a combination of acids, amino acids, and vitamins. Improves skin surface, imperfections, and accelerates cell turnover. Stimulates collagen and elastin reconstruction in deep skin layers. Results are visible instantly and improve over the following two weeks. Zero to minimal peeling, making it suitable for maintaining social plans. Can be used as a single treatment or for treating various active skin conditions. Options for saving and results when investing in advanced treatment plans. Non-invasive and painless, providing a rejuvenated and refreshed look.

Contraindications: Accutane in the past 6 months, Open wounds, cuts or abrasions on the area being treated, Skin infection (bacterial or fungal), Cold Sores, Fever Blisters, Herpes simplex (Active outbreak pre-treat), Pregnant or breastfeeding

Price: Add \$299-375 (great in a series - see packages)

Jet Plasma

Concerns Addressed: Various, including Age, Spots, Acne

Suitable for: All skin types

Details: Penetrates the dermal and subcutaneous levels without downtime or discomfort. Suitable for various skin concerns including wrinkles, scarring, and stretch marks. Brightens and tightens the skin, diminishes hyperpigmentation, shrinks pores, and aids in acne treatment. Provides optimal anti-aging results without surface trauma, unlike traditional Plasma Fibroblast.

Contraindications: Pregnancy, Pacemaker, Diagnosed hypersensitive, Implanted neurostimulator, Any electrical implanted device, or implanted slow medication release device, Not to be used over cancerous lesions

Price: \$297+ (best in series of 6. Minimum of 3 - see packages)

LED Light Therapy

Concerns Addressed: Various, including Acne, Aging and Spots

Details: Utilizes different LED light colors to address various skin concerns. Red light promotes collagen production and rejuvenation. Blue light kills acne-causing bacteria and reduces inflammation. Green light evens skin complexion and texture. Amber light speeds up skin healing and reduces redness. Purple light increases cell regeneration and improves circulation.

Add \$30

Nano Channeling - Rezenerate w/ Treatment Serum

Concerns Addressed: Fine Lines, Texture, Reduce appearance of pores

Suitable for: All skin types

Details: Addresses fine lines & wrinkles, skin texture, dark pigmentation or sagging skin. Creates micro channels to infuse products (e.g., peptides, hyaluronic, vitamin C) into the skin for Maximum and immediate results, great for hydration and firming. A milder option than microneedling, suitable for more clients, including those with medical health conditions.

Contraindications: Active acne

Add \$75 (great results from series - see packages)
