

MBARI EARTH Lesson Expectations

Required materials

1. EARTH Lesson Plan (make a copy of the [EARTH 5E template](#))
 - a. Procedures - how to complete the lesson
 - b. Materials - what do teachers need to complete the lesson
 - c. Standards - where does the lesson fit in the curriculum
2. [EARTH Lesson Checklist](#)
 - a. Title, headline, and description for website
 - b. List of teacher and student resources to be linked on website

Additional materials

1. Any additional worksheets, background material, extension activities, or lesson materials that will make implementing your lesson easier for teachers who are not here at the workshop

Procedures for submission

1. Once you have assembled your group, please let Jennifer know and she will **create a folder** for you to use on the EARTH Google Drive. Share this folder with the google accounts of everyone in your group so you can find it in the "Shared With Me" folder.
2. All lesson materials should be **uploaded into your group's folder**.
3. Please **share all items directly** with mbari.earth@gmail.com and then **transfer ownership**.
 - a. You will **not** be able to transfer ownership if you are using an organization google account (e.g., your school account). In this case, I will have to make a copy and you will no longer be able to update your lesson using the original document.

Presentation

On Friday morning, each group will present the lesson that they've developed. We'd like to hear about the context and topic of your lesson, the procedures and materials needed to complete the lesson, and any adaptations and/or extensions you've created to go with it. You are welcome to create a slide deck to share the lesson with us, but it's not required. Please plan to speak for ~10 minutes.
