The introduction provides background on the problem to be solved, issues related to the problem to be solved, descriptions of other research relevant to the study conducted and emphasized the novelty of the research carried out. We use double-blind system for peer-review; both reviewers and authors' identities remain anonymous. The paper will be peer-reviewed by two experts. The review process may take 2-3 months. Notification of the result of review is by OJS journal At-Tafkir.

It should connect to the introduction by way of the research questions or hypotheses

you posed and the literature you reviewed, but it does not simply repeat or rearrange the introduction; this section should always explain how your study has moved the reader's understanding of the research problem forward from where you left them at the end of the introduction.

The use of figures and tables must be mentioned in the text by mentioning Figure 1; table 1 and so on.
