

Bike (and Ped) Advocates,

Come help us map the low-stress bike network in La Crosse. This will help us identify the gaps in the network. Read more here:

We will be using OpenStreetMap, but no experience necessary. Bring a laptop – I may be able to wrangle one or two more, so let me know. We'll get pizza and beverage; it'll be fun and informal.

I estimated 10-15 people, but would like to receive an RSVP if you are interested, so we can make adjustments. Feel free to invite other people – just let me know.

Thank you,
Lewis
