

## Merope Social Link Guide

### Notes

- Merope is different from other social links in the game. Instead of requiring a certain social stat to be leveled you need to bring her a specified persona with a certain move in order to progress.
- The name of the move may be called something different depending on your translator
- If her social link is locked you can check the conditions to progress by clicking on this

button 

- The Invitation Choices and Rank Up Choices were retrieved from <https://www.bilibili.com/read/cv34293726/> and [https://gall.dcinside.com/mini/board/view/?id=p5xc&no=182&search\\_head=90&page=1](https://gall.dcinside.com/mini/board/view/?id=p5xc&no=182&search_head=90&page=1) and were translated using google translate but the auto translator translations are pretty similar to the google translate translations so it should be fine 👍 (Credit to @SirAinsworth and @iant for the links)
- If you wish to have a confidant show up more often clicking this  will make them show up more often
