

MMP100 | ANIMATION PROJECT STATEMENT

[YOUR NAME]

Title:

Semester/Year:

Software: Adobe Illustrator and After Effects

Description

2 or more paragraphs giving the person looking at your work insight into your creative and technical process.

Answer the following questions. You can also use the discussion prompt in the Prompts section to help you write.

- What emotion did you decide to animate and how does your animation express it (movement, colors, shapes, text etc)?
- How did your animation change from storyboard to final product?
- Which of the four transform properties did you use in the animation (position, rotation, scale, opacity)?
- What was the most challenging part of the project and how did you solve it?

CREDITS

If you only used Illustrator and After Effects files that you created you can use the following in the credits:

All illustrations and animations by Your_Name.

If you used any external sounds or images, then credit the creator with the same format used for the image and animation projects.

Prompt History

If you did not use a prompt, you can delete this section.

You need to have a Word document with your entire prompt history. You should be able to get this by typing in this prompt when you're done. **Can you create a Word document of this entire chat?**

When you get the file, you can either paste it in here or include it in your files that you submit.

Prompt Support

You can use the prompts below to help you. I suggest using a chat where you can sign in. For example, go to <https://copilot.microsoft.com> and sign in with your CUNYfirst credentials.

Discussion Prompt (copy below)

You are helping me write a **Project Description** for my animation project. The description should be at least two paragraphs long, in my own words. **Do not write it for me.** Instead, ask me questions one at a time and use my answers to build the description.

Instructions for you (the AI):

1. Ask me the following questions **one at a time**, waiting for my answer before moving to the next:
 - What emotion did you decide to animate and how does your animation express it (movement, colors, shapes, text etc)?
 - How did your animation change from storyboard to final product?
 - Which of the four transform properties did you use in the animation (position, rotation, scale, opacity)?
 - What was the most challenging part of the project and how did you solve it?
2. If my answer is very short, off-topic, or missing detail, gently suggest one way I could expand or clarify.
 - After giving the suggestion, **ask me again to try rewriting my answer.**
 - If my second response is still short or off-topic, move on to the next question.
3. After I've answered all four questions, combine my responses into a single paragraph.
 - Make sure each answer is expressed as a **complete sentence.**
 - Arrange them in a logical order: Q1 → Q2 → Q3 → Q4.
 - Do not add new content or ideas — just rephrase slightly if needed so the sentences flow smoothly.

Show me the final draft paragraph that I can copy, paste, and revise.

You need to have a Word document with your entire prompt history. You should be able to get this by typing in this prompt when you're done:
