

Ringmaster: No, this isn't me doing another weird fakeout opening, that's next week, just start riffing the following short story and I'll explain once it's over.

SC276: Because the last two months have been an ever-tightening vice to the brain, so fuck it, let's squeeze it *tighter*.

Crazy56U: And the migraine refuses to leave, it seems...

BittplexMutt: Oh right. This story.

Calico: Got back from my four-week vacation just in the nick of time to do... this.

Nox: The title makes it sound like a fanfic version of the *Scary Movie* films.

ThatUnknownPony: And that already makes me nervous if it's the second one we're talking about.

SuperMapslover: It's time to rip this not-scary fanfic apart!

PanzerThiefZero: SCARY STORY 2? Where's Scary Story 1?

Mono: It's like Troll 2. There is no Scary Story 1.

Crazy56U: Spoilers, you are an idiot.

Topher: *bursts out of a hatch in the floor wearing a Halloween costume consisting of several twigs taped to his body* I AM GROOT!

Crazy56U: *Oh, what farm fresh Hell is this...*

SennenRyu: I have nothing but good feelings about this.

It was Nightmare Night,

Crazy56U: What a fright.

ThatUnknownPony: Now give us something sweet to bite.

PanzerThiefZero: As opposed to Nightmare Day.

BittplexMutt: or Nightmare Afternoon.

SC276: Or Daybreaker.

CaptainPipsqueak: Or Nightmare That Time Just After Lunch When You Remembered You Were Supposed To Meet Someone For Chinese And Go Over Your Notes For That Important Board Meeting.

Topher: I am Groot.

CaptainPipsqueak: You are Topher.

and whilst Sweetie Bloom

Mono: -sat in her house to make YouTube Video's-

Crazy56U: As opposed to Cutie Bloom.

BittplexMutt: Or Scootaloo Bloom.

Calico: Oh shit, the teleporter fucked up again...

Topher: *dismissively* I am Groot. I am *Groot*.

CaptainPipsqueak: You are Topher. You are *Topher*.

SC276: (starts stopwatch) Let's see how long *this* lasts...

Crazy56U: Uh, *probably* should have started it a minute ago, but hey, your watch...

and Scootaloo were out trick or treating Apple Bloom was alone with old Granny Smith,

SC276: As opposed to new Granny Smith.

JofY: Saving up to trade in for a Granny Smith X.

CaptainPipsqueak: She should just get an upgrade card instead. With the money she'd save she'd be able to get a copy of Assassin's Creed 4. I would pay money to see Granny Smith go assassin style.

BittplexMutt: Because she had the flu.

Crazy56U: Because she was grounded over that incident with the chicken coop.

LimpBrisket: The End.

who had promised to tell her a scary ghost story.

SC276: She instead told only a moderately startling ghost story, and Applebloom felt cheated.

Crazy56U: Imagine Apple Bloom's surprise when the story started with her dying.

ThatUnknownPony: Granny Smith or Apple Bloom?

Mono: Yes.

BittplexMutt: Much to her dismay.

CaptainPipsqueak: Granny Smith's or Apple Bloom's?

Crazy56U: *Mono already answered that, dipshit.*

CaptainPipsqueak: The answer might have been 'no'. *DON'T ASSUME.*

Granny began.

Nox: "Once upon a time, there was this moron who wrote an AU fix fic about a show he hates."

BittplexMutt: "Once upon a time, there were a bunch of hedgehogs.."

Crazy56U: "For twelve years, you have been asking: Who is Granny Smith? This is Granny Smith speaking. I am the mare who lo- (passes out; snores)"

PanzerThiefZero: "Once upon a time... (throws book in fire) The End."

Mono: "Once upon a time, Twilight decided to take a shortcut through town..."

Topher: [I am Groot] "I am Groot, I AM Groot... *I AM GROOOOOT!*"

CaptainPipsqueak: You are Topher, you *ARE* Topher... *YOU ARE TOPHERRRRRR!*

Crazy56U: For the record, this (gestures towards Topher and Pip) is the worst bit ever done here. And yes, *I am* including "LIES! Shut up." in this assessment.

CaptainPipsqueak: Blame Topher; *I'm* just trying to return him to sanity.

Crazy56U: *You are just as much at fault here.*

CaptainPipsqueak: *LIES.*

Crazy56U: (refuses to say it out of spite)

Topher: ...I am Groot.

"Once, Apple Bloom, far back in the mists of time when even our blessed rulers the Princesses Celestia and Luna were young, the world was ruled by Discord.

Crazy56U: Some consider this "The Golden Age".

CaptainPipsqueak: 'Ruled' being a rather... *loose* term.

SC276: On one hand, the laws of physics were subjected to a d20 check every turn.

On the other, infinite supply of chocolate without having to find a Golden Ticket.

Topher: *I am Groot.*

CaptainPipsqueak: *You are Topher.*

Life under him was dangerous,

SC276: *~Here in Duckburg~*

Crazy56U: Which, seeing as how he made reality his bitch, was a given.

it was not all cotton candy clouds and chocolate rain.

JofY: Well, it was, but that was besides the point.

Crazy56U: Sometimes there was mind raping and general assholishness. And insert rant about *Return of Harmony* here.

PanzerThiefZero: And fountains of soda, and... (begins drooling in hunger)

CaptainPipsqueak: Yeah, but it's flat soda. Also warm.

SennenRyu: And, sometimes, it was baking soda.

Things were unstable,

Crazy56U: Well, that's what you get when you only have a D in quantum physics.

Calico: The code was poorly-written.

SC276: Peer review is a *thing*, people.

SennenRyu: The textures were jittery, and the gameplay was 2.5D and boring. There's a display on it in the Trottingham museum, I think.

so a flat plain one day might be a mountain the next.

Crazy56U: And a Carly Rae Jepsen song about unrequited love and having your emotions shat on one day might be- wait, hold on...

PanzerThiefZero: And the map makers were... not exactly having an easy time.

Mono: It was a great time for ski resort owners.

Topher: I am- tired of this bit.

Crazy56U: *thank fucking god*

CaptainPipsqueak: *He is Topher, you are Crazy56U, I am CaptainPipsqueak. ... But who was phone?*

SC276: (stops stopwatch) Fifteen minutes. Good hustle.

Building towns would be impossible,

SC276: You're just not trying hard enough.

Crazy56U: Not with the power of the Lord, Tim Taylor, at their backs.

wild and dangerous beasts roamed free,

Nox: [Granny Smith] "the animals took care of themselves, and the weather *moved on its own!*"

ThatUnknownPony: [Granny Smith] "It was almost like the Everfree Forest had taken over everything!"

Crazy56U: And sometimes gravity would just shit the bed.

BittplexMutt: It was mass hysteria.

SC276: Cats and dogs kissing in the streets!

but there were compensations.

Crazy56U: Granted, none of them were *good*, but...

One was that anypony with enough talent and skill and patience could learn magic,

Crazy56U: Only to then have your horn snapped off in a freak accident, causing you to abandon your country in lieu of siding with a monkey with a storm fetish and- actually, the movie hasn't come out yet, I better stop with this joke...

ThatUnknownPony: Yeah, you should listen to Rarity.

and there was one pony, a common earth pony

SC276: I don't like where this is going.

Crazy56U: If you mean causal Earth pony racism, why are you being concerned *now*?

That's practically been a mainstay of this series...

by the name of Shining Mirror,

JofY: Who was mad, claiming that he was a unicorn from the future.

Crazy56U: That was just a nickname, however. Her *real* name was Yarden Shires.

Mono: Shining Armor's weird half-sister.

Crazy56U: That's Twilight, dumbass...

CaptainPipsqueak: Shining Mirror is the *other* half sister; you have two, you know.

who learned it well and earned a wand as a cutie mark.

Crazy56U: Uhhhhh... s-sure, k-keep tellin' yourself that... ... (cough)

ThatUnknownPony: I'm sure the word you're looking for is "Illusionism" and not magic, Granny.

Mono: Ah, so this is Trixie's ancestor...

Calico: So far the only image that comes to my mind is Mirror Kirby.

SC276:

CaptainPipsqueak: It wasn't a wand, it just *looked* like one. And it was oddly shaped, too: rounded at the end and having what almost appeared to be veins running its length.

Crazy56U: Thank you for being the one to get what I was implying. (hands Pip the "You Win!" ribbon)

CaptainPipsqueak: I'd have done it anyway; you know that.

Crazy56U: *Take the ribbon and shut up.*

Her magic went far above the telekinesis that every unicorn pony has from birth,

JofY: She's more powerful than a baby? Wow!

Nox: She'd be a *god* in the Mykanverse.

Crazy56U: So, she's one of those Earth pony / unicorn bullshit hybrids from last year, then?

SC276: Has it been *that* long since that bootleg Doctor?

CaptainPipsqueak: An earth pony/ unicorn hybrid. So a unicorn, then.

PanzerThiefZero: And here we see a common Mary Sue in her natural environment.

she discovered spells like the geas

Crazy56U: She mastered the magic of geese?!

Ringmaster: No, she mastered the magic of Geese. She throws ponies around and shocks them.

Crazy56U: (smacks forehead) *Damnit*, I knew I was off...

that would prevent a pony doing something,

SC276: She had discovered it in the 3.5 edition of the Player's Handbook.

Crazy56U: Because doing things is bad. If we didn't do things, none of the bad stuff in history would have happened. Trust me, I went to college.

SC276: Including this fic. Trust me, so did I.

and then a way to switch bodies,

Crazy56U: Geese magic too OP, plz nerf.

PanzerThiefZero: Give the author some credit, they did do their research on this magical spell.

SC276: One point for, 468 points against. And half of those came from all that Grooting.

Crazy56U: *That was several lines ago, let it die.*

SennenRyu: *facepalms* And with that, this story's punchline is completely predictable.

and with these spells she planned to use her magic to be immortal like the alicorns,

Crazy56U: HOLY FUCK, SHE IS SLENDERPONY

CaptainPipsqueak: Sure. Why not.

by switching bodies when the one she was in was old and weak,

Mono: ...That's a rather dick move...

Crazy56U: So is life in general.

PanzerThiefZero: That's ageist. (ding!)

Topher: Yeah, that's all well and good until the transfer goes wrong and then BOOM! You're an evil sandwich.

CaptainPipsqueak: Pfft. Flemeth did it first.

and using the magic of the geas to stop the pony she switched with from saying who she was or acting against her.

JofY: Too bad most ponies she swapped with were shit actors.

BittplexMutt: They were robots.

ThatUnknownPony: So discount Apocalypse, got it.

Crazy56U: So, basically, Yarden's bullshit plan involves cribbing from *Quantum Leap*, but evilly, got it.

But this nearly came to an end when Discord was turned to stone."

Crazy56U: ELO had come to Equestria, you see.

"What happened then?" Apple Bloom asked.

Crazy56U: [Granny Smith] "Motherfuck, I *just said-*"

Mono: [Granny Smith] "Just shut up and fucking listen."

"After bringing stability to Equestria, the Princesses set a class system in stone.

SC276: oh here we go

JofY: Every year, Cheerilee dreaded handing out the heavy syllabus.

Crazy56U: ...so, they used Discord? That seems... ..vindictive...

ThatUnknownPony: Considering what happens in *Return of Harmony*, I'd say he deserved it.

Mono: Yay, racism!

CaptainPipsqueak: A... *sassy* class system.

SennenRyu: They needed an easy way to tell which ponies would be good tanks, dps, or healers.

One of their first decrees was that from now on only unicorns could wield any sort of magic,

SC276: And this author goes down as yet *another* one that doesn't understand how Equestria actually works.

Crazy56U: I mean, it's not like the Internet is a thing...

only pegasus ponies could fly,

Crazy56U: And Celestia and Luna forgot to include alicorns into this arrangement, so they fucked themselves over, goody.

BittplexMutt: Of course.

PanzerThiefZero: But don't the pegasi technically have magic? They do control the weather, after all.

ThatUnknownPony: *Shhhhhh!*

Topher: And Earth ponies could go fuck themselves, I guess.

CaptainPipsqueak: That's why there are *so many* of them, Topher.

and supporting them by their work on the land would be the earth ponies,

JofY: The Earth Ponies invented Tumblr to fight back against this oppression.

Crazy56U: Meanwhile, water is still wet.

Topher: Okay, I was just joking about the anti-earth pony prejudice, but damn.

CaptainPipsqueak: Damn pounders! First they want our land, then our wimmin and then our jerbs!

who from now on would have only their hooves and mouth to move things with and would be more or less banished from any sort of power.

Crazy56U: "The Earth ponies then began to ask why Celestia and Luna were rehashing given facts."

ThatUnknownPony: Except earth ponies most of the time hit like a motherfucker, so pegasi and unicorns try to not piss them off.

Calico: What did the earth ponies do to deserve this treatment, again?

SC276: Well apparently they *noticed* the fucking evil earth pony trying to body surf her way to immortality. This is such an obvious rule patch.
CaptainPipsqueak: Four legs and a horn or wings good, just four legs bad.

Most of them would be tied to the land and to the low ranking jobs for the rest of their lives.

SC276: [Applebloom] "But what about us, Granny Smith?"
[Granny Smith] "Us, Applebloom? Sweet Apple Acres succeeded from Equestria forever ago!"
JofY: Which made it hard for them to work on the fields given the ropes were a foot long at best.
Crazy56U: Yes fic, we get it, the Mudbloods are the inferior race, *kindly sing a new song*.
Mono: Because Celestia and Luna are assholes apparently.
CaptainPipsqueak: 'Apparently', he says...

There were protests of course

Crazy56U: But they really just amounted to bitching in public.
Topher: But thankfully, the people on top had magic head lasers, so the protests didn't last long, although it took AGES to sweep up the ashes.

but after a couple of the protest leaders were turned into stone

Topher: *HOLY SHIT*
Crazy56U: *Damn*, Celestia and Luna are apparently ELO groupies...
PanzerThiefZero: ThisFic!Celestia is Mykan!Celestia. Confirmed.
ThatUnknownPony: *Great, I'm getting "Cutie Bloom" flashbacks now...*
Mono: Doubtful. No one cried yet.
Crazy56U: Plus there's a considerable lack of stupid pictures.
SC276: OK, I'm starting to see how this is a scary ghost story. All the past fics are coming back to haunt us.
Crazy56U: *I swear to fuck if this means the return of Dog...*
Calico: Banishment to the moon has been replaced with banishment to the statue garden, apparently.
CaptainPipsqueak: Requires less work.
SennenRyu: They didn't use the Elements on the protesters, they just loosed a flock of cockatrices in their vicinity. Or would that be a pit?

the protests died down. Shining Mirror was horrified but rather than accept her lot she robbed the grave of a unicorn,

Crazy56U: I swear to God if this turns into *Frankenstein*...
Topher: *Frahnkensteen*.
BittplexMutt: So... a Graverobber?

SC276:

sawed off the horn and discovered there was latent magic in there that she could use."

Crazy56U: It's a real shame, though, that that's not how that works...

ThatUnknownPony: If anything, cutting off the horn would REMOVE the capacity to create magic, as seen with Tempest- Oh right, follow Rarity's advice.

"That's horrible, she robbed a grave!", Apple Bloom said in disgust.

JofY: [Apple Bloom] "I mean, yeah, she took the best years of life out of a multitude of ponies throughout the millennia, but grave robbing!?"

Crazy56U: [Apple Bloom] "This is why we have laws!"

ThatUnknownPony: [Apple Bloom] "Planning to become immortal by taking over other's bodies for many years? That's ok. Robbing a random grave? THAT'S DISGUSTING!"

Topher: [Applejack] "Why have you got a problem with it *now* sugar cube? How do you think I got my hat?"

PanzerThiefZero: I agree. I mean, these grave planners didn't set up a series of traps to stop those robbers from even taking it in the first place.

CaptainPipsqueak: [Apple Bloom] "Held it up with a gun, stole its wallet and then shot it in the knee!"

"It's not as if she took it from a living unicorn.

SC276: Right, that makes it *better*.

Crazy56U: [Granny Smith] "... ..more than once..."

Then a war broke out with the griffins

Mono: Because they are suddenly relevant now.

Crazy56U: No real reason why, it was just spontaneous.

Topher: [Peter] "FUCK YOU, PONIES!"

SC276: [griffon] "We *liked* chaos! It was the perfect cover to eat you behind!"

CaptainPipsqueak: The war dragged on and on and *on*, as anything Seth Macfarlane is involved in does.

and she was drafted. Equestria was not always peaceful, you know.

JofY: Discord's reign was a peaceful time, I guess.

CaptainPipsqueak: Well, nobody *complained*. Granted, that was due to terror, but the fact still stands.

Crazy56U: That's what the propaganda leads you to believe...

ThatUnknownPony: Well, he kept every other invasive force away to toy with the ponies, I guess.

CaptainPipsqueak: That and the fact that he turned some of the invaders *into* toys.

Toph: Ladies and gentlemen: THE LIST.

She became a sergeant and many a night was spent on sentry duty

Crazy56U: Because guns *also* now spontaneously exist in this story.

Calico: Hey, man, if *Shadow the Hedgehog* could do it, so can this fic!

