

FIRST LEGO League Robotics Application

We will be able to select approximately 15-20 learners to participate on one of the First LEGO League (FLL) Challenge teams. On the back of this paper you will find several QR codes. These will take you to videos in order to learn more about what FLL is all about.

If this is something that sounds interesting to you, please complete the application form. ALL applications must be received by **Tuesday, September 5th by 3pm.** In order to be considered for the team, you will need to complete **all four parts** of the application and have it turned in by the due date. **Late applications will NOT be accepted.**

Important things to know about First LEGO League (FLL):

- The only cost will be our team t-shirt (About \$10-15)
- This is NOT just a programming / coding club. We will focus on robot design, coding, research and innovative ideas, presentation skills, and teamwork.
- We will have practices on Mondays and Thursday from 3:15-5:00
- The "Qualifier" competition will be held sometime in December on a Saturday. It is typically all day (8-3) and you will need to provide transportation for your child (we try for DFW area).
