

The ZKVerify Community Events Program

Let's start building a stronger community by organizing bi-weekly Discord events series.

The idea is designed to turn the community into a social hangout and a place where they return to chat about ZK tech and crypto topics

Some events will be planned every two weeks, or in a perpetual order. Get people interacting, competing, and building shared culture around ZKVerify.

Major Events:

Poker Night (pokernow.com)

User friendly platform with multiple login options. Easy to create custom tournaments.

GeoGuessr (<https://www.geoguessr.com>)

Geography game in which you are dropped somewhere in the world in a street view panorama. The participants need to guess the location.

World Cup Fantasy Football

There will be a lot of hype around the event so a fantasy football league would keep the engagement high.

Meme competitions on ZKVerify topics or partnerships

We will supply a base image and idea to ensure the quality of the entries is good.

Various competitions linked to IRL events such as Easter, Halloween, Christmas, New Year, Valentine's Day, etc

Minor events to be organized as simple games for sporting events, activities, elections, anniversaries, etc

The simplest form is emoji votes, as the participant needs to react to the discord event with a set emoji.

Example: Will PSG win the Champions League, and the two options will be thumbs-up or red cross.

Snapshot to be taken before the event starts so no one changes the vote.

Both minor and major events to use “ZKookies” as rewards, which will give flexibility and no obligation to supply actual prizes. As the users keep accumulating ZKookies we can offer token rewards, prizes or swag for the biggest holders.

Another idea will be to create seasons each quarter and who reaches x amount of ZKookies to receive NFTs or ZKVerify tokens.

Emoji Votes events to take place in the “Events” channel, where only MODs can post