CaptainPipsqueak: Actually, guns exist everywhere at all times, it's just they're invisible when not used. The extinction of the dinosaurs? There's a *reason* why nobody's really sure exactly how that happened.

SC276: ...Because there's more than one and everyone's obsessed with being "correct" over accuracy?

CaptainPipsqueak: Which sounds more fun to you: slowly freezing to death or going out in a blaze of gunfire and explosions?

SC276: *Not dying.*

upon a battlefield where many a unicorn had been killed in battle.

BittplexMutt: So, a grave of unicorns?

Crazy56U: Plot twist: Yarden wasn't actually in a war, she had a mental breakdown and was running around a graveyard screaming.

And she used her weapon to cut off the horns,

ThatUnknownPony: Weapon that just materialized into existence.

JofY: Her weapon of...

CaptainPipsqueak: I told you guys: flaming chainsaws.

Mono: And this is how Tempest Shadow- GODDAMMIT, NOW I'M DOING IT TOO!

Crazy56U: Hey, I don't blame you, the movie *is* more interesting than this...

Toph: *plugs his ears* LALALALALALALALALALALALALALALALALALA

WEEOOOWEEOOOWEEEOO MY MASCULINITY IS TOO FRAGILE TO GO SEE IT IN THEATRES SO I'M WAITING UNTIL IT GETS UPLOADED ONLINE LALALALALALA

collecting hundreds of them in secret and making bracelets and necklaces of them.

JofY: She had to stop after getting a C&D letter from Pinkamena's attorneys.

Crazy56U: No one questioned this questionable act, mainly because they acknowledged that Yarden at least had a hobby.

CaptainPipsqueak: They would have been just as happy if it had been coins or stamps, but a hobby's a hobby.

SC276: So, is this being done in the *middle* of the battle, or...?

Crazy56U: You say that as if there's an actual alternative, given this story...

And many years later she used them to steal her first new body, that of a pegasus,

Crazy56U: And the reason why she didn't choose a *unicorn* is because... ..

trapping the pegasus in her wizened old earth pony body.

Crazy56U: *fuck me yardin is possessing granny smith isn't she*

Topher: Seems like it.

SC276: These ghost stories are always crap.

SennenRyu: That was obvious from very near the start.

Since then she has lived for a thousand years, mostly in the bodies of unicorn and pegasus ponies, both mares and stallions, but occasionally in the body of an earth pony."

Crazy56U: Because I guess she had a fetish or some shit.

CaptainPipsqueak: Nah; she just wanted to remind herself that earth ponies are useful for something.

PanzerThiefZero: Nothing about trying to identify her voice? Surely someone would've noticed by now.

ThatUnknownPony: Unless her voice actually changes to that of the pony she bodyswapped with.

Mono: Except voices aren't mental, so no.

Topher: THANK YOU! It always bugged me when tv shows did that.

**Crazy56U: *It makes it easier, that's why they do it, shut the fu-* sorry, you just...
...you just poked a nerve, that's all...**

Granny Smith opened a draw with her hooves,

SC276: Then she selected the Fill tool.

Crazy56U: [Granny Smith] "(now holding a fucking gun) Draw."

**[Apple Bloom] "WAIT WAIT WAIT- (BLAM!) ...if you had just let me
fucking finish, I could have warned you that *it was backwards*."**

[Granny Smith] "(is now dead)"

**[Apple Bloom] "Really, this is all on you. I wash my hooves of this whole
affair."**

reached in and put on a necklace and bracelets of unicorn horn.

Mono: Just the one. Running joke.

Crazy56U: *DAMNIT, I WANTED TO BE WRONG.*

CaptainPipsqueak: *THIS IS YOUR FAULT. YOU FUCKING JYNXER.*

When she wanted to steal someone's body, she would wait until the pony and her were alone, put on her magical horn jewellery and say something like this.

SC276: You *want* them to know your stupid-ass backstory?

JofY: And a silent shock goes out as everyone in the room loudly exclaims how they didn't see this twist coming.

ThatUnknownPony: And a loud, silence breaking slap is heard as I hit my face with my hand.

Crazy56U: Overall, it's not as insulting as the twist of "Unfriended", so 4/10.

"Apple Bloom, I take your new fresh body and place you in mine, and bind you never to tell anybody by word or deed who you truly are.

Crazy56U: [Apple Bloom] "(shocked) WAIT, WHAT THE FUCK DID I DO TO DESERVE THIS?!"

[Granny Smith] "You ate the last cupcake, you jerk. That was my retirement money there!"

BittplexMutt: [Granny Smith] "You must swear an oath not to break this oath."

SC276: [Apple Bloom] "My friends are going to notice you're not me!"

[Granny Smith] "You'd be amazed at how well 'puberty' works as an excuse."

De Dha Mo Charm, Agus Er Magus Ec, De Dho Mo Dohoile."

Crazy56U: *Karru Marri Odonna Loma Molonu Karrano*

ThatUnknownPony: *~Ooo eee, ooo ah ah, ting tang, walla walla bing bang~*

Mono: *~Do wah diddy diddy dum diddy do~*

JofY: *Blah blah blah blah bla.*

Topher: *Klatuu Verata Nikto*

SC276: *Pirika Pirilala Poporina Peperuto!*

CaptainPipsqueak: *Ph'nglui mglw'nafh Cthulhu R'lyeh wgah'nagl fhtagn.* *begins glowing a spectral yellow*

Nox: He thrusts his fists against the posts and still insists he sees the ghosts.

SennenRyu: *Please and Thank You*

CaptainPipsqueak: No, that's the Secret of the Nile.

As her old withered voice spoke the words, the bones began to glow,

Crazy56U: What? GRANNY SMITH is evolving!

and Apple Bloom realised to her horror that she was in the presence of magic;

Mono: Oh no. Magic. It's not like she hangs out with a unicorn or something...

Crazy56U: *Shhhhhhhhhhhhhhhhhhhhh...*

SennenRyu: Why are you still sitting THERE, APPLE BLOOM? PUNCH THAT OLD LADY IN THE FACE!

CaptainPipsqueak: I'm imagining Apple Bloom decking her and Granny shooting off through the window, training sparks and smoke.

magic that no non-unicorn should be able to cast,

JofY: Good job Captain Obvious.

SC276: It's almost like this is complete bullshit.

Crazy56U: And instead of running away, Apple Bloom decides that standing still will save the day.

CaptainPipsqueak: If she doesn't move, Granny can't see her.

and that Granny Smith when she had been telling the story had been telling a story about herself.

Crazy56U: *No shit, Sherlock.*

BittplexMutt: What a twist.

"Now, Apple Bloom, tell me who you are."

Crazy56U: [Apple Bloom] "My name is Earl."

ThatUnknownPony: [Apple Bloom] "I AM CHAMPION CHRISTMAS!"

Mono: [Apple Bloom] "I'm Batman."

Nox: [Apple Bloom] "I'm every nightmare you've ever had! I'm your worst dream come true! I'M EVERYTHING YOU EVER WERE AFRAID OF!"

SC276: [Applebloom] "I AM A MAN! (PUNCH)"

SennenRyu: [Apple Bloom] "I'm the mare who's going to burn your house down! With the lemons!"

Apple Bloom opened her mouth to say who she was but instead said

Crazy56U: [Apple Bloom] "(robotically) Please insert coin to continue."

PanzerThiefZero: [Apple Bloom] "I don't have your stone, and fuck you anyway!"

ThatUnknownPony: [Apple Bloom] "There's no Apple Bloom, **ONLY ZUUL!**"

Nox: [Apple Bloom] "I'm a Nigerian prince in need of your assistance."

SennenRyu: [Apple Bloom] "I am the terror that flaps in the night!"

"I'm Granny Smith."

Crazy56U: No, honey, your name is Apple Blo- *oh, wait.*

SC276: **NO I'M DIRTY DAN**

"Excellent." As Apple Bloom turned to run,

Crazy56U: **RUN BLOOM RUN! ESCAPE FROM SOCIETY!**

Granny Smith managed to touch her with her hooves and there was a brief flash of magical power.

Crazy56U: So, in other words, the spell is less *Quantum Leap* and more *The Fairly Oddparents*.

Apple Bloom found herself in the old body of Granny Smith, her bones aching with age, her teeth mainly gone,

SC276: "Mainly?" What, she got a persistent molar or something?

Crazy56U: No, they are currently stuck in her lower intestine. Don't ask.

her eyes weak and cataracted, whilst Granny Smith was now in her strong young body with a whole new life ahead of her.

ThatUnknownPony: Too bad even Sweetie Belle is stronger than Apple Bloom judging by the show.

BittplexMutt: And she's far away from that fic.

Crazy56U: (knocks on table twice) Who's at the door? *The Superior Spider Man*?

Nobody wants you here, go the fuck away!

The new Apple Bloom snatched the bones from Granny Smith

SC276: ...what?

Crazy56U: So, wait, was a *new* Granny Smith body created and the old one disintegrated, or did gore enter onto the dance field?

Topher: Ok, this is gonna get confusing. Let's refer to them by combining their names in the following format: body, soul. So, Granny Smith in Applebloom's body is Applesmith, and Applebloom in Granny Smith's body is Grannybloom.

Crazy56U: How about no.

Topher: How about fuck you I'm doing it anyway.

SC276: Fine, Japan.

and stuffed them in a saddlebag. "I'm going to enjoy your fresh new life

Crazy56U: "Apple Bloom" was mowed down by a runaway pig three hours later and died en route to the hospital. THE END.

SC276: Or a cow. Same difference, really.

and because of my geas, you won't be able to say who you are to anyone in any way, any more then you could smash the skull of a newborn foal.

Mono: ["Granny Smith"] "Don't fucking test me."

Crazy56U: ["Granny Smith"] "I reaaaaaaaaally doubt geese are powerful enough to do that, you bitch."

CaptainPipsqueak: [Goose] "You wanna go? *I SAID: Y'WANNA GO? COME AT ME, BITCH!*"

Even if you do manage to break the geas somehow, they'll most likely think you are insane rather then believe your story that Granny Smith stole your body

Crazy56U: But I thought Apple Bloom was now Granny Sm- actually, when I say that, Yarden's plan starts to make more sense, nevermind.

SC276: So, does the geas prevent you from telling everyone your backstory?

Don't get too angry, your old body won't be able to support it.

SC276: You'd think you'd have a stronger opinion of yourself.

Crazy56U: ["Granny Smith"] "Why don't you you go get bent you jac- (explodes into dust)"

Goodbye,Granny, I'm a Cutie Mark Crusader now.

Crazy56U: Too bad the girls *already* tried Cutie Mark Crusader Quantum Leapers last week...

BittplexMutt: And it failed miserably.

Topher: They're still not sure where Scootaloo's soul went, but her body just waddles around and clucks now.

CaptainPipsqueak: The fact that nobody has clued in is... *worrying*.

Oh and look on the bright side,at least you got your cutie mark at last."

Crazy56U: Not really, it wasn't hers to begin with. That's the type of shit Season 5!Starlight would pull, you asshole!

CaptainPipsqueak: And that's why we love her.

Apple Bloom watched hopelessly as her young fresh body trotted out of the door,

SC276: Boy, Apple Bloom *sucks* at running away if they're still inside.

Crazy56U: And then "Apple Bloom" exploded. THE END

leaving her trapped in this aged husk of a body.

Crazy56U: And then "Granny Smith" passed out on the spot and woke up five minutes later having forgotten everything.

She tried to scream her name, her real name aloud, but the spell kept her silent,

Crazy56U: Plot twist: this isn't the result of the spell, "Granny Smith" has laryngitis.

and when she found a pen and paper and wrote with her mouth,

Mono: As opposed to writing with her hooves...

Crazy56U: As opposed to writing with the Force.

CaptainPipsqueak: As opposed to writing with her blood.

she found she wasn't able to write what happened either.

Crazy56U: One word: Parkinson's.

SC276: Gee, it's almost like the magic is bullshit.

Her heart beat faster, far too fast for a pony near the end of her life, and stopped.

ThatUnknownPony: Turns out she was writing her name on pages of the Death Note.

Mono: ...Is that how hearts work? I don't think that's how hearts work.

Crazy56U: ["Granny Smith"] "(looks down at chest in confusion) ... (taps on it twice)that ain't good..."

Applejack came in an hour later and found her lying dead on the floor,

PanzerThiefZero: So, that geas spell has a magical kill switch now.

ThatUnknownPony: Well ain't that convenient?

Crazy56U: [Applejack] “Oh, goddamnit, it was *her* turn to do the dishes!”

a piece of paper with "I'm Granny Smith" written on it over and over again.

SC276: You sure it wasn't "fuck" in small print on every inch?

CaptainPipsqueak: Well, she's pretty old. Probably kept it as a reminder. Senile dementia's a thing.

Crazy56U: [Applejack] "... (looks at "Granny Smith"'s corpse) *No shit.* (crumples paper) Just because you're dead doesn't mean I have to put up with you bein' *cute.*"

SC276: Also, when that didn't work, why didn't she try to write anything else, including the villain's *backstory*?

[illegible]

Apple Bloom comforted Applejack later that evening and pointed out that at Granny Smith's age, she was both confused and near death anyway.

Calico: Wow, you're right, the fact that she was "going to die anyway" totally makes everything better. Asshole.

Crazy56U: [Applejack] “(deadpan) You killed her, didn’t you, Apple Bloom?”

["Apple Bloom"] "(nervously sweats) Uhhhhhhhhhhhhhhhh..."

The funeral and burial were attended by all the Mane Six and a large number of other ponies, for Granny Smith had been well known in her younger days.

SC276: Just her younger days?

Mono: Such scary. Very fright. Wow.

ThatUnknownPony: ...I felt like I just read *Superior Spider-Man* all over again.

Crazy56U: (pats Unknown on the shoulder) I wouldn't wish that pain on anyone...

Ringmaster: What you all just riffed was a fic called "A Scary Story" by Diamond Sparkle. Seeing the title of the riff, it shouldn't be hard to figure out where we're going with this.

SC276: And yet even with this we've only got 9K. Of course, short never means better around here...

ThatUnknownPony: I think I know where this is sadly going...

Mono: Eeyup!

Ringmaster: It's the first of October, so of course, that means bad horror fics. But what we have here is... Well, it's *special*. Basically, remember the confusing insanity that was Cupcakes 2?

SC276: My brain, against all protest, will not let me forget.

Ringmaster: Well, imagine Cupcakes 2, except if the author of Cupcakes was a teenage girl that also had a direct hand in the insane fan-sequel. Sprinkle elements of *Mysterious Death* and *Element Seven*, then puree until it becomes a fine mist. That's what we have here today, a "sequel" that manages to be roughly seven times longer than the original, and is only *kind of* about the events of the original fic, instead mainly focusing on a bunch of strange OCs.

Crazy56U: *Oh fuck you.*

Mono: This is gonna be fuuuuuuuuuuuun...

SC276: Just in case the last two months didn't make you want to throw up already.

Ringmaster: But it gets *worse*. To keep with the horror theme, this fic just happens to be the most terrifying fic-writing archetype of them all.

SC276: We have seen some shit, Ring. That's a bit of a contested topic.

Ringmaster: We've done regular prose, we've done incomprehensible messes that the author believes passes for regular prose, we've done scriptfics, we've done whatever "Nostalgia Critic x Mlp Christmas" was, but even then, there's nothing quite as bad as the classic "text RP turned into a story". *All* the cringeworthy "lolsorandum" moments, converted into prose and given confusing, near-incomprehensible reasoning for happening in the first place.

Crazy56U: I-I thought LTD was text RP tu- you know what, nevermind...

SC276: I have seen some terrible text RPer, and something tells me that writing from people that don't know how to use the Shift key would be preferable to this.

Crazy56U: (mutters) or people who use 10 suggestions for one line...

Ringmaster: And, as mentioned above, said RP involved the fic's original writer, which makes this so much worse than if it was just some fan writing it.

SC276: Nothing like locking yourself in an echo chamber to make you think you're God. But enough stalling.

Ringmaster: Without further ado, "SCARY STORY 2", written by GIGA-XISBASS and suggested by BittplexMutt.

Topher: Well, at least I know who to aim for. *shoots Bitt*

ThatUnknownPony: This already sounds like a nightmare for us.

Mono: Let's a go!
Calico: Okey dokey!
BittplexMutt: Yep, let's destroy this thing.
SennenRyu: This is gonna *suck*...

PROLOGUE: The start of a new adventure! Prologue to a happier ending!

