*Empowering Students*

## PRIVATE VEHICLE AGREEMENT ALTERNATIVE TRANSPORTATION FORM

### Notice to Parents and Students Events to Which Transportation is Not Provided

In the interest of student safety and to the extent practicable, school vehicles will be used to transport students to and from school and school-sponsored activities. Because of the number and variety of activities and locations used for competitions, performances, and practices, as well as limits on vehicle availability and budgets, the School Department may be unable to provide transportation for student participants to every game, meet, practice or event. Privately owned vehicles may be used for student transportation when, in the opinion of the building principal and the Superintendent, this is the most practical or only possible method of transportation.

When the School does not provide transportation, students must find their own means of transporting themselves to and from the location, with their parent's approval. In most cases, this will only occur for practices within fifteen miles of Yarmouth High School. The means of transportation is to be chosen by the parent and the student. The School is not responsible for choosing the method of transportation or for supervising students traveling to and from the location. The school administration will ensure that coaches and advisors work closely with students to promote equity of access to each activity.

Parent acknowledgment: I understand that when the School does not provide transportation to an activity, I and/or my child are responsible for arranging and approving the method of transportation, and that the School has no responsibility for supervising or assuring the safety of my student while he/she is traveling to or from the location of the activity.
