

How to create a “First Line” Book Video in Canva

Click [HERE](#) to join my Canva team and have access to more things in the app

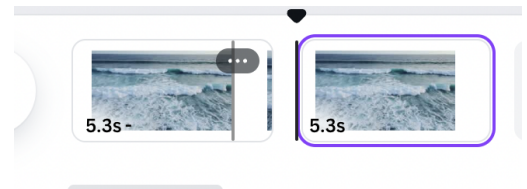

1. Find a book you have read or are interested in.
2. Take time to figure out the theme and “mood” of the book.
3. Look at the first line and think about IMAGES that would work well with it. What will be your hook?
4. Do a google search for the book and take a screenshot of the book cover.
5. Open [Canva](#)
6. Choose the VIDEO option. Be sure it says “Create Blank.”

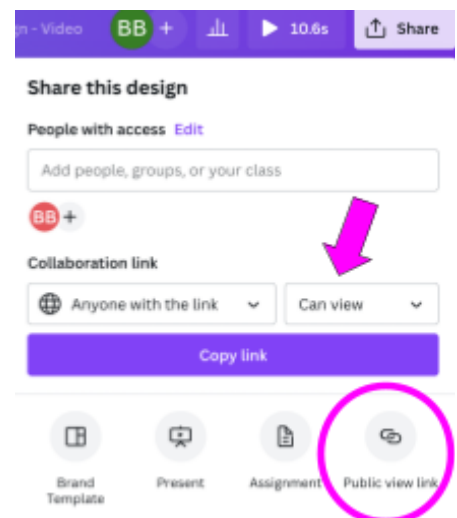

7. Choose “ELEMENTS” on the toolbar to the left side of the screen
8. Search for videos that match whatever theme you have decided on (for example, night sky, water, ocean, busy city, etc).
9. You want to choose a VIDEO and shorten it to around 3-4 seconds.

10. Then click on the three dots on the top right of the video and duplicate it 2 times.
11. Stretch the middle one out to about 10 seconds.
12. In the middle video insert a TEXT BOX and type out the first line of the book you have chosen.

13. Go to UPLOADS on the Canva toolbar and upload your book cover. Then insert it on the 3rd video/slide.
14. You can add animations to your text and the book by using the toolbars at the top of the screen when you have “clicked” on your image or text.
15. When you are finished: click SHARE, change the settings to “Anyone with link” and “can view.”
16. Then click PUBLIC VIEW LINK. Copy that link and send it in an email to Mrs. Buckenroth.