Crazy56U: *What the fuck is this anime titling?*
ThatUnknownPony: Did the author forgot he was writing a scary story and not a *shonen* anime?
Calico: Is this the part where we have to start reading from right to left?
PanzerThiefZero: Wait, 'Prologue to a happier ending'? Isn't that a spoiler? Does that mean we can delete the fic and have a week off now?
Crazy56U: *We don't fucking get good things here, Panzer, you know this by now.*
PanzerThiefZero: *Let me hold on whatever tiny fragment of hope I have!*
SennenRyu: *Abandon all hope, ye who begin this riff.*

Several miles from Ponyville is a large, hidden changeling hive,

Crazy56U: Granted, it was in the middle of a large empty field, but they had a "This is not a changeling hive" sign in front, they were good.
Mono: That... no one apparently noticed ever...

full of red-shelled changelings

Crazy56U: *Oh no...*
ThatUnknownPony: Still not as ugly looking as the green-shelled changelings.
JofY: So this fic predicted ugly rainbow changelings?
SC276: Let me guess: they turn around when they reach the edge of a platform rather than walk off it?
SennenRyu: Maybe they home in on the closest racer.

and their music loving Queen Chelicerae,

Crazy56U: *OH NOOOOOOOOOOOOOOOOOO...*
ThatUnknownPony: ...I got nothing. I'm now beginning to dread everything.
Mono: Buckle up, everybody. This is gonna be a fun ride.
BittplexMutt: Chelicerae sounds like a mixture of Chelsea and Rae.
CaptainPipsqueak: Good ol' Queen Can't Spell Or Pronounce Her Name.
SC276: Well I know what name *I'm* using.

who summons her officers to her though rather unimportant to the events about to happen.

SC276: *Then why mention it?*
Crazy56U: So, instead of having that scene, we get a *description* of that scene... ..
(scared) This isn't your average everyday padding... This is... *advanced* padding...
BittplexMutt: This kind of padding could surpass even Pen Stroke.
Topher: I never thought I'd see something more padded than my bedroom walls.

Meanwhile in the town of Ponyville, at about the same time Twilight Sparkle the star student of Celestia and bearer of the Element of Magic,

Mono: As opposed to Twilight Sparkle, bearer of the Element of Loyalty and soon-to-be Wonderbolt.

Crazy56U: As opposed to Twilight Sparkle, the extreme alcoholic.

BittplexMutt: As opposed to Twainlight Cargo, the drunk train.

CaptainPipsqueak: [Twainlight Cargo] "Connn... confushion an' delay, MOTHERFUCKERSH!!"

JofY: As opposed to Twilight Sparkle, ace dick.

SC276: As opposed to Twilight Sparkle, anal-attentive robot shipper that creates alternate realities when she arbitrarily leans to the left.

Tophier: As opposed to Twiggles McQuiggles, Princess of Twiddydinkies.

senses that a spell of great evil has been cast in Ponyville.

ThatUnknownPony: She sensed the author was writing an unnecessary sequel to an already unnecessary scary story in the form of a RP.

BittplexMutt: She sensed that the story took a turn for the worse.

Crazy56U: She sensed a disturbance in the Force. It was as if thousands of people trying to pirate *My Little Pony: The Movie* suddenly cried out in terror and were suddenly C&Ded...

SennenRyu: [Twilight] "Somepony's practicing unlicensed Necromancy again."

In the outskirts of Ponyville a temporal spacial portal leading to a gigantic library appears out of nowhere

SC276: Hey, just because I haven't made the game yet doesn't mean you can rip it off!

and out of it comes a changeling princess by the name of PRINCESS HEART,

Calico: WHY ARE YOU SHOUTING?

Crazy56U: I'm pretty sure there's a *reason* why her name is in all caps, but fuck it, "Caps Lock" it is.

ThatUnknownPony: Why is her name written like an old-school Pokemon name?

Ringmaster: Right, I forgot to mention, nearly all OC names are in all-caps. There's no given explanation either, of course.

BittplexMutt: My guess is that the capitals are there to make the OC look important.

Crazy56U: Because fuck it, this is the spiritual successor to "The Grand Rapids O'Reillys" now.

SC276: Great, *M*A*S*H* fanfiction is a thing I didn't need to know existed ever at all.

SuperMapslover: As opposed to Flurry Heart.

PanzerThiefZero: [Librarian] "What's your name?"

[PRINCESS HEART] "My name is PRINCESS HEART!"

[Librarian] "...get out."

Mono: ...Fuck it, I'm naming her Ma-Ti from now on.

SennenRyu: A portal spitting out stupid OCs? Twilight was right on the money, that is an *evil* spell.

a kindhearted royal changeling with an emerald green mane and tail and a purple bugshell and a heart of gold.

Crazy56U: A *literal* heart of gold, mind you. Like in that one series.

Mono: We've gone from golden horned unicorn to gold-hearted changeling in the span of one week? Really?

Crazy56U: Gold's back in style, what can I tell ya? (drinks from a gold-plated Diet Coke bottle)

Topher: Fuck off, no one can top the timeless look of lead! Plus, *gestures to his lead pants* my nads are resistant to all forms of radiation now!

The portal from whence she came leads to the universal library known as the Cosmic Library,

SC276: (flipping through book titled "The Akashic Records") I'm not sure whether or not to praise not using the obvious name...

Crazy56U: ...so The Pirate Bay?

connected to the multiverse and beyond.

ThatUnknownPony: It was located in the middle of the Cosmic Interstate.

Topher: [Librarian] "OOK!"

Crazy56U: (nods to self) Yep, that's The Pirate Bay alright...

This is the story of how

JofY: Apple Bloom's life got flipped all upside down?

Crazy56U: Stella got her groove back?

SC276: -to hook up your home theater?

a filly who was killed in a curse was revived,

Crazy56U: Unfortunately, Apple Bloom was now a wraith.

SC276: Or a remnant. Like, one of those skeletons that chase you to the ends of the Earth.

Calico: Said curse was the F word.

the changeling princess who helped revive her,

Crazy56U: -the dragon who was used as the blood sacrifice to make it possible (spoilers, it's Garble),-

the hundreds of victims who suffered the same fate were finally able to rest in peace

SC276: The ones who were paying attention, at any rate.

Crazy56U: The rest can go fuck themselves.

and how the evil that caused it all was finally after centuries of cheating death,

Crazy56U: -and at Pictionary,-

living under false pretences and desecrating the dead

Crazy56U: -mainly by stealing their tombstones for fun-

was vanquished to Tartarus....or at least a deal was struck

SC276: -and now they had to kill all the Devil's other debtors.

Crazy56U: -and now they had to do 100 deeds, lest they remain a dog forever and or go to Hell, I kinda forgot the show's premise...

cause they all decided on a more suitable punishment for the criminal.

Crazy56U: All this and more on tonight's episode of *Beyond Belief: Fact or Fiction*.

PanzerThiefZero: Spoilers, fic!

ThatUnknownPony: *Fuck, this REALLY is Superior Spider-Man all over again...*

Mono: Oh, hey! I don't have to read the fic anymore! *leaves*

Topher: NNNNYOOPE! *grabs Mono by the scruff of the neck*

SennenRyu: Look, fic author, I know *Romeo and Juliet* pretty much spoiled the ending in its prologue, but you don't have the writing cred Shakespeare does to let him get away with it.

We begin our story here

SC276: Then what was the last like three pages?

Calico: Padding. I think the author's trying to build a bounce house.

Crazy56U: -in Taco Bell.

as Twilight Sparkle magical prodigy of Princess Celestia herself,

SC276: *Yes, author, we've seen the show.*

Mono: No, I am *not* doing another "Sonic Apple Bloom"!

Crazy56U: Run-on sentences are the Devil's work, you *cur*.

sends Princess Celestia the co-ruler and diarch of Equestria

Mono: Ummm... honey? We know who Celestia is...

BittplexMutt: Yeah, stop trying to assume that we are goldfish.

JofY: Hey, neither of you knew that Celestia was the two strands of xylem of Equestria. That is important information.

Crazy56U: Well, she's not a fish, so that's good I guess...

a message through Spike the Dragon saying that something was very wrong.

SC276: [Twilight Sparkle] "Dear Princess Celestia, we're in a terrible fanfic."

Crazy56U: [Twilight Sparkle] "Dear Princess Celestia, I forgot how to blink again, everything is burning."

Calico: She noticed an animation error. At least, she didn't *think* faces were supposed to do that...

SennenRyu: [Twilight] "That cyclopean stallion keeps staring at me... I don't think he's well."

"Oh Spike I can just tell something's wrong.

Crazy56U: [Twilight Sparkle] "I mean, it's a *damn good thing* I can read, isn't that right, Spike?"

[Spike] "(is dead)"

ThatUnknownPony: [Twilight Sparkle] "This is starting to sound like a bad comic book plot."

I sensed that huge levels of dark magic just was recently used.

JofY: The levels were this big.

Crazy56U: [Twilight Sparkle] "Either a demonic evil just stole Apple Bloom's body for its own nefarious purposes, or Pinkie Pie did meth again."

There's something ominous in the air.

SC276: ~I can smell a case in the air, WELCOME TO WINDY CITY~

JofY: Febreze, does it really work? Or does it just leave something more sinister? We bring you the full story tonight at 10.

Topher: [Spike] "I think that's just the orchestra outside rehearsing their ominous music."

Crazy56U: By the pricking of my thumbs, something stupid this way comes.

Spike, take a letter, the princess must know about this." Said Twilight Sparkle worried.

Crazy56U: [Twilight Sparkle] "Hopefully the bitch can pry her head out of her can of paint to actually do something this time..."

"On it Twilight!" Said Spike as he writes down what Twilight says and sends the message to Princess Celestia through dragon mail.

BittplexMutt: Dragon mail. Similar to pony mail but with fire.

Topher: I approve!

Crazy56U: ...so Spike ate it, got it.

"Alright the letter's been sent. I hope everything's ok."

SC276: [Twilight Sparkle] "Um... if it *was*, I wouldn't have *sent the letter*."

JofY: Nope, Celestia is using dial-up.

Crazy56U: Meanwhile in Canterlot, Luna was having a "Nightmare Moon" relapse and was in the process of choking Celestia the fuck out.

Said Spike a bit worried about what Twilight sensed.

BittplexMutt: Implying she can feel anything.

Crazy56U: [Twilight Sparkle] "We're in a bullshit fan sequel, Spike. *What do you think?*"

[Spike] "...oh God..."

"Me too Spike, me too." whispered Twilight Sparkle as she looked out the window in deep thought.

JofY: Accidentally triggering a Disney Princess song to start.

PanzerThiefZero: [Twilight Sparkle] "Uh oh, I smell another Sue inbound. (starts drinking moonshine)"

Crazy56U: [Twilight Sparkle] "(thinking) Where does the light go when you close the refrigerator?"

SennenRyu: [Twilight] "With so many overpowered OCs, why couldn't they have just left me out of this?"

Meanwhile outside in the outskirts of Ponyville where the portal is,

SC276: Why was Twilight even on the outskirts in the first place...

Crazy56U: Because prophecy.

PRINCESS HEART the changeling princess of love

SC276: You have no faith in your audience, do you author.

Crazy56U: And also the master of the oxymoron.

Mono: Well, at least she's not the Element of Love...

Crazy56U: *i swear to god mono*

BittplexMutt: And then Cadance sued PRINCESS HEART.

SennenRyu: Because, truly, the *heart* of creativity is stealing a canon character's only real defining character trait for your own OC.

checks out her surroundings as she strategically thinks of her next move.

ThatUnknownPony: I love how the grammar plummets the moment the story focus on the OC.

JofY: Her plan to attack the grass started on the wrong foot.

Crazy56U: [Caps Lock] "(thinking) ...wait, this isn't IHOP..."

"Ok so this is that Scary Story universe I found out about a few years back.

ThatUnknownPony: "Wonder why nopony ever hears about this story."

JofY: The universe of a short story that is barely tall enough for one of us to trip over?

Mono: *eyes begins to twitch* *Fuuuuuuuuuuuuuuuuuuuuck...*

Crazy56U: (belligerently mad) Ohfuckgodbitchdamncuntsonoffuckmothershitrassafrassaasswipe

FUCK NUGGET

SC276: (slams head against wall repeatedly)

Calico: (inhales deeply) *Hooooooooooooo boy.*

Topher: The only way this could be salvaged is if Rick shows up and kills her.

SennenRyu:

Because of *course* she's also an SI. No shitty fic would be complete without at least one.

I wonder why I couldn't find this universe for so long since I first happened upon it?

JofY: This is why you log everything.

SC276: She lost the address in her couch.

Crazy56U: (mad) MAYBE BECAUSE THAT STORY DIDN'T NEED TO HAVE A SEQUEL AND THE AUTHOR OF THIS STORY NEEDS TO BE KICKED IN THE THROAT

Calico: And PRINCESS HEART chose to visit *this* reality because...?

Could someone have purposefully been blocking any chances of fixing the problems here for their own evil goals perhaps?

ThatUnknownPony: Yeah, the evil goal of "preventing shitty fix-fics to happen."

Crazy56U: (twitching; still mad) *You fucking literal self-insert OC asswipe...*

Well either way this shall be a start to stop the Geas curse I found out was plaguing this universe.

ThatUnknownPony: Yeah, a world plagued with a dark curse used by only one pony.

PanzerThiefZero: [Twilight Sparkle] "After all, it was only spoiled earlier in the fic."

Crazy56U: Or you could leave since *there is no fucking need for you to be here you ASSHOLE*

It's finally time to fix things.

JofY: "To the boiler room!"

Calico: "its time to end this ones and for all!"

SC276: Look, if you're going to fix universes of their problems, *start with Mykan*. Or Chat. Maybe also Kudzu.

Mono: [Ma-Ti] "blows up the entire universe**"**

Crazy56U: *Too fucking late.* **LEAVE.**

Now lets see, I have my lie detecting spell, the truth-stone

SC276: Seems redundant.

Crazy56U: As opposed to, you know... ...a lie detector.

that that one Changeling Queen Twilight Sparkle I met helped me get from that one universe What was it called again?

BittplexMutt: A clusterfuck?

Crazy56U: "The Reign of Queen Twilight Sparkle"?

Oh yeah the Love is Life universe!

ThatUnknownPony: Sounds like a suggestion on what to riff next year.

Mono: Fortunately, it's incomplete.

Crazy56U: Too bad, since because I fucking hate you all, I'm linking it.

SC276: (sees the note at the end of the description) ...why.

BittplexMutt: No, Author, it's "Shrek is Life."

And the Magatama spell in case I need it to find hidden secrets and all that when confronting the villain." said PRINCESS HEART as she checks her inventory before deciding to head into town.

ThatUnknownPony: Uhm, were Magatamas used as Lens of Truth or Lie Detectors in some anime or game? (Googles) ...it's a fucking Ace Attorney reference. (sinks hands into face and groans)

Crazy56U: *OHHHHHHHHH HO HO HOOOOOO BOY, WE ARE JUST GOING IN RAAAAAAW TONIGHT, BOYS!*

PanzerThiefZero: This is now an RPG.

BittplexMutt: A crappy RPG that is ripping off good games.

SC276: (slams head into wall repeatedly *harder*)

Mono: She stopped as she was C&Ded by Phoenix Wright.

SennenRyu:

Author's Note:

Well here we go starting off with prologue.

Crazy56U: *ShutupshutupshutupshutupSHUTUP*

SC276: And yet another author that has no idea what a prologue is.

First story on FIMFiction

SC276: I can tell.

Calico: ...Achievement get?

Crazy56U: Spoilers, this is his only story.

so I hope it goes well here.

ThatUnknownPony: Oh boy, I have some news for you...

Mono: ...Your story is getting riffed here. I think that says enough.

Crazy56U: Spoilers, this is his only story.

No flames please, just constructive criticism only.

SC276: I *do* give constructive criticism. In-between insults directed at your mother.

JofY: Fine, fine. *puts away the constructive flamethrower*

Topher: *pulls out a ten pound wad of C4* Nothing incendiary. Just an explosion.

Crazy56U: (pours gasoline on self; pulls out lighter) Because fuck you. (sets self on fire out of spite)

Calico: Constructive, eh? As in, you want us to tell you how to improve this story? Well, uh... ..Yeah, I got nothin'.

SennenRyu: Something constructive? Well, you could print it out, turn it into papier-mache, and build a pinata out of it. At least then, you get to play a game that ends with candy.

If anyone has any questions with the story plot And details, feel free to comment about them and I'll get back to you on it.

Mono: *looks at comments for the prologue* There's no one there...

Crazy56U: So, logically, no one read this story until now.

Can you guess the references so far?

Mono: Ace Attorney and some other bullshit changeling fanfic.

Crazy56U: The fact that God is dead and you were put on this Earth solely to test my fucking patience.

SennenRyu: The only reference I understood was the cold unfeeling march of time that I will never get back because it was spent snarking at garbage.

Love is Life belongs to starshine_dash and is where I got the idea for the Truth-stone which is a pretty useful and well thought up item.

Mono: Suuuuuuuure...

Crazy56U: *starshine_dash is spinning in their grave*

Awesome story and author, if you haven't read their stories yet, you're missing out on some good stuff.

ThatUnknownPony: I feel like we're not missing on anything.

JofY: Apparently, heroic furniture.

Crazy56U: Yes, because I'm going to take literary suggestions from the fucking self-insert fan sequel guy.

SC276: No, skipping over *Kamen Rider Ex-Aid* because of the suits is "missing out on some good stuff." This is like skipping over... apparently the second half of *Ghost*, I'm still watching it.

Calico: "Please be my best friend, starshine_dash!"

the Geas and this story's plot is a continuation of the Scary Story fanfic written by Diamond Sparkle who happened to help write this story through a RP we did together.

ThatUnknownPony: And if the author has something resembling shame, he's slamming his head on a wall for letting this happen.

Mono: This story is a shame to RP'ers everywhere...

