October 30-Nov 3, 2017

	Standard	Objective/ Can Do	Activities
Monday **Vocabulary: Vocabulary Powerpoint will be revisited and added to with any additional words of interest.**	6,7,8 Embedded activities for <u>Computer Science</u> *Conditionals* ***Fun Day!***	Students will write precise instructions.	They will pair to come up with a plan to use precise programming instructions.
Tuesday **Khan Academy Programming started for 6th, 7th**	***Coding with Cards *A variation of activity from last week***	Each child will have a chance to voice about their findings.	We will work together in whole group to fully understand what's happening.
Wednesday **Conferencing with students today. **Reflection pieces worked on.***	A problem will be posed and the students will have to debug.	This will be a day the students will grapple with problem solving. Grappling is grander!	They will work independently to apply what's been learned to a particular situation.
Thursday	Continue the work	Continue the work	Continue the work
Friday	Student-Led Question	Fill in blank grids/data	Actively Share Piece!
