

Welcome Parkview Families! My name is Mrs. Beddo, and this will be my third year at Parkview Elementary. I have a Bachelor of Science in Education—Elementary from the University of Central of Oklahoma. I am also the proud mother of two bright and tenacious little girls, one who will also be a Pioneer this year. My experiences as a parent have helped me recognize the importance of being an educator in public education. Some of my favorite types of activities in the classroom include reading graphic novels, community building through our classroom town and centers, and integrating art within core subjects. Whether in the classroom or learning at a distance, I'm looking forward to building a learning community with your child.