JofY: Great DM, letting the PCs start off with magic items and high level spells.

Crazy56U: (places head in hands) *oh sweet baby jesus fucking christ, and here I thought Diamond Sparkle was smart*

CHAPTER 1: And so it begins, the truth is revealed!

ThatUnknownPony: The truth that these anime titles suck!

Topher: The truth is that **WE WERE DEAD THE WHOLE TIME!**

Crazy56U: *Pushing Daisies* was cancelled because of *reasons!*

SC276: When is it going to stop starting and just *start* already?!

Twilight hears from ponies talking about it that Granny Smith is dead now

SC276: Didn't you attend the funeral?

Crazy56U: [Twilight Sparkle] "Wait, I thought she died last year..."

and she goes to comfort Applejack and Apple Bloom over their lost.

Mono: Specifically, their lost contact lens.

SC276: Oh good, I thought they were looking for their meme.

Crazy56U: [Applejack] "(mad) *Godfuckingdamnit*, she did this to get out of doing the dishes, I *fucking know it.*"

[Apple Bloom] "I AM TOTALLY APPLE BLOOM YES REALLY."

[Twilight Sparkle] "... (awkwardly pats Applejack and Apple Bloom's shoulders) There there?"

"Oh my, this is horrible. I can't believe Granny Smith has passed on." Said Twilight sadly

SC276: *You were at the funeral.*

Crazy56U: [Applejack] "Twilight, you have been openly praying for the day she finally died, shut up."

[Twilight Sparkle] "(insulted) Big talk coming from the pony running that death pool on her!"

[Applejack] "*FUCK YOU*"

as she begins to gallop to Sweet Apple Acres.

ThatUnknownPony: To her imaginary friends, it seems.

BittplexMutt: Silly Unknown, imaginary friends don't count.

JofY: She sad jogged her way over.

Crazy56U: "She figured that, with Granny Smith dead, no one would stop her from raiding the cider cellar."

one fourth of the way

Topher: Oddly specific.

Crazy56U: Well, at least we know how much of the story we made it through...

Calico: -towards learning how to use proper capitalization-

there she sees that Applejack and Applebloom is headed her way with Granny Smith's body.

ThatUnknownPony: ...Already decomposing on top of their backs.

BittplexMutt: And Applebloom vomiting all over the place. Seriously, poor kid.

SC276: Dragging it behind them at the end of her lasso.

Crazy56U: [Applejack] "Come on, Apple Bloom, the sooner we have Pinkie stuff the corpse, the sooner we can pretend Granny didn't die!"

["Apple Bloom"] "I SEVERELY QUESTION THE LOGIC OF THIS DECISION BEING ACTUAL DEFINITELY REAL APPLE BLOOM AND ALL."

SennenRyu: ["Apple Bloom"] "IS THIS HOW NORMAL APPLE FAMILY MEMBERS HANDLE LOSS? IF IT'S NOT, THEN I HAVE MANY OBJECTIONS."

"Applejack...

Crazy56U: As opposed to Applejack.

I better meet up with her. Hey Applejack! I heard Granny Smith died, come to the library and we can talk about it."

Mono: [Applejack] "...Ah'm mournin' 'bout mah granny, Twi."

Crazy56U: [Applejack] "...and they reason why we can't do this here and now is becauuuuuuuuuuse?"

Said Twilight getting Applejack's attention and bringing her over to her as they head to the library and start talking about her death.

ThatUnknownPony: Still with a corpse on her back.

JofY: [Applejack] "drops Granny on Apple Bloom**"**

SC276: ["Apple Bloom"] "THIS PLAN DEFINITELY NOT BY ME ISN'T WORKING OUT HOW NOT I THOUGHT IT WOULD."

Crazy56U: Nobody was concerned by this, given Pinkie Pie lived in town...

"Oh sugarcube I can't believe she's gone." Said Applejack with tears in her eyes.

Crazy56U: Tears of joy, specifically.

SC276: The corpse is right there. I think that's evidence enough.

"Same here Applejack. I'm here for you." Said Twilight as she comforts Applejack. "Spike bring us some hot chocolate please."

Mono: [Spike] "I'm not your slave, Twilight. Do it yourself. *whispering* Lazy cunt..."

PanzerThiefZero: [Twilight Sparkle] "I HEARD THAT! (Spike spontaneously combusts)"

Crazy56U: [Spike] "You drank the last of it yesterday."

[Twilight Sparkle] "YOU HAD ONE FUCKING JOB, ASSHAT"

Said Twilight getting Spike to bring in some hot chocolate.

Crazy56U: *No fucking shit, Sherlock.*

Calico: This story was brought to you by the Department of Redundancy Department.

"Sure thing Twilight." Said Spike smiling as he goes to make some.

ThatUnknownPony: And then he exploded halfway through.

Crazy56U: Which he definitely will *not* spit in.

SC276: Let me guess: Spike and Twilight weren't played by the same people. And the person playing Twilight has no idea what they're doing.

PRINCESS HEART Walks into Ponyville

Crazy56U: No, the joke goes "A man walks into a bar".

and she started looking for Twilight Sparkle.

Crazy56U: Just look for a giant tree, you dip. Or, failing that, a giant crystal eye sore.

"Hmm...In case I need backup, I should have PSYCHO PIE and SPECTRUM DASH

Crazy56U: (screams at the ceiling) *WHY ARE YOU TESTING ME TODAY, LORD?*

Calico: Wow, I wonder if their names were based on already-existing characters. ...NAHHH.

on standby in case something happens.

SC276: Like absolute bullshit? Oh wait, that's happening now.

ThatUnknownPony: *Oh fuck me, now I'm having flashbacks to "SonicEG-Rainbow Rocks"...*

PanzerThiefZero: Wait, do all of the fan characters need to shout their names LIKE THIS?

JofY: No, they just add reverb FOR needless emphasis.

Topher: But it's FUN! FUN FUN FUN FUN

Crazy56U: In any case, fuck it, "Manic Muffin" and "Colorblind" they are now to be referred to as.

And I know ALICOR

Crazy56U: *FUCK YOU HIS NAME IS "STEVE".*

SC276: (badly hums "Bergentrückung")

Calico: (badly performs "ASGORE")

is always with me, being the Alicorn spirit of love and love itself.

ThatUnknownPony: Cadance is a myth. Confirmed.

Mono: Nope. She died somewhere before this fic.

Crazy56U: ...so Caps Lock is insane, got it.

SC276: This is news to you.

Crazy56U: Fuck you too.

DEATH'S even ready to help if needed, especially in cases like these."

ThatUnknownPony: Wonder why it's taking it so long to save us from this story.

SC276: Because *Gregory Horror Show*, I dunno.

Crazy56U: Because "William Sadler" (that's his name now, fuck you) has better things to do.

Topher: [Death] "I AM VERY CONFUSED."

SennenRyu: Death can't step in until Mirror makes it to the top of the Clock Tower area.

Said HEART as she contemplates her options

SC276: [] Write-in

Crazy56U: *ROLL FOR INITIATIVE!* (throws die at the wall)

Topher: On it! *starts rolling around on the floor*

in case things go awry as she heads to the library and knocks on the door.

Knock Knock

Mono: ...Who's there?

Crazy56U: Jon Arbuckle.

SC276: Jon Arbuckle who?

Calico: It's Knuckles.

"Hello?" says Twilight as she opens it with a crying Applejack nearby.

ThatUnknownPony: And then she broke in more tears after seeing that abomination in front of them.

Crazy56U: [Caps Lock] "I love you."

[Twilight Sparkle] "... (slams the door shut)"

PRINCESS HEART then heads inside undisguised being unable to even change for some reason that she hasn't realized yet.

ThatUnknownPony: She was born with a mental handicap.

BittplexMutt: She had failed to realize how stupid this sounds.

JofY: [Twilight] "Hello perfectly normal swiss pony."

Crazy56U: Translation: "The Author has yet to BS a reason."

SC276: [Twilight Sparkle] "Yeah sure, just *walk into my house without saying anything*. That's not completely rude and grounds for termination."

Since birth she's been unable shapeshift,

SC276: I would think that's something she *should* have realized already.

Crazy56U: She was considered an outcast, but mainly because of the stupid appearance.

a basic ability changeling are born with and taught how to use.

BittplexMutt: Instead of morphing.

Crazy56U: Instead, she was born with the ability to whistle.

Topher: In four part harmony using her leg holes.

Whether a disability or someone screwing around with her life

Crazy56U: You say that as if the latter option *isn't* the correct one.

for diabolically evil kicks is unknown even to her or her mother the queen of Hive Chrysalis.

ThatUnknownPony: ARE YOU KIDDING ME THIS BASTARD IS CHRYSALIS DAUGHTER?!

Mono: Would you have expected anything else?

JofY: Mother, aunt, brother, clone, the original, the good half, displaced crap...

Crazy56U: Great, all we need now is a song and for me to piss off JofY for "not being funny", and this will officially become a repeat of "The Siren Chronicles" multiparter. I want someone to fucking stab me in the goddamn eye.

Topher: Oh joy! I've never had a volunteer before! *opens a briefcase* Let's see here, Knife? A classic, but I feel like doing something new. Spork? Too goofy. Ah, here we go! *stabs Crazy in the eye with a sharpened popsicle*

Crazy56U: ... (breaks off the popsicle part; eats it)

"Hello there." Said HEART smiling with 2 fangs showings showing as she greets them.

JofY: Plot twist: She's a vampire.

PanzerThiefZero: Calling it now, she's gonna sparkle in the sunlight at the first opportunity.

Crazy56U: [Twilight Sparkle] "DEMON! (throws "Apple Bloom" at Caps Lock) THE POWER OF CHRIST COMPELS YOU TO GET FUCKED!"

SC276: You have to wonder how much the original author regretted absolutely all of their life choices when they read that.

The body of Granny Smith lies on the ground

Crazy56U: OI! That's littering!

with a horrible look of fear and disgust on it's face and Applejack and Applebloom jump from PRINCESS HEART'S surprise appearance.

ThatUnknownPony: Even Granny Smith's corpse is disgusted by the presence of this fucker. Speaking of which, OH MY GOD I WAS JOKING ABOUT THEM STILL CARRYING GRANNY'S CORPSE!

JofY: Well, they're still figuring out where they're gonna store the thing. You can't put in the attic, it'd make a massive smell. Fridge is no good, the body is too big... What can one do?

Crazy56U:e-eat it?

Topher: PUT YOUR DICK IN IT! *gets hit with a brick*

PRINCESS HEART'S smile doesn't falter despite their reaction

Crazy56U: Nor from noticing the fucking corpse.

SC276: She's taking pleasure in them being scared and one of them being dead.

understanding why they have this reaction as she looks looks at the body with sadness on her face.

JofY: She was wearing a sad emoji mask to show how heart wrenching it was.

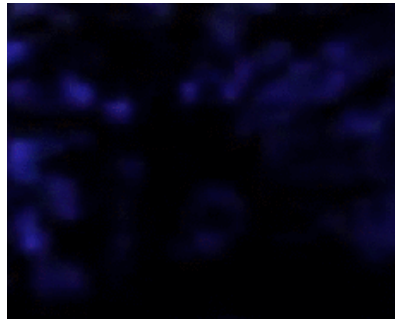

Crazy56U: Specifically this one:

"How sad, she died with fear on her face it seems...."

ThatUnknownPony: No, she died from a heart attack, not a jumpscare.

Crazy56U: No, dumbass, it was *clearly* a jumpscare. In her final moments, "Granny Smith" was greeted by this horrifying image:

*"Applebloom....instead of the enemy.

SC276: ...what?

Crazy56U: Specifically, this enemy.

The Real Granny Smith never got to met her grandchildren because of her."*

JofY: Well, assuming that evil person took over Granny around the same age that they did Apple Bloom... They kinda did...

Crazy56U: Apple Bloom is Granny Smith's cousin. Confirmed.

SC276: OK, the author doesn't know how italics work...

Thought PRINCESS HEART as she looks over the body and mentally her notes on the tragedy.

SC276: I suppose it's natural to assume the audience wouldn't know that's her internal dialogue, because by now they would've concluded she's unable to think.

ThatUnknownPony: After *The Perfect Pear*, knowing this is even more disgusting in hindsight.

Crazy56U: [Caps Lock] "(thinking) I wonder if they'll be mad if I eat some of this..."

When they all see HEART is a changeling royal who is not Chrysalis,

Mono: They were confused as season 5 hasn't happened yet.

Crazy56U: It took them *that fucking long* to notice she wasn't Chrysalis. *This is officially the saddest story we ever ran.*

Applejack asks, rather suspiciously "Who are you and why are you in Ponyville for?"

ThatUnknownPony: I think her reaction should've been to buck that bug out of Twilight's house.

Crazy56U: [Caps Lock] "None of your business, and fuck you."

PRINCESS HEART bows a bit and looks at Applejack expectantly.

Crazy56U: [Caps Lock] "I'm here... (pulls out a ring) *for you.*"

"I'm the Changeling Princess and Queen Chrysalis' daughter,

Crazy56U: And she is unfortunately unable to finish her sentence as Twilight proceeded to set her on fire. **THE END**

of hive Chrysalis, PRINCESS HEART, the changeling princess of love.

SC276: [Twilight Sparkle] "OK, I'mma stop you right there while I booze up."

ThatUnknownPony: [Applejack] "Yeah, right. And Cadance is a myth, then?"

JofY: [Twilight] "You're the princess of eating things? No wonder you're so fat."

Crazy56U: ["Apple Bloom"] "THAT MAKES NO GODDAMN SENSE, YOU ARE A FUCKING CONTRADICTION, I SHOULD KNOW, I AM APPLE BLOOM."

I'm kinda on a mission

SC276: Well? Are you or aren't you?

Crazy56U: [Caps Lock] "I mean, *I think*, my motivation's kinda bullshit..."

to undo a great evil that has been plaguing this universe of yours for centuries

Crazy56U: [Caps Lock] "Are any of you familiar with the name 'Princess Cadance'?"

and finally bury it to rest for good and could use your help actually."

Mono: "Y'know, kinda something important..."

Crazy56U:

Says HEART explaining her visit.

SC276: [Diamond Sparkle] "I am capable of reading, you know."

ThatUnknownPony: And then they kicked her out of the house for being full of shit.

BittplexMutt: That's the good ending.

Crazy56U: [Twilight Sparkle] "...fuck you."

"I could try, although....I'm sad for poor Granny Smith." Said Applejack, sadness on her face as tears fall.

Crazy56U: Or, in other words:

[Sad Applejack] "(sadly) I'm sad. ;___; (sadly cries sad tears of sadness)"

BittplexMutt: [Applejack] "She owes me money!"

"I can see that.

Crazy56U: [Applejack] "(sniff) Fuck you, Captain Obvious."

Judging by her look, I'd say she died from an heart attack while in great shock....

Crazy56U: That *goddamn* Mario...

SC276: Let me guess: that shock is why she just kept writing "I'm Granny Smith" instead of *anything about her attacker, including her entire backstory.*

and interesting enough, her death is kinda connected to my mission.

BittplexMutt: "You're on a crusade against heart attacks?"

SC276: "What, is the murderer a guy with the Death Note?"

JofY: [Applejack] "Good to know that my grandma's death is *kinda* related. Now would ya kinda fuck off?"

Crazy56U: [Caps Lock] "I was supposed to kill her you see..."

Could you guys maybe have the filly, Applebloom there,

JofY: Instead of Sweetie Bloom who also happens to be in there.

Crazy56U: ["Apple Bloom"] "OH FUCK, APPLE BLOOM, WHO IS TOTALLY NOT ME, IS FUCKED."

[Twilight Sparkle] "B-but you *are* Apple Bloom, you've been screaming that all d-"

["Apple Bloom"] "(while running away) NOOOOOOOOOOOOOOOOOPE!"

leave the room please? what I have to say isn't something for a filly to have to hear."

Crazy56U: [Caps Lock] "Specifically that the thing that is possessing her body was what was possessing Granny Smith and that it swapped bodies with her, and that the Granny Smith that died was actually Apple Bloom."

[Applejack] "... .. (to Twilight) You follow any of that?"

[Twilight Sparkle] "I think I legit just had a stroke."

["Apple Bloom"] "DEFINITELY REAL APPLE BLOOM IS DEFINITELY NOT FREAKING OUT RIGHT NOW, NOPE!"

said PRINCESS HEART getting down to business

Crazy56U: Having put on her glasses and pulled out a briefcase.

SC276: But given all the padding, she's not getting down to brass tacks.

with a serious look on her face, the air tense as she speaks.

ThatUnknownPony: [Apple Bloom] "...Look, if you're gonna talk about sex, I'm already receiving Biology classes in school."

Crazy56U: Which tense? Past or present?

Mono: You know the answer is "yes".

"U..Um ok then Ms. HEART." Said Applebloom hesitating for a moment and then trotting outside.

SC276: And then bolting for the hills.

Crazy56U: ["Apple Bloom"] "(attempting to mutter) YEP, TOTALLY REAL APPLE BLOOM IS FUCKED!"

PRINCESS HEART watches her leave and then casts a silence spell around the room so only those in the room can hear the conversation,

Crazy56U: (cups ear) WHAT? I CAN'T HEAR YOU!

meaning those outside the library won't hear a thing said.

