

ONLY TRUE AMERICANS ALLOWED TO READ THIS MESSAGE

Hello fellow Americans. I am one of you.

- We love America, right?
- We love to represent our Nation, right?

What is the best way to represent your country? By its culture obviously. People tend to use a national symbol to represent their nationality, especially when there is a national symbol.

Here is a question: What is the national symbol of the USA?

Answer: Bald Eagle

Now here is another question: What is the national symbol of the USA that everyone can have and must have it?

Answer: **Guns** my friend. Those shiny bad boys

That's why we specialize in guns. We want to show the world that having a gun is not just a normal thing, it is a lifestyle.

- You hunt with them
- You make sports with them
- You protect your loved ones with them
- You shoot with them, so you can develop your sense of focus

And as Americans, we must be proud of ourselves that we have this kind of culture.

I say only real Americans must read this letter because only real Americans will understand the importance of guns and their meaning.

You my friend, I believe you are an American. R Americans always protect their values and culture as they protect their property and family

So let's make our values awake and make them as strong as a gun!
