Our Model

Sheridan County School District No. 2 is driven by systematic teacher collaboration. Every school develops and lives by norms that support student learning. Each week, SCSD2 teacher teams convene to ensure student learning by answering:

- What do we want students to learn?
- How do we know that they learned it?
- What do we do with kids who didn't get it?
- What do we do with kids who need a challenge?

Through structured teacher collaboration and high quality training, we ensure that teachers grow and that all children learn at the highest levels.