SC276: [Diamond Sparkle] "You don't think highly of my intelligence, do you."

ThatUnknownPony: Ah, the famous Cone of Silence Spell.

JofY: WHAT!!?

Crazy56U: Unfortunately, she fucked up the casting, and now everyone *inside* the room can't hear either.

"Ok then, now that she's taken care of, There's something important you both need to know Applejack and Twilight Sparkle. but first,

Mono: [Ma-Ti] "*kills both of them*"

Crazy56U: [Caps Lock] "(loudly sneezes) Sorry, allergies."

are either of you familiar with the cursed spell called a Geas?" Said HEART with a serious tone in her voice.

ThatUnknownPony: [Twilight] "...are we seriously gonna listen to a changeling that claims to be Chrysalis' daughter?"

JofY: [Twilight] "The Irish are attacking!?"

Crazy56U: [Twilight Sparkle] "(pissed) What the fuck do geese have anything to do with this, you fucking crack addict?!"

PanzerThiefZero: [Twilight Sparkle] "What? Is that some sort of giant mech?"

SC276: [Twilight Sparkle] "I know for a fact that no-one's checked the Player's Handbook out in the last... forever."

"I've heard of it, " Twilight says, "A spell to stop someone doing something.

ThatUnknownPony: [PRINCESS HEART] "I think you're getting confused with the "Time Freeze" spell, Twilight."

Crazy56U: Also known as "Avada Kedavra".

"And its not always used for evil." Twilight mentions.

Mono: Because a spell like that can also be used for good, I guess...

Topher: You keep telling yourself Twilight, you'll be able to justify it to yourself eventually.

SC276: [Diamond Sparkle] "Take the hint, take the hint..."

Crazy56U: *Bullshit*, Twilight, you keep using it to "put Spike in time out".

"Correct, and often used together with a body or mind switching spell.

SC276: [Diamond Sparkle] "And you don't take the hint."

JofY: Oh yeah. That's such a common combination. It's like cookies and milk.

Crazy56U: Or chocolate and fucked up kidneys.

Twilight have you sensed anything evil lately by chance?" Asked HEART getting straight to the point.

ThatUnknownPony: [Twilight] "...you realize you're a changeling asking that right in front of me."

SC276: [Twilight Sparkle] "How do you know that and why should I not care that you do?"

Crazy56U: [Twilight Sparkle] "Well there *was* that business on Friday with that Storm K-"

[Caps Lock] "I have not seen the movie yet, no spoilers."

"Yes, a sense of great evil.....

JofY: The great need to pee of evil.

Crazy56U: The great need to shove JofY of evil. (shoves JofY to the ground)

so Granny Smith was murdered by magic?" Questioned Twilight.

BittplexMutt: Because magic equals evil.

Crazy56U: Well, given how we recharacterized Twilight over the years, that actually makes sense...

"Wait so Magic killed Granny!?"

Mono: Magic: the Gathering. The most harmful card game in history.

SC276: I know for a fact you didn't miss the *Yu-Gi-Oh* crossover.

Crazy56U: [Applejack] "(angrily; to Twilight) *YOU FUCKING ASSHOLE!*"

[Twilight Sparkle] "(pissed) Hey. Fuck you. If I killed Granny Smith, *you would have been the first to know.*"

asked Applejack shocked all of a sudden.

ThatUnknownPony: [Twilight] "*That's what I just asked.*"

BittplexMutt: "Pay attention!"

SennenRyu: No, AJ, a pony killed Granny Smith. We're not going to let you use this to push more Magic Control legislation through.

Crazy56U: Not because of the revelation, but because she got struck by lightning. Everyone was confused with how that happened indoors...

PRINCESS HEART Shakes head her head

Crazy56U: [Caps Lock] "*You fucking moron...*"

as she responds. "No it was by natural causes that she died, old age and a heart attack to be exact but magic was involved sort of.

SC276: [Applejack] "*would you stop being vague as fuck*"

Crazy56U: [Applejack] "Why are you playing with my emotions..."

ThatUnknownPony: Ah, so she really ended up writing her name on a Death Note.

And...it involved Applebloom

Crazy56U: And that's when Applejack cut off Caps Lock's explanation due to her throttling her to death. Twilight didn't stop her because this would mean the story was over. THE END

as well from what I've observed when I first came across this specific universe.

ThatUnknownPony: A.k.a. "browsing over Fimfiction".

Mono: And "skimming fanfics".

Crazy56U: [Caps Lock] "I was looking for the 'Sister Dash' universe, but I got lost."

I travel the multiverse you see to undo the horrific evils that plague certain Equestrias.

SC276: One of my solo plans was a co-riff of a *Binding of Isaac* fic that starts with basically that exact line.

Mono: You're kind of doing a shit job seeing as the Rainbow Factory still exists...

JofY: Yeah, why do you care about this singular evil that only kills like, a pony per century, when there are a dozen other dimensions that have ponies dropping like flies?

Crazy56U: Then where the fuck were you during "Living the Dream".

And I finally found yours again after something tried to lock me out.

JofY: [HEART] "I mean, it can't just be that this dimension doesn't want to talk with me. I'm a nice OC after all, that other dimensions should care and respect!"

Crazy56U: Specifically, the beta readers- (laughs violently) I'm sorry, I shouldn't be making shit up, *clearly* no one pre-read this...

It pains me to say this but that wasn't Applebloom who left.

Crazy56U: [Applejack] "Except it *was* you fucking id-"

It was an Imposter using her body." Said HEART with a hint of sadness in her voice.

SC276: Please, like that's that hard. (shakes around Applebloom hand puppet)

Crazy56U: Bitch, please, I can do better. (slaps on a "Hello, my name is **Apple Bloom**" nametag)

"So Apple Bloom is....a changeling??" Yelled both Twilight and Applejack shocked.

ThatUnknownPony: And then they kicked the crap out of **PRINCESS HEART** for sending that changeling.

Crazy56U: [Caps Lock] "(astounded) *Oh sweet baby Jesus, why are you being ass backwards...*"

"No. I'd know if any of you were changelings being a changeling princess and having access to the hivemind and none of you are changelings so that rules that possibility out.

JofY: They're actually changelangs. A sight difference, but a hell to legal.

That was indeed the real Applebloom yet at the same time it wasn't.

Mono: [Twilight] "...Are you drunk?"

Topher: [Twilight] "-er than me?"

SC276: [Applejack] "*what did i say about being fucking vague*"

I mentioned the Geas combo.

Topher: Your curse comes with fries and a drink!

SennenRyu: The fries and drink are also cursed.

Do the math, connect the dots and the truth will be clear." Said HEART wisely.

SC276: [Applejack] "If it's so important, why aren't you *just fucking telling us like a san pony?!"*

ThatUnknownPony: [Twilight] "So what you're saying is that you're full of shit, is what I'm getting."

SennenRyu: [Twilight] "Oh, come on! You could have mixed at least three more metaphors in that sentence! How am I supposed to eat this Literary Linguini without a decent Metaphor Marinara?"

"So....Granny Smith....

JofY: [Twilight] "Is... Actually... Sombra!"

SennenRyu: [Twilight] "...At last! I've revealed your true identity! I always knew you would come back for me... Nightmare Moon!"

stole Apple Bloom's body??! But I've known Granny for so long, she can't be evil. And how as an earth pony would she cast magic anyway?" Applejack asks shocked and confused at the relevation.

"All Earth ponies have magic in them, it's what connects them to the Earth.

SC276: Author, having the OC be more woke than canons doesn't actually *mean* anything.

But this magic was unicorn magic from back when Discord ruled before his original stoning.

ThatUnknownPony: Well, can you really blame all the criticism *Return of Harmony* got? ...Oh, you didn't mean *that* kind of stoning.

SennenRyu: He didn't invent that prankweed to *not* smoke it.

Back then all tribes could use such magic, including an Earth Pony named Shining Mirror."

BittplexMutt: Again, a really crappy name.

Mono: [Twilight] "You mean my ancestor?!"

"You never knew the real Granny Smith sadly. She was killed in this same way in her youth by this same villain taking Applebloom's body for a joyride." Said HEART explaining the truth of what really happened.

SC276: You consider someone supplementing a pony's entire personality at a young age a "*joyride*"?! The fuck is wrong with you?!

ThatUnknownPony: Again, this puts what happens in *The Perfect Pear* in a different light, all things considered.

BittplexMutt: Thank you canon for proving this fic wrong.

"So....all this time....Granny Smith was a killer," says a very angry Applejack enraged over this info.

JofY: [Applejack] "I am going to have to give Granny Smith the biggest grounding of her life!"

PanzerThiefZero: No, Shining Mirror was the killer. Granny Smith was just the victim of a bodyjacker. (ball drops in the background)

SC276: Yeah, uh... as the semi-inventor of this running gag, that's for when the *riffers* fuck up. So... (catches ball dropping in background and shoves it down Panzer's throat)

Crazy56U: And as the *main* inventor of the gag, *do it again, she needs to learn!*

PRINCESS HEART stares at her and replies. "Pretty much only she didn't need to actually kill her victims. She pulled this off minutes before each of her previous victims would've died

Mono: Ummmm... Granny Smith died from a shock-induced heart attack. There is no way she could have known she'd die that night.

Topher: Oh come on, did you see her? It was a miracle she could stand up without breaking all her bones!

SC276: What show are *you* watching?!

PanzerThiefZero: Plot twist, Shining Mirror is a shinigami.

to ensure she'd stay alive while the last body died of old age.

ThatUnknownPony: And yet she conveniently knew that Granny Smith would suffer a fatal heart attack on Nightmare Night.

Mono: Indeed!

Shining Mirror, an Earth pony villain from Discord's time,

SC276: [Diamond Sparkle] *"i literally wrote the story you don't have to repeat it back to me fifteen times"*

desecrated hundreds of Unicorn graves for their horns to make into a necklace and bracelets.

SC276: [Diamond Sparkle] *"and that's just plain wrong there's no bracelets and they were corpses fallen on a battlefield did you even READ the story"*

That's how she could still use her magic.

ThatUnknownPony: Meanwhile, Twilight was already grabbing her reserve of moonshine, trying to shut down her inner voice screaming "That's not how magic works!"

PanzerThiefZero: Spoilers, this is secretly a prequel to *Rainbow Factory*.

Before Granny Smith died, Shining Mirror used that Geas combo

SC276: Why is the *geas* such a major focus? It's like calling the Dalmatians escaping from Cruella's mansion "The Sweep-Pawprints-Clean-with-Tails Escape."

to switch bodies again leaving Applebloom to die in Granny Smith's place of old age and heart attack from panicking just like all her previous victims, The real Granny Smith included."

ThatUnknownPony: So all old ponies have a weak heart that stops at the first sight of panic? *What a bunch of wimps.*

Mono: That's old peoplelist! *ding*

"A harsh way to go, never experiencing their life to the fullest." mentions HEART as she speaks.

SC276: You think *that's* harsh, we have to *read* about it.

"So.....I've lost my sister for good. That's even worse then the real Granny Smith dying." Said Applejack bursting into tears over this revelation.

ThatUnknownPony: As in her head exploding into tears, from the utter stupidity of that sentence.

CHAPTER 2 Death appears and the plan is set in motion!

ThatUnknownPony: Enough with the fucking anime titles!

PanzerThiefZero: Maybe I can provide an alternative? 'Chapter 2: Death Lives'.

SC276: Electric Boogaloo!

SennenRyu: But we haven't seen the ghosts of the past or the present yet!

"Well that's why I'm here.

SC276: To arbitrary break the chapter in the middle of a conversation.

To undo this evil and bring back the victims. Granny Smith may have died back then but she deserves her life just as much as Applebloom did." spoke HEART.

ThatUnknownPony: Shut up, you discount Magical Girl.

SC276: Specifically, discount Madoka. So, Yuki Yuna. And whoever the lead was of *Day Break Illusion*.

The air chills a bit as DEATH makes himself known in the form of the legendary STEED REAPER.

ThatUnknownPony: ...hold on, I need to drink something. (grabs the first bottle at his reach and drinks it) ...Yeah, that's the stuff.

SC276: Hey! You owe me a new orange juice! That's the import stuff!

Crazy56U: (is practically inhaling Diet Coke)

BittplexMutt: Get it? Because he's a steed and the Grim Reaper.

Mono: Huh. I always thought the pony equivalent of Death would be something different.

Topher: BULLSHIT. Death's horse's name is Binky.

"Well said PRINCESS HEART. I also won't allow this villain to continue to cheat me and desecrate the dead." Said STEED REAPER.

ThatUnknownPony: Meanwhile, Twilight and AJ just fainted watching *DEATH ITSELF* materialize in front of them.

BittplexMutt: Seeing Spike die all the time has completely numbed Twilight.

"So you can unpossess Apple Bloom and banish the possessor to Death's realm?" Applejack asks Death and HEART.

ThatUnknownPony: You're taking this surprisingly calmed, Applejack

BittplexMutt: Applejack does not fear death.

Mono: ~Ponies don't fear the reaper / nor do the wind, the sun or the rain~

Topher: *enthusiastically plays the cowbell*

"Yes both of us can if you haven't yet noticed the skeletal the wind,

SC276: [Chuggaaconroy] "THE WIND!!"

theEarth Pony currently standing next to Granny Smith's body." says HEART pointing to STEED REAPER who isn't hard to miss.

SC276: Wait, I thought both DEATH and STEED REAPER (vomits) were the same guy.

Applejack is a little scared as she sees him speaking. "One day you will come for me, Death."

ThatUnknownPony: [Applejack] "Can that day be today? I don't feel like dealing with this shit."

BittplexMutt: "Which will be very shortly."

SC276: ~YOUR SPEED MEANS NOTHING IF IT'S DEATH THAT YOU'RE RUNNING FROM~

"...Yes I will...perhaps...Though you're the bearer of Honesty, you...may have immortality flowing through you because of it or you may be destined like Twilight there to be a alicorn princess.

SC276: (double facepalm)

ThatUnknownPony: And cue the angry fans complaining about her getting wings.

BittplexMutt: Shhhhh, spoilers!

Mono: LARS000N!

Topher: *Is flapping around near the rafters* Uh guys? About spontaneous wing growth... Also, it's AN alicorn princess. She'll become AN alicorn princess.

I don't know exactly but should either happen I can't claim you." claims STEED REAPER.

ThatUnknownPony: [Applejack] "THEN CLAIM ME NOW BEFORE IT'S TOO LATE!"

BittplexMutt: Good, this isn't a clop fic.

"So....how do we extract the Granny-thing from Applebloom?" asked Applejack.

"To remove Shining Mirror from Apple Bloom so we may punish her for centuries of malicious crimes against her fellow ponies, alive and dead, I'll have to reap her soul.

SC276: (100%*s Kirby Planet Robobot* a second time) Boy, you sure took your time getting here.

Her time's come, it's been up for centuries. This faux immortality will cease. We need to trap her before she tries to switch bodies again

SC276: Which shouldn't be an issue for the next century or so.

Mono: Ooh! Ooh! I know how!

Crazy56U: Or you could just cut out the middleman:

Topher: Or, you know: Just shoot her. We've already established that her bodies are mortal.

later once she knows we're onto her. HEART will go to her first to distract and confront her. Applejack and Twilight, you'll lure her to the basement of Sugarcube Corner and close the door on her. There's nothing down there she could use to attack with

Mono: Except for a fuckton of foo- oh shit you're not going to do what I think you're gonna do, do you?

Topher: Oh, I think we both knew they're doing the do doings that they done did.

SC276: [Diamond Sparkle] "i regret everything"

and only one door so it's the perfect trap." Said STEED REAPER

SC276: Until someone chains Seven Tools of the Bandit to it.

as he strategically plans out their game plan.

ThatUnknownPony: Strategically planning, pulling out of his ass, same thing.

Applejack waits for her to be brought in. "So...want so hot chocolate as well?" Asked Spike a bit scared Death is here.

ThatUnknownPony: [Spike] "...please don't take me again. It's the tenth time this week." *more sparks come out of his head*

[Death] "...Are you sure?"

"...sure with marshmallows please." Said STEED REAPER nonchalantly.

ThatUnknownPony: For they already knew each other pretty well. *I can't believe all our riffs have come into fruition.*

Mono: Who knew Death was such a chill guy?

Topher: Terry Pratchett did.

"Spike goes and gets DEATH some hot chocolate."

SC276: So dictates... someone.

PanzerThiefZero: [Spike] "I don't want to and you can't make me!"

"I think that'll work well DEATH. With this plan we can corner Shining Mirror and get her to confess her crimes and as well as her motives for committing them." "I'm sure the princesses would love to hear them if they're brought into this and Tirek too." Said PRINCESS HEART as she gives her two cents on them plan.

SC276: What do *they* even have to do with this?!

ThatUnknownPony: *Tirek did nothing bad enough to be dragged into this!*

Mono: Except for stealing almost all magic...

ThatUnknownPony: *That's still not bad enough to be punished with being in this plot!*

Topher: *You might be able to make a case for starlight glimmer though!*

Author's Note:

A short chapter cause I couldn't think of anything else to add at this point. if anyone has any ideas for the chapter it'd be much appreciated.

