Class 012. Finalizing evaluation on chapter I home works

Goal

Complete the evaluation of tests and the homeworks from chapter one with discussion with students and finishing the implementation of scripts that check the home works

Work

Flatten an array

```
[key,results[key].values].flatten]
```

Write first line of csv

```
csv << ["Name",results.first[1].keys].flatten
```

Remove class 004 from the names

```
short_script_file = script_file.split(/\/).last
```
