

Hi [NAME],

I emailed you a while back with ideas for growing your online store and haven't heard from you.

I completely understand how busy you must be, flooded with emails and phone calls.

So I'll keep it short.

I KNOW that by implementing just 3 simple ideas, we can increase the traffic through your online store, and the sales revenue along with it.

I've spent months studying the automotive cleaning products market extensively, along with the biggest companies like [Company 1], [Company 2] and [Company 3].

What do they have in common?

They ALL implement at least 2 of these straightforward ideas which form the cornerstone of their successful online marketing strategies.

I'm confident they will bring positive results to [HIS COMPANY]'s online store as well.

I GUARANTEE you that implementing these strategies will drive traffic to your store and increase sales revenue.

There is so much untapped potential in your online store, and if we implement these 3 impactful ideas, that potential WILL be realized.

If you want to generate more income from your online store

Best,

Tarik