ThatUnknownPony: How about "Please stop and read what you're writing before publishing it."

BittplexMutt: How about "Make sure sequel actually connects to the original."

Mono: How about "Never RP again."

SC276: Maybe "Pick up at the passive-aggressive cues of your RP partner is sending that your very presence makes their day miserable."

Crazy56U: The only idea I have is free real estate, does that count?

Topher: You get used to it after the first dozen or so times. Start building a repertoire with the security guys,

SennenRyu: How about, "Don't have your good guys talk about collaborating with the very worst villain they've ever faced as though they were all buddies?"

CHAPTER 3: Confrontation, Changeling Princess vs. 1500 year old Earth Pony! A battle of wits.

ThatUnknownPony: Boredom, Stupid Fanfic vs Angry Riffers! A battle of who gives a fuck.

SennenRyu: How tragic. They're both unarmed.

Crazy56U: Glad to know the title guy is being *cute*...

PRINCESS HEART heads outside to look for Apple Bloom "Applebloom where are you? We have something to talk to you about. Come to the Sugarcube Corner please." Applebloom leaves her friends of the CMC and comes to the Corner to see what's up.

ThatUnknownPony: And yet nopony caring that there's a changeling pre-season 7 in the middle of Ponyville.

Mono: Nope!

SC276: They know a bullshit OC when they see one, unlike captain of the pod people there, so they know to just steer the fuck away.

Walking into Sugarcube Corner before Applebloom, PRINCESS HEART waits for her and when she comes, checks her and doesn't see the bracelets or necklace on her before sighing to herself.

ThatUnknownPony: [PRINCESS HEART] "Why are you smarter than me?"

Mono: Because hiding things is a myth...

"Ok Applebloom I have something to ask you. Please answer honestly and if you do, there's a surprise for you down in the basement."

SC276: ["Apple Bloom"] "GIVE ME TWO REASONS WHY I, THE EXCITABLE LITTLE KID THAT IS DEFINITELY NOT THOUSANDS OF YEARS OLD, WOULD NOT JUST RUSH DOWN THERE TO SEE WHAT THE SURPRISE IS."

HEART says smiling as she distracts her attempting to get her in the basement to spring the trap.

ThatUnknownPony: Distracting her from what, exactly?

SC276: Is Princess Caps-Lock trying to distract her from doing... exactly what Princess Caps-Lock *wants* her to do?

BittplexMutt: Oh god, get out of there Applebloom! Bad stuff always happen in basements!

Mono: Have you never read Cupcakes?

Crazy56U: (depressed) Thanks to this series, I have upwards of three times...

"A SURPRISE? Will it help me get my cutie mark?" Asked Applebloom.

SC276: ["Apple Bloom"] "I ASSURE YOU I AM CAPABLE OF MORE THAN ONE CHARACTER TRAIT."

"Yes it will. says HEART as she smiles knowing what the real Applebloom's cutie mark will be in the future and how she gets it.

ThatUnknownPony: So on top of being the daughter of Chrysalis and a dimensional traveler, she's a fucking clairvoyant. *I thought we had enough Wanna-Be Doctor Whos with that fucking bat-pony transformation story!*

SC276: ...Are you telling me you're writing this *from season 5 or later?! When was this posted again?! This is grand-scale cheating, Batman!*

Topher: Well now I'm disappointed they got their tramp stamp just because this author got to be right.

"So will you answer my questions honestly?" she asks.

"Of course, Princess." Said Applebloom as she prostrates herself to the Princess to show respect.

SC276: ...what?

ThatUnknownPony: ...I'm not touching that.

Topher: But CAPSLOCK MCGEE will touch it if you catch my drift!

Mono: nope!

Crazy56U: i fucking hate you all

"Ok then. Now lets see, would you say in your opinion you have a wonderful life? asked HEART.

Mono: Leave that movie out of this!

"Yes, I do, apart from when I get teased for not having my cutie mark." she says.

PRINCESS HEART nods and speaks again. "And the 2 bullies who tease you need to be taught a lesson. Though, I wonder why they even bully in the first place? I wonder if deep down they wish to be friends but due to their personalities this happens instead?"

ThatUnknownPony: I'm pretty sure *Crusaders of the Lost Mark* showed that while they didn't want to befriend them, at least Tiara envied them for their friendship because of how crappy her life was with her mother?

Mono: Shhhhhhhhhhhhhhhhhhhhhhhhhhhh, that episode didn't happen yet!

SC276: From the *story's* perspective, maybe...!

BittplexMutt: Honestly, I always thought before the episode that Tiara's mother had died just because of how little she and her father talked about her previously.

If given a chance would you help them? Befriend them?" She asks.

Topher: [AppleLIES] “I get where you’re going, lure them into false sense of security and WHAM! Murder TO THE FACE!”

"I suppose I would try too."said Applebloom. PRINCESS HEART nods and smiles.

ThatUnknownPony: Realizing this is Pre-Season 5 and there's no way Apple Bloom would say that.

PanzerThiefZero: It's bad fanfiction. You should know canon is just a suggestion here.

"Good answer Applebloom. Now come your surprise awaits." she says as they head into the basement where HEART confronts her while she waits for Applejack and Twilight to arrive,

SC276: That *entire conversation* wasn't long enough?

closing the door behind her to continue distracting her.

Mono: And then she snapped her neck.

"Here's a building set for you Applebloom. I know how you have a knack for building stuff and I'll bet that's your special talent." says HEART.

SC276: OK, every time I see that name, I see one of the main villains of *Kamen Rider Drive* and it's fucking with my head.

"It actually is but you haven't seemed to realize yet." thought HEART.

ThatUnknownPony:
bad fic wrong.

Thank you, canon, for proving yet another

Mono: Thank you, Unknown, for posting a picture of the asses of three fillies. I'm going to jail by the end of this year, I swear...

Crazy56U: You're playing with fire, you know...

Applebloom starts building a model castle more to please the Princess more than anything else.

SC276: Oh, OK, it's not after season 5, it's bullshit assumption default mode.

Topher: And here we see how hasbro designs its playsets.

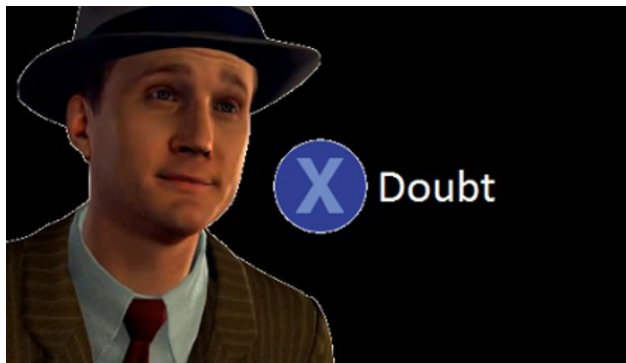

PRINCESS HEART Watches as she builds it before asking a question. How old are you exactly? ...Shining Mirror? Asked HEART as she activates the magatama and lie detecting spells by casting them.

SC276: Well that's not fucking overkill.

ThatUnknownPony: Somewhere, the Fey Clan feels like they're being dishonored by association.

"What?? I'm..... only ten years old."

SC276: Why are you answering a question she thought at you?

Mono:

said Shining Mirror trying to lie glowing red as she lies.

ThatUnknownPony: Also a lot of red chained chests appeared in front of her.

SC276: Locks. They're Psyche-Locks. (ball drops in background) See, Panzer, that's how it works.

"Lie.

SC276: And now, that one episode of *Xiaolin Showdown*.

Applebloom is 10, you're not. How old are you?"said PRINCESS HEART glaring, not amused by the lie.

"I...do I have to tell you? Do you really want to know?" questioned Shining Mirror.

ThatUnknownPony: Good to know this "evil-plaguing" villain gives up so easily.

BittplexMutt: Unless she's putting up an act.

"Yes I do. And you're trapped here.

SC276: ["Apple Bloom"] "(bucks her in the face and runs)"

You might as well come clean Shining Mirror. I'm not gonna hurt you unless you attempt to harm me. Answer honestly and do as I say and I'll see if I can't help your case some." says HEART.

SC276: [HEART DRIVE] "I can probably make sure there's only seven devils tormenting you instead of ten."

"I am over one thousand five hundred years old." says Shining Mirror glowing green speaking the truth.

ThatUnknownPony: Good to know this lie-detection spell turns you into a living traffic light post.

Tophers: She turns yellow for half-truths, blue for sad but truths, white for universal truths, et cetera.

PRINCESS HEART looks at her and speaks. "I see. 1500 years huh?

Mono: Noooooooo, she's over 1500 years old.

SC276: Pay attention already.

Tophers: [CAPSLOCK MCGEE] "So, mentally speaking you're... legal?"

Ancient. Tell me, why did you do it? Why'd you use the Geas body/mind switch combo back then? you realize that you condemned many innocent ponies and foals to death just so you could live longer right?" questioned HEART wondering if she has any morals at all.

ThatUnknownPony: Judging by her body count, none whatsoever.

Mono: Because she's *sliiiiightly* sociopathic...

"I didn't want to age and die." Said Shining Mirror honestly.

SC276: You succeeded in avoiding only one of those things.

"There are better ways to go about trying to achieve immortality. You could've tried something that wasn't pure evil.

Mono: Like knitting! You can knit your eternal life together!

SC276: ["Apple Bloom"] "Like *what*?! Be born as the most powerful unicorn in modern history, become Princess Celestia's personal protege at like seven, and learn all about how friendship is magic to the point I'm worthing by my teacher to become an alicorn?! *Please!* We all know the fans wouldn't shut up about it even when that episode is earlier than the midpoint of the series!"

You understand the consequences of your actions don't you?" asked HEART wondering if the mare before her realizes the severity of her crimes.

ThatUnknownPony: I'd say she does, *but then again* Starlight Glimmer didn't realize her temper tantrum almost costed everyone's life (and in one timeline it did), so...

Crazy56U: You know you've fucked up when *Season 5!Starlight Glimmer's bullshit* is more justifiable...

"So you want to turn me to stone then, a living death?" Said Shining Mirror freaked out and afraid of what HEART has in mind.

SC276: Gheezee, Celestia turns *one* entity of chaos to stone and everyone just jumps the gun...

BittplexMutt: [PRINCESS HEART] "No, it's too mainstream."

Topher: Nah, just a few centuries on the moon.

PRINCESS HEART *shakes her head and looks at her*

Mono: *groans*

SC276: *you insult the art of RP*

"Like most Discords out there in the multiverse, I don't turn ponies or any species to stone.

ThatUnknownPony: Thank you for sadly reminding us *Return of Harmony was a thing...*

BittplexMutt: The other Discords on the other hand, don't wanna be associated with you.

At least unless they're monsters trying to kill me and my friends and aren't resistant to stone.

BittplexMutt: So, a fire-type Pokemon?

And it's not your body, we're not turning an innocent pony to stone to punish a criminal inhabiting them.

SC276: [Celestia] "Speak for yourself, sister."

You'll have to die sadly though because you escaped death for too long and he's already here for you anyway.

ThatUnknownPony: Unfortunately, Death was more busy dealing with Spike for the eleventh time this week.

Mono: [Death] "How the fuck do you keep doing this?"

SC276: [Spike] "I don't know! Everyone just finds my pain and misery funny!"

You'll die and Applebloom and Granny Smith with both get their lives back. And her youth too since she missed out on much because of you."

ThatUnknownPony: I'm sure that won't bring any wacky shenanigans in the future, like when Granny looks to see how her son is doing.

SC276: So... wait, if she's 1500+ years old and gets a new body every 100 years, that's still over 150 ponies. Which are just going to suddenly appear. In modern times. Many of whom will be fish out of temporal water.

Topher: I smell ~~ZANY HLJINKS!~~ With a few notes of ~~WACKY SHENANIGANS!~~ And a faint souciant of ~~KOOKY ANTICS!~~

"But my soul will be sent to Tartarus." Said Shining Mirror

Mono: [Ma-Ti] "...Yes, that is how death works..."

glowing green and afraid of her soul's fate.

PRINCESS HEART looks at her glaring as she speaks. "You should've thought of that before you dabbled in the Geas combo for the evil way,

SC276: *stop naming it after the literally least important part of it*

Topher: Well if you hate that name, here are some others: The Switcheroo-and-silence-too, the one-stop-swap-n'-stop, the Bag-'em-and-gag-'em, the steal-and-seal, the-flip-their-soul-and-plug-the-hole, I can keep going, guys.

but if you're truly remorseful of your actions and wish to make up for the damage you've done over the centuries,

SC276: Which she will totally be feeling up to after getting away with this for over a millennium.

well then I think DEATH can arrange something for you with Tirek the Centaur, lord of Tartarus." Retorted PRINCESS HEART.

ThatUnknownPony: Because apparently being the main inmate makes you Lord of the Jail, it seems.

"I don't want to die! please spare me I'm sorry!" Screamed a glowing green Shining Mirror now fully realizing how much trouble she's in.

SC276: Is the fucking lie detector really necessary at this point...

PRINCESS HEART shakes her head as she speaks. "It's sadly for you too late for that, you've evaded death for centuries switching bodies.

Mono: LESS TALKING MORE BANISHING!

SC276: Or, y'know, jump into the *changeling princess Sue*. But apparently *that* requires reading off her entire backstory as a ghost story first.

Because of that innocent foals ended up dying instead in addition to teenage and adult ponies.

SC276: What was she, *desperate*?!

And you desecrated the dead for unicorn horns to make a a necklace and bracelets.

Mono: Even she is stuttering due to the horrendousness of that action!

SC276: ["Apple Bloom"] "Actually, it was just the necklace-"
[RIDER DEAD HEAT] "SHUT UP I AM ALWAYS RIGHT"

This alone is punishable by stone if not death by banishment to the sun.

ThatUnknownPony: I mean, just look at poor Jubileus, The Creator.

Be glad I'm taking over the punishment and willing to be lenient with you because of your crimes because this is your first and only offense in your entire life." Said HEART.

Mono: An offense you have repeated for 1500 years...

PanzerThiefZero: "After all. You only killed two of my just acquainted close friend's relatives when I arrived."

The false Applebloom hangs her head in fear at what will be done to her and she tries to reach into a saddlebag.

SC276: Which she just... has on her now.

"Everyone will be here soon Shining Mirror. You may as well surrender willingly. We can work something out with Tirek.

SC276: We get it, this was written before season 4.

If we're lucky you'll be sentenced to community service in Equestria and won't have to worry about Tartarus."

ThatUnknownPony: So, the murder of hundreds of ponies, from foals to old farts, is only punishable with Community Service... what?

Mono: I guess because it's her first offense, even though that reasoning is bullshit...

"At least then you won't suffer for your crimes and you can try to make up for them." said HEART bargaining with Shining Mirror

SC276: [Diamond Sparkle] "I! CAN! READ!"

who pulls out a unicorn horn and shoots a blast of lightning at PRINCESS HEART.

ThatUnknownPony: ...this is going to turn into the last five minutes of *The Cutie Remark*, isn't it? *No, I'm not ranting, I let that go a long ago...*

Crazy56U: I hope not. I reallllllly do not want this to turn into "better season 5 end"...

"..Reflect." Said PRINCESS HEART casting the reflect spell to bring up a reflective barrier in time and sends the lightning back at Shining Mirror's horn weapon.

ThatUnknownPony: Freakin' Palutena mains...

Mono: HEART's Defense sharply rose!

Topher: And yet, it still somehow hit Spike.

"I'm not stupid.

SC276: SEVERELY DEBATABLE.

I came prepared if you tried anything." Remarked HEART. The lightning hits the horn and shatters it to dust on impact. "Any spell you cast on me will return at you.

Mono: I am rubber, you are glue.

PanzerThiefZero: So essentially, every single text roleplay between 2 godmodding Mary Sues, got it.

**Topher: [Applebloom except not] "PEW! You're dead, I have a death ray!
[CAPPY MCCAPSLOCK] "NUH-UH! I have a shield! It bounces back at you!"**

I suggest for your safety and Applebloom's don't try that again." said HEART glaring.
"I'm going to die soon anyway." Said Shining Mirror.

ThatUnknownPony: [Shining Mirror] "I might as well spare this filly from the pain of enduring this story!"

BittplexMutt: [PRINCESS HEART] "Oh, then my work here is done."

PRINCESS HEART shakes head and speaks. "Doesn't matter, your time came long ago. But you obviously don't understand that death isn't the end.

ThatUnknownPony: *Please don't go there, some of us legitimately are afraid of death.*

Crazy56U: Three words: cessation of existence.

Topher: Wait, are you people SERIOUSLY afraid of death? I can to terms with my mortality AGES ago. Seriously, come to grips with your impermanence buddy, you'll be much happier.

Every end is a beginning, every beginning an end.

SC276: *Stop ripping off Chaotic!*

Mono: So what you're saying is that this story never ends.

PanzerThiefZero: (Is playing music at max volume to ignore that statement) WHAT WAS THAT, MONO? IS THIS STORY COMING TO AN END SOON?

SennenRyu: *~It just goes on and on my friends/Some people started readin' it/Not knowin' what it was,/And they'll continue readin' it forever just because...~*

There's life after death, what happens then is up to you.

