

SL= your full potential is within reach Noah [i sound like neo from the matrix]

Hi Noah

I've been following your channel for a while. Loved your video on why someone can be successful and not happy because you clarify that success does not mean happiness So that they don't go chasing more success thinking that then they will be happy.

Your dedication to addressing this often overlooked issue shows your care for your audiences wellbeing.

I saw the link to your website in the description so i checked it out

After reading for a while I thought of a method that you could benefit from. This method has been successful for others such as Tony Robbins and Bob Proctor and i thought it would work for you.

This method reassures your client that theyve chosen the right person to help them and why your their best option

Just gimme a yes and its yours

PS if you like it i have a few more ideas
