

Vision

"To become a management learning center that integrates management science, information technology, and Islamic science, with a good reputation in Southeast Asia to contribute to the development of Indonesia and global society in 2039"

Mission

1. To carry out education and teaching of management science based on Islamic values in a comprehensive manner with a transdisciplinary integrative approach.
2. To encourage and facilitate creative ideas, innovative research findings carried out by lecturers and students for the development of competitive business inside and outside the campus environment
3. To develop human resources (lecturers and educational staff) by referring to competency to support the implementation of Islamic values and management implementation
4. To conduct research development and service in the field of management