ThatUnknownPony: If you're lucky to have a belief in God. Some aren't that lucky and, well...

PanzerThiefZero: "Specifically, if you happen to choose the one correct religion out of the 9,424,346,136,743,467,355,091,123,489,642,678,422,146,294,039,134 wrong religions. That's what Jack Chick taught me anyway."

Crazy56U: ...because big number equals joke, I guess...

Topher: My money's on the Blue Oyster Cult! ...those guys are a religion right?

Mono: Sure, Topher. And they worship the Reaper and giant cowbells.

I should know I've met many allies who are technically dead but don't let it get to them." Said HEART with wisdom.

**SC276: Yeah, sure, when the *living* person's around. This isn't fucking *Corpse Bride*.
SennenRyu: [HEARTY] "Yeah, like Seymour and Jecht! Crazy couple of guys, there. I think you'd like 'em.**

Shining Mirror then asks "Can't you just put me in a cocoon and harvest my love instead?" "Then we would both gain from it." she adds.

ThatUnknownPony: We would get spared from the rest of the story, at least.
SC276: ["Apple Bloom"] "I PUT THAT IN TWO QUOTATIONS BECAUSE FUCK I DUNNO."

"I'm mainly against that kind of fate actually and I make sure changelings and ponies can coexist in peace.

Mono: Wait a few more seasons, sister.

It's better that way, we get love and ponies aren't harmed from the feeding because of freely given love.

ThatUnknownPony: Honey, stop. You're not Thorax, you actually look worse than him for starters.
SC276: And that includes *post*-season 6 finale.
Topher: Translation: We just eat the sluts.

And death's waited long enough. He has a job to do and reaping your soul.

SC276: [HEART OF NOVA] "There's been like an entire backlog."

Whether this ends the easy way or hard is up to you. But know that the hard way will be worse off for you. Please Shining Mirror give yourself up and do the right thing for once in your life."

Mono: Just die so the story can end!

Begged HEART for Shining Mirror to for once in her life to do the right thing.

SennenRyu: "Why is the narration saying what she is saying?" SennenRyu asked why the narrator repeated the dialog.

"If you do I can at least lighten your sentence." she says.

SC276: ["Apple Bloom"] "I heard that part the first time!"
ThatUnknownPony: *facepalming with both hands* *Oh dear God, this really is the last minutes of The Cutie Remark, you know that was the weakest part of that episode?*

"So what do you want me to do instead of being executed?" Asked Shining Mirror.
PRINCESS HEART looks and her and responds. "Give me a moment to think please."

SC276: *wasn't there already a community service thing gheeze you need more than this to reasonably expect continuity to be forgotten*
ThatUnknownPony: *slowly claps* Good to know you don't even know what to do in this mess.
BittplexMutt: Well, gee. Wonder what's gonna happen.
Mono: Probably something stupid...

BittplexMutt: Watch as nothing happens.

Mono: When your title has "return to the library" in it, you know your story is golden.

Topher: I mean, most of the books I own have that written on the inside cover. I wonder what it means...

"I want you to give yourself up quietly and face DEATH himself, STEED REAPER.

SC276: [STEED REAPER] "Hey, *she's* the culprit here!"

He'll reap your soul, We'll revive Applebloom and Granny Smith so they can both have their lives back, Granny will have her body rejuvenated back to a young mare's so she can have the life you stole from her as is fair.

ThatUnknownPony: And half of Ponyville will have the weirdest boner when they see she was quite the looker when young.

BittplexMutt: [PRINCESS Heart] "Granted, she'll probably outlive her grandchildren, but eh."

SC276: [HEARTBREAK ATTACK] "The other 148+ victims can go fuck themselves."

PanzerThiefZero: [OW THE CAPSLOCK] "Then when the time comes, I'll kill them **anyway**. Wait, why am I doing this again? I could be playing *Cuphead*, for Celestia's sake. Damn candyland boss, I'll get you soon enough"

We'll take you to Tartarus to be judged by Tirek and from there your sentence will be carried out."

ThatUnknownPony: ...so being an inmate in Tartarus makes you a judge, I guess?

BittplexMutt: Well, from what we've only seen so far, Tirek is really the only prisoner there.

Mono: I would've made Cerberus the judge, but eh...

"Being merciful as I am,

SC276: If you're merciful, then *why do you keep mercilessly repeating yourself?!*

I'll suggest a proper punishment that doesn't involve torturing or burning in Tartarus or whatever goes on there." said HEART bluntly.

ThatUnknownPony: Oh, don't worry, sweetheart. All that happens is you spend the eternity locked in a cage guarded by Cerberus on top of a stone mountain unable to do anything at all. Think "petrification", but you're sentient, able to move, and feel the time passing slowly.

BittplexMutt: So, prison.

Topher: Prison isn't that bad. Just keep shanking people until they put you in this big metal chair. When the guy in a suit pulls a big lever, twitch for a few seconds and play dead. Then they just let you out! You get a free custom meal and everything!

"You'll remain a ghost afterwards and what happens then is up to you.

SC276: That still sound like she's dying.

Whether you try to make peace with your victims or whatever as long as you don't try anything again." added HEART.

SC276: ["Apple Bloom"] "COULD YOU REPEAT THAT IN THE FORM OF A SENTENCE?"

ThatUnknownPony: [Shining Mirror] "Well fuck you, I'm choosing to haunt them instead!"

BittplexMutt: And thus, the term "ghost-bullying" had begun.

She sighs and hands over her saddlebags which are bulging with something. "Here..just take them. They're useless to me now." Said Shining Mirror.

Mono: ...You're just giving up like that? Why?

SC276: Because Diamond Sparkle's thought process is "end this as soon as possible before she tries to figure out my home address."

PRINCESS HEART looks at the bag and inside. "I take it these are the unicorn horns you stole correct?"

"Yes, over two hundred of them, all but ten gathered from battlefields in the distant past." replied Shining Mirror.

ThatUnknownPony: Everyone used to look at her weird with her hobby of collecting horns from dead soldiers.

BittplexMutt: They are objects from warfare.

PRINCESS HEART thinks a bit. "...I see.

SC276: [Diamond Sparkle] "Let me guess: that pause wouldn't be there if you had read my story."

These will need to be returned to their rightful place later."

Mono: In a hole in the ground filled with a decomposed corpse.

Topher: Sounds cozy!

she grabs the bag and gets up "Ready to go Shining Mirror? DEATH awaits us with Twilight and Applejack."

SC276: Yeah, that's totally convincing.

BittplexMutt: [PRINCESS HEART] "That tea party isn't gonna start by itself."

"Very well then princess." said Shining Mirror reluctantly as she trots along by the Changeling Princess through the stairs in the basement of Sugarcube Corner and the door.

BittplexMutt: Like as if nothing happened.

Mono: Wait, no cupcakes are being made?

SC276: I paid good money for evil cupcakes! I demand a refund!

Sweetie Belle comes up to her smiling. PRINCESS HEART sees Sweetie Belle as they exit the sweets store.

BittplexMutt: You mean the Sugarcube Corner?

ThatUnknownPony: No, the Sweets Store, as in the store owned by Sweetie Belle.

"Hello there Sweetie Belle." she says smiling. Sweetie Belle bows politely.

"Where are you taking Apple Bloom?" she asks.

BittplexMutt: [PRINCESS HEART] "It's none of your buisnses."

**ThatUnknownPony: [PRINCESS HEART] "I'm just taking her to her executioner."
[Sweetie Belle] "Oh... Wait, WHAT?!"**

"Back to the library. I had to confront her about something,

SC276: [Sweetie Belle] "In a bakery?"

and if you wish to know, this isn't actually Applebloom. Her body yes but not her soul. I'm apprehending a criminal who for centuries switched bodies with others and desecrated the dead. She took Applebloom's body this time and I've convinced her to surrender so DEATH can reap her finally. Afterwards We'll revive Applebloom and her granny who recently died." said HEART explaining the situation bluntly.

SC276: Yes, we know, we've read the fucking story so far.

ThatUnknownPony: And then Sweetie Belle's brain exploded trying to comprehend that nonsense.

Mono: ...Can I make a joke that implies certain stuff here? Just askin'...

Crazy56U: Why do you want to go to jail?

Sweetie Belle glares at Applebloom angrily. "How could you do such a thing?" she asks her.

Mono: And of course Sweetie Belle believes this...

"What happens next is up to her and how it goes down. If she's lucky she'll get a chance at reincarnation to help make up for her crimes.

SC276: Isn't reincarnation basically what she's been doing *already*?

And she did it because she was afraid of dying." says HEART.

"Well...I'm afraid of dying too so I can see why she did it." said Sweetie Belle.

ThatUnknownPony: That was quite the quick change of heart, Sweetie. *Not that your opinion wasn't valid or untrue.*

"Now I'll never get my latest cutie mark" Shining Mirror says with a deep sigh.

Mono: Buy the latest cutie mark! Now with 50% extra cutie!

PRINCESS HEART glares at her and retorts. "You have more to worry about than a stupid cutie mark that's not even yours. You still have to face the consequences of your actions. And when Applebloom returns to life she'll gain hers soon.

Mono: ...So what happens to every other unicorn that she killed? Do they get brought back to life as well?

Crazy56U: Nope, they can get fucked.

Mono: Ah, of course. They're not main characters.

SC276: [HEARTFUL PRETTY CURE] "She will have her fan-mandated cutie mark and not her canon one *because I say so!*"

Now come, we can all discuss this more in the library." They get to the library where Applejack and Twilight are waiting for them and Applejack can barely contain her anger. PRINCESS HEART looks at everyone and acknowledges them. "I've got her to surrender everyone...I see you brought Celestia here too...

SC276: ...They did? When?

Where's DEATH at though?"

Mono: [Death] "Do you mind handling this one yourself? Spike died again!"

DEATH comes out from around a bookcase

Mono: And then Batman came out of fridge!

with Princess Luna. "Princess Luna's here as well?"

Crazy56U: Because apparently Luna was a myth up until now...

Topher: [Luna] "WE WEREN'T MAKING OUT!"

Huh this universe doesn't mess around when it comes to justice.

ThatUnknownPony: Unless riffing is a crime, I don't know what we did to deserve all this stupidity.

Topher: Well, I'd put our total body count somewhere in the hundreds. Granted, most of us got better, but still.

Nighloks better not ever stupidly attack this universe if they know what's good for them.

SC276: What does this have to do with the story? With any luck, *absolutely nothing.*

Now down to business." said HEART. Shining Mirror starts to cry knowing how deep she's in now.

SC276: It took this long?

PRINCESS HEART Sighs a bit and starts. "Shall we proceed everyone?"

Mono: *Please!*

Thoughts on Shining Mirror before DEATH does his job and we head to Tartarus?"

SC276: [Twilight] "You mean thoughts we have about something we only know existed an hour ago and *only have your word on because you got all the evidence by yourself in a basement?*"

"She violated the dead,

Mono: Necrophilia ahoy!

Crazy56U: Okay, now we're going to jail.

Topher: She violated the dead AND stole their long, hard appendages!

condemned large numbers of people to a horrible death, and murdered Applebloom-she deserves to be turned to stone." Princess Celestia says angrily.

ThatUnknownPony: Good to know you're still the same idiot from Mai Can's stories, Celly. Or are you forgetting she's still in Apple Bloom's body.

"Please, let me live, I'll be the best Apple Bloom ever." Shining Mirror begs.

Mono: Eh, nothing can beat the original.

Topher: BULLSHIT! The reboot's better!

"It's too late for that," Princess Luna says.

"You are nothing like my b....my sister," Applejack snaps. Twilight just shakes her head.

ThatUnknownPony: ...was she about to call Apple Bloom her "bitch"?

Mono: Nope, her brother.

PanzerThiefZero: I was thinking 'baby'.

Topher: Baby, sister, technically she fulfills both roles. Applecest joke quota reached!

SC276: So that's what Twilight's shaking her head at...

"You have anything to say Twilight and Spike and STEED REAPER before we proceed?" asked HEART.

SC276: [Spike] "Hey, I'm just passing out hot chocolate. Leave me out of this."

Twilight says "I hope there is a special torture in Tartarus for someone as low as her."

BittplexMutt: Like, Solitary Confinement?

ThatUnknownPony: No, like riffing Chatoyance for the rest of her existence.

Mono: Nope, reading Mykan for the rest of her existence.

PanzerThiefZero: No, reading every single fic done so far in FFT3K15 for the rest of her existence.

SC276: *With her mouth sewn shut.*

Spike simply says "Me too."

STEED REAPER looks at her, red eyes glowing in his skull. "You've evaded me for centuries....times up. Do you have anything to say for yourself? Any regrets for your actions or remorse?"

Mono: Blah blah blah, MOVE THE FUCK ON!

"I regret that I got caught." Shining Mirror says and cowers in a ball.

ThatUnknownPony: No, that's not regret, that's just you being stupidly obvious.

PRINCESS HEART speaks rather dully to her. "Smooth like you aren't in enough trouble as it is.

SC276: Like you're any smoother.

What did I say about trying to help your case here? You do understand the severity of your actions and what may happen to you right? Tirek's not the most pleasant of wardens after all and knows how to use a battleaxe expertly."

ThatUnknownPony: I don't know about a battleaxe, but at least he can use a sword... I guess.

"Do you need to be turned into a monster and traumatized before you start feeling remorse like one sunset Shimmer?" said HEART angrily.

ThatUnknownPony: Hey, cut Sunset some slack, at least her "evil" actions were pretty tame and, to a degree, stupid.

Mono: ...Brainwashing an entire school is "tame" to you?

ThatUnknownPony: Schools already brainwash you, so...

PanzerThiefZero: Well, she was a powerful monster to begin with, and she wasted her time on just brainwashing people instead of doing giant monster things.

SC276: [Twilight] "How the fuck do you know Sunset Shimmer exists?"

[HEARTFUL] "Fuck you, that's how!"

Shining Mirror sighs. "How about freezing her in ice and never letting her see sunlight again?" Princess Luna suggests.

Mono: ...You do know ice melts, right?

PanzerThiefZero: In *magic* ice. A quick rewording makes all the difference, Mono.

Mono: ...Do you see the word "magic" anywhere in that sentence?

PRINCESS HEART looks at Luna unamused at the suggestion. "You're really suggesting freezing Applebloom's body in ice to punish Shining Mirror, Princess Luna?"

ThatUnknownPony: [Luna] "Sure, yell to me for suggesting that and not Celestia when she said the same but worse?"

Mono: Ma-Ti would be excellent at CinemaSins. *ding*

"Smooth as if DEATH overthere has to wait more to reap her soul and bring Applebloom and Granny Smith back. I have a better idea." HEART says.

SC276: [I'M RUNNING OUT OF HEART JOKES] "And I know it's better because I came up with it."

DEATH gets his scythe out ready to use. "This is your last chance Shining Mirror.

Mono: *OH GOOD GOD JUST DAMN HER SOUL TO HELL!*

Topher: YEAH! DARN HER STRAIGHT TO HECK!

PanzerThiefZero: Oh, golly gee gosh. Such naughty language from you Toper.

If you have any true regrets before your soul is reaped by DEATH, speak them now or eternal torture in Tartarus awaits you and you already expressed fear from that possible fate. We'll all be jury in Tirek's court as he lays down your sentence.

SC276: Aren't juries supposed to start *impartial*?

I suggest you don't make things worse for your case." Said HEART with extreme seriousness on her face as the time for games was over.

ThatUnknownPony: And then Shining Mirror grabbed the scythe and cutted off her neck, for she knows shit is about to go full raw.

"I...wish there was something I could do to make amends."

Mono: [Luna] "After you've scrubbed all the floors in Equestria, then we can talk about mercy!"

"There are a lot of ghosts waiting to take revenge on me." "I don't want to die," she wails.

SC276: Well I don't want to have to read each sentence put in its own individual quote, but here we are.

"Take pity on me, I haven't even earned my cutie mark yet!" said Shining Mirror begging now.

ThatUnknownPony: I'm pretty sure you did, like, more than a hundred times already, that's a weak excuse.

PRINCESS HEART looks at her with pity on her face. "You never will now. You casted aside your body long ago. any cutie mark you would've earned wouldn't even be yours to begin with."

PanzerThiefZero: Oh hey, they stopped Shining Mirror from pulling a Sans on them.
SC276: Not even Papyrus can save this fic.

"And beside you've had a lot of cutie marks," Twilight points out.

ThatUnknownPony: Thank you for proving our point, Twi.

DEATH raises his scythe high.

SC276: STOP STALLING

"Agreed." Muttered HEART. *looks at Shining Mirror* "you should just beg for forgiveness and be willing to do anything. We can all use that in your case with Tirek. Or do you wish for a horrific fate?"

SC276: We've already met with a terrible fate, haven't we?

"What do you want me to do?" she asks.

ThatUnknownPony: ENOUGH WITH THE PADDING AND JUST JUMP TO HER FINAL JUDGMENT!

"How about for starters apologizing to everyone here formally and then to the hundreds of souls you condemned? HEART suggested.

"I'm sorry, I'm sorry, I'm really really sorry, I'm Sorry MacSorryson" she says, sounding rather like Pinkie Pie.

