

Virtual Asynchronous

Students can navigate through the levels individually. Instruct the students to think through the discussion prompts, but we would suggest not requiring written responses, as this would add too much time on to the lesson. Instead, use the Check for Understanding to assess understanding.

Teacher Prep:

Virtual Synchronous

If Breakout Rooms are available, break students up into small groups to complete all of the levels. Then bring the class together at the end to share out what they've learned.

If Breakout Rooms are not available, instruct students to go on mute to complete levels individually. At regular times (i.e. every 8 minutes) bring students back together to discuss what they've learned and any questions they have.

Teacher Prep:

Socially-Distanced Classroom

Instruct students to bring headphones. Students can join a call with a partner while working through the different levels. Follow the lesson plan and regularly check in with the class using the discussion prompts.
