

Google Developer Student Clubs

C. V. Raman Global University

EDITORIAL EVENT

FROM SEPTEMBER 26 TO OCTOBER 10, 2022

CONTENT WRITING

Creativity can really improve your writing skills, especially helping to improve your essay writing and other forms of academic writing.

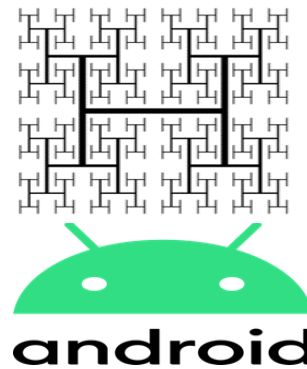

But what exactly is it all about? And if you're new to writing, how can you get started?

Content writing is all about using your imagination and creativity to express concepts and theorems in a way that is personal to you. Quite simply, it's about adding your own 'flair' to writing, going beyond the traditional boundaries of academic or other technical forms of literature.

TOPICS

- Data Structures
- Artificial Intelligence
- Design & Analysis Of Algorithms
- Android Development

RULES

The participants should not be copying the content from any website or text books. The work should be written in English . Only one entry from each participant will be considered. The length of the essay should not exceed 1500 words. The essay should reflect original thinking and the presentation of concepts with the help of examples. The essay must be typed in an A-4 size MS Word document using Calibri font for English with a font size of 12 with 1.5" spacing. The work should contain the subtopics that are mentioned below. One is free to add on extra subtopics as per their knowledge of the following topic.

Google Developer Student Clubs

RULES

- **Content == Authentic**
- **Length <= 1500 words**
- **Font = "Roboto" && Font Size = 12**
- **While(Subtopics)**

NOTE : Algorithms or pseudo-code can be used.

Data Structures

- ★ Introduction to Data Structure
- ★ Types and forms
- ★ A brief explanation of the different types of data structures and their uses

 NOTE : Algorithms or pseudo-code can be used.

Artificial Intelligence

- ★ Introduction to Artificial Intelligence
- ★ General Concepts of Artificial Intelligence

 NOTE : Algorithms or pseudo-code can be used.

Design & Analysis Of Algorithms

- ★ Complexity Theory
- ★ Approximation algorithms

 NOTE : Algorithms or pseudo-code can be used.

Android Development

- ★ Introduction to Android Development
- ★ Fundamental of Android Development Platform (Example : KOTLIN)
- ★ Navigation and app architecture

 NOTE : Algorithms or pseudo-code can be used.

DIGITAL CREATION

Digital art can either be understood as any artistic work or practice that uses digital technology as part of the creative or presentation process, or more specifically as computational art that uses and engages with masses.

But what exactly is it all about? And if you're new to digital creation, how can you get started?

Digital Creation is all about using your imagination and creativity **to create posters , graphite, logos , doodles and digital art**. Quite simply, it's about adding your own 'ink' to the screen.

TOPICS

- Navaratri Through Google lens
- Android Compose Camp

DETAILS

The participants should not be copying the content from any website or text books. The work should be written in English . Only one entry from each participant will be considered. The layout must be either a Poster or Flyer Portrait or A4 Document. The creation should represent original thinking. The font size and style could be as required. One is free to add on extra subtopics as per its knowledge of the following topic.

Navaratri through Google Lens

- ★ Introduction to festival through lens.
- ★ Representation of Diversity and Religiosity.
- ★ Significance of the wide celebration.

SAMPLES

Android Compose Camp

- ★ Community Organized event
- ★ Building Android Apps
- ★ Coding experience with compose.