ThatUnknownPony: As in "Pinkie but written by Mykan."

Mono: ...Why would she say that? There's no fucking reason for her to say that.

"Good, that's a start now go on." says HEART.

SC276: No, don't go on, this fic's long enough as it is!

"I was wrong to condemm hundereds of ponies to an early grave so that I could live on as if I was an alicorn." "And I suppose my death is deserved." Shining Mirror says.

ThatUnknownPony: Ok, now that you accepted death, can we please move on?

Mono: This almost makes me want to go back to last month! *At least shit happened in those fics!*

PRINCESS HEART nods and speaks. "Especially if you factor in that your time came centuries ago."

"Now that you apologized..oh I know since you pretty much will do anything, and we could use a few kicks after this, hmm..hit yourself with this rubber chicken...repeatedly and this do a clown routine." Said HEART smirking at Shining Mirror's expense.

Mono: WHAAAAAAT?

Crazy56U: (stage whisper) I think the Author just gave up.

ThatUnknownPony: There's atoning for your mistakes, and then there's what this asshole is making her do!

"...You gotta, you said anything and things have been rather slow lately. I could use a chuckle or too." Said STEED REAPER as he lowers his scythe a bit.

".....oh fine lets just get it over with." Says Shining Mirror

SC276: Guessing that couldn't be a more accurate representation of how much Diamond Sparkle regrets this entire thing.

Crazy56U: THE END

as a rubber chicken and a few pies and clown stuff appear and she goes to work humiliating herself gaining quite a few chuckles from everyone

Crazy56U: Except the people with brains, aka. us.

as HEART has this all recorded.

SC276: Somehow.

ThatUnknownPony: Because laughing at the expense of someone begging for her life is so funny!

Mono: WHAT THE FLYING FUCK IS GOING ON! THIS IS JUST USELESS PADDING! EVEN THE MOST BULLSHIT RP'S SHOULD HAVE A FUCKING POINT!

Crazy56U: Can the story end now?

"Tirek should see this too." chuckled HEART.

SC276: Fuck you, you sadist.

*Soon we go outside to see more of the routine til a mishap with the balancing ball juggling trick happens involving a few apples and a bowling ball disappearing from the air

Crazy56U: Meanwhile, in the next dimension, Apple Bloom's ghost just got clonked in the head with a bowling ball.

and landing far away from them on a cabbage cart*

Mono: THE POINT, PLEASE?!

Crazy56U: CAN THE STORY END NOW?

".....MY CAAAABAAAGGGGEEEEEEEESSSS!! NOOOO!! NOT MY CABBAGES! WHY WHY!? MY CABBAGES IT'S ALWAYS THE CABBAGES" Screams the cabbage vender as the destruction of his cabbages happen for the 10th time in his life.

ThatUnknownPony: Thank you, author, for killing the best running gag in *Avatar*. We can only wish you to get a burning stake up your ass.

BittplexMutt: Words cannot describe how tired and outraged I am at that pointless reference.

Mono:Okay, we've just gone full random. Great...

SC276:

Crazy56U: (pointedly pulls out a cabbage; sets it on fire) *Fuck you.*

Topher: Great, why not ruin "MY LEG!" too?

Seems he can't get a break as a human or a pony.

PRINCESS HEART'S ears flicker as she speaks. "Anyone hear someone crying over their cabbage cart like it was universally destroyed again to humor someone? Everyone nods a bit.

ThatUnknownPony: No, no it isn't. Why? **BECAUSE YOU BUTCHERED THAT JOKE!**

Mono: *comedy is dead*

Topher: META! Because if you acknowledge your shitty jokes, they automatically become NOT SHITTY!

SC276: [Mr. Enter] *"Pointing out your problems does not make them go away!"*

Crazy56U: ***CAN THE STORY END NOW?***

"Um...somepony please tell me I don't have to add that to my list of crimes too now possibly if I was somehow responsible." Asked Shining Mirror smiling sheepishly.

BittplexMutt: "Plus, it was really pointless."

Mono: ...Fuck it, I'm linking this.

PanzerThiefZero: May God have mercy on our souls.

Topher: And then the vengeful ghosts of a dozen cabbages ripper her to pieces.

The cabbage vender gallops up to them just as STEED REAPER reaps Shining Mirror's soul*

SC276: Well, given all the shit that happened before, that was anticlimactic.

"Let's Roll." says DEATH

Crazy56U: ***ROLL FOR INITIATIVE!*** (smashes some die with a hammer)

raising his scythe and cuts her life-cord removing the soul from the body.

Mono: Glad to know souls work the same way as newborn babies...

Shining Mirror's soul leaves Applebloom's body without a scratch on the body as everyone watches.

"Lets go everyone, to Tartarus."says HEART.

SC276: [Twilight] "Wait, why do we have to go?"
[KAMEN RIDER HEART] "BECAUSE PRINCESS GETS WHAT PRINCESS WANTS"

The soul is sucked in first and PRINCESS HEART heads through the portal to Tartarus that just opened up followed by everyone else including the cabbage vender as we all enter Tartarus.

ThatUnknownPony: Leaving the bodies of Granny and Apple Bloom to rot inside the library.

Mono: ...Why the fuck is the cabbage vendor going- oh, right... full random...

CHAPTER 5: Enter Tartarus! Tirek appears and the trial of Shining Mirror begins.

ThatUnknownPony: Fuck this shit! The rifiers suffer and the story refuses to end.
PanzerThiefZero: The Trial 2: Electric Boogaloo.

The soul hovers over a lake of boiling lava whilst everyone else stands on solid rock overlooking the lava.

Mono: Wait, I thought we went to Tartarus, not the Dragonlands.
PanzerThiefZero: Now drop her into the lava.

PRINCESS HEART looks around at her surroundings and commentss. "Nice play Tirek has here."

ThatUnknownPony: "Hamlet, that's always a classic."
SC276: PLAY OF THE GAME: TIREK AS HANZO

"Indeed it is! Thanks for the compliment changeling princess." Said Tirek the centaur overlord, supreme ruler and warden of Tartarus as he comes into view with Cerberus the legendary 3 headed hellhound guard dog at his side.

ThatUnknownPony: Even though Cerberus was meant to keep him caged.
Mono: Eh, he's out on parole.
Toph: I hear he found Jesus on the inside.
SC276: OK, I swear there was something that alluded to season 3 or something.
When was this written?
Crazy56U: In the beyond time.

"Whose soul do we have here?" he asks. Shining Mirror's soul is wailing and crying by now.

SC276: Somehow, even though she doesn't have a face right now.

"An earth pony mare's by the name of Shining Mirror, Tirek. She's here to be judged for crimes."
"Including malicious destruction of cabbages!"

Crazy56U: *NO ONE FUCKING CARES*

The cabbage vendor spoke up causing Tirek to raise an eyebrow and awkwardly mutter.

SC276: [Tirek] "Why are you even here?"

ThatUnknownPony: We have to beat this joke until it's unrecognizable!

Mono: *throws bowling balls across the room* If the story doesn't care anymore, *why the fuck should I?*

PanzerThiefZero: Preach. (is setting vicious attack dogs across the room)

Topher: AAALOOKATTHEPUPPIES! *hugs one of the dogs*

Crazy56U: Well, if we're damning logic... (places a jar of applesauce on the table; climbs up onto table and fiddles with belt) Okay, now to just-

Mono: ***OH CHRIST ON A BIKE, CRAZY! PLEASE DON'T DO THAT HERE!***

Crazy56U: ***OKAY, FINE, FUCK YOU THEN!*** (kicks jar across the room)

"O...k...."

hall we move to the courtroom?" Said HEART.

"Yes lets." said Tirek. The area becomes an Equestrian style courtroom

Mono: ***FUCK ME, WE'RE NOT DOING MYSTERIOUS DEATH AGAIN!***

Crazy56U: (loudly) ***THIS IS THE SONG THAT NEVER ENDS! YES, IT GOES ON AND ON MY FRIENDS!***

with Shining Mirror in the dock/defendant stand.

SC276: This bodes well...

PRINCESS HEART is seen standing in the defense bench/stand

SC276: ...Why are you defending her?

while Applejack is in the prosecutor's bench/stand

Mono: Why is Applejack- I don't give a shit anymore at this point...

Crazy56U: (bitterly mutters) well, i was gonna, until you made me not...

and Celestia, Luna, Twilight, Spike Sweetie Belle and the cabbage vendor

Crazy56U: ***would you fucking stop, that joke wasn't even funny in avatar, why are you dragging it out here?***

SC276: If the Na'vi ate cabbages, that movie would've been far more interesting.

and hundreds of angry souls sit in the jury seats as a jury of Shining Mirror's peers.

SC276: Juries are *twelve* people for a reason, idiot.

"Lets do this your honor." Started off HEART as she then remembers. "Oh yeah, your Honor here, the case file on everything up until now involving this case." said HEART as she hands him the case file as he reads it wearing reading glasses for them.

"Lets see now. Geas and mind/body switching spell combo...

SC276: *It's not a fucking combo. They're not even cast at the same time.*

hundreds of souls dead because of old age and because she switched places with them condemning them to death before their time....desecrating the graves of many unicorns for their horns for a necklace and bracelets...

SC276: *Their corpses strewn on a battlefield are not their "graves."*

assaulting a changeling princess with an unicorn horn....

Mono: *Stuff we know already...*

These are deep..." Tirek says as he's cut off by the cabbage vendor rather angrily.
"DON'T FORGET THE MALICIOUS DESTRUCTION OF A CABBAGE CART AND CABBAGES!"

ThatUnknownPony: *STOP! STOP! THE JOKE'S ALREADY DEAAAAAD!*

Mono: *I will fucking destroy every cabbage I see after this...*

Crazy56U: (while smashing a cabbage with a hammer) *I KNOW A SONG THAT GETS ON EVERYBODY'S NERVES! EVERYBODY'S NERVES, YES, ON EVERYBODY'S NERVES! I KNOW A SONG THAT GETS ON EVERYBODY'S NERVES, AND THIS IS HOW IT GOES!*

SC276: (hammers Crazy with a rocket mallet) *The most annoying songs have only one note.*

Crazy56U: (is now dead and covered in smushed cabbage)

".....as I was saying and the...malicious destruction of a cabbage cart and the cabbages." Said Tirek giving the vendor an "are you serious" look.

Mono: *Instead of a "dude-ur-so-retarded" look.*

SC276: *Even the story thinks this is fucking stupid.*

Crazy56U: *Then why are you allowing this to continue, story?*

"these are all very deep charges..and a ridiculous charge for that cabbage cart incident.." said Tirek

Crazy56U: *I SWEAR TO FUCK, (holds up another cabbage) I WILL MAKE THE REST OF MY RIFFS THAT FUCKING SONG IF YOU DON'T FUCKING STOP!*

giving the file a look over amazed at the number of crimes that have taken place including a ridiculous one for cabbages.

ThatUnknownPony: *WE ALREADY KNEW THAT!*

Topher: *Because if they keep calling back to the cabbages, it'll automatically be funny! That's how running gags work, right?*

SC276: [Diamond Sparkle] *"why do you keep assuming i'm an idiot, because i'm still doing this"*

"Big list huh Tirek?" commented PRINCESS HEART.

BittplexMutt: [Tirek] *"Meh, that's nothing compared to the atrocities that I did."*

ThatUnknownPony: [Tirek] "In my years of judging I have never heard before of someone more deserving of the full penalty of the law!"

Mono: [Twilight] "GO ON JUDGE! SHIT ON HIM!"

Topher: [Twilight] "THROW THE BOOK AT 'EM! AND THEN I'LL READ THE BOOK!"

"Enough for an eternity of punishment for what she did." Said Tirek looking at Shining Mirror as she sits there just crying quietly.

BittplexMutt: [Tirek] "Don't ask why I'm suddenly not a villain in this, even I'm confused."

ThatUnknownPony: [Tirek] "I don't care as long as she takes my place here."

Mono: Awwwww... the author wants me to sympathize with her...

"Indeed. Though we also this recording for you to watch. Figured it may give you a chuckle or 2.

SC276: Apparently Tirek has lower standards for comedy than we do.

Seems the criminal here was willingly to anything to make up for her crimes. even public humiliation in front of royalty among a few others."Says HEART mentioning the recording earlier.

BittplexMutt: [PRINCESS HEART] "It was... amusing."

ThatUnknownPony: [Tirek] "...Somehow you're even more evil than me."

"I present to the jury and court this evidence!" said HEART as she presents the the video while Shining Mirror blushes, highly embarassed at what she had to do.

BittplexMutt: Which was not that much.

Mono: Just a stupid little act.

SC276: And evidence that the cabbage cart thing wasn't her fault in the slightest.

Tirek grins at her saying, "Maybe we can lessen things slightly, I have three or four ideas for punishment."

SC276: And let me guess, you're going to go over each one in *exacting detail*.

But first, Shining Mirror, how do you plead?"

BittplexMutt: "Do you plead on your knees?"

Shining Mirror looks up at Tirek and simply says, "Guilty..your honor."

ThatUnknownPony: And then Tirek punished her with burning in the pits of Hell for all eternity.

"Well then with the evidence stacked against you and your own verdict, I pronounce you GUILTY AS CHARGED." Tirek slams his gavel on his stand.

ThatUnknownPony: That's all the trial she's getting? ...Meh, at least it wasn't near as bad as *Mysterious Death*.

Mono:

"Now then as punishment as I said, I've a few ideas." "Wiping her mind and sending her back to live another life for example." Said Tirek.

Mono: Or you could just imprison her in Tartarus...

"Interesting idea your honor. What are the other ideas you have cause I figured a few hundred years of community service for her crimes as her punishment would work.

ThatUnknownPony: And God knows how much littering happens after every season finale. Tirek should know better.

Mono: Or you could just imprison her in Tartarus...

I think afterwards we let her choose what'll ultimately happen to her. What her sentence will be." Said HEART smiling.

PanzerThiefZero: [Shining Mirror] "So I can go free now?"

Tirek contemplates this before speaking again. "Another idea.....is to make her replace a dying filly and live the life the way that filly would.

SC276: So, let her do her scheme *all over again*?

Mono: Or you could just imprison her in Tartarus...

Or we could banish her to the lake of fire or freeze her in stone." PRINCESS HEART looks at Tirek and nods as she talks.

ThatUnknownPony: [PRINCESS HEART] "TO THE FIRE IT IS!" *kicks Shining Mirror to the lake*

Mono: OR JUST LEAVE HER IN HELL!

"I see. Well then Shining Mirror your choice. Out of the 5 ideas suggested, how do you want this to end? It's your choice so choose wisely if you don't want to suffer."

SC276: [Diamond Sparkle] "*stop pretending you left my characters with any agency*"

"What do you mean about the dying filly thing?" Asked Shining Mirror as she thinks of what punishment she'll choose for her crimes.

ThatUnknownPony: So her "punishment" basically is doing the same thing she's done to keep herself alive... just replacing a dying filly. Two questions: How is this a punishment again? And second, why didn't she think of doing this from the beginning?!

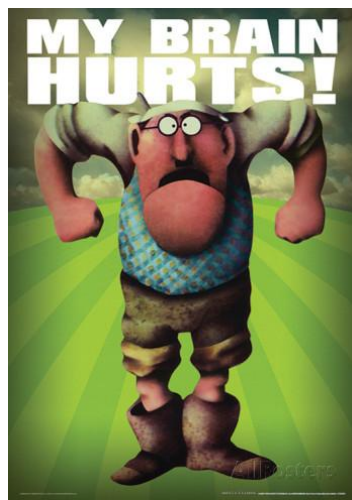

Mono: Yes and yes.

"OFF WITH HER HEAD! ONE FOR EACH HEAD OF CABBAGE!" yelled the cabbage vendor not letting it go.

ThatUnknownPony: CAN YOU PLEASE STOP MURDERING THIS JOKE?! AT THIS POINT THIS IS TURNING INTO NECROPHILIA!

Mono: GO AWAY, YOU ARE KILLING COMEDY ITSELF!

Topher: DITTO!

SC276:

"ENOUGH!!! THAT'S ENOUGH OF THE CABBAGES ALREADY OR I'LL CLEAR THE COURTROOM AND HOLD YOU IN CONTEMPT OF COURT!" Roared Tirek tiring of the cabbage vendor by now especially with this interruption.

"Y..yes your honor. Sorry." Says the cabbage vendor shutting up about his cabbages finally.

ThatUnknownPony: *Now please let this joke die in peace, okay?*

"You would have to do what that filly would do, you would have not much free will." said Tirek explaining.

ThatUnknownPony: [Shining Mirror] "Again, how is that much different from what I already did?"

Mono: [Tirek] "**SHUT UP AND LET ME DO JUDGY THINGS!**"

"Basically you'd have to replace the dying filly and live their life like they wanted to. changelings occasionally do this as a sentence

SC276: A possible changeling punishment is... *doing their job?*

or depending on a different hive as I noticed for a specific changeling living in Canterlot named Flitter,

Crazy56U: WHOOOP WHOOOP! PLAGIARISM ALERT! WHOOOP WHOOOP! PLAGIARISM ALERT!

honoring a death wish type think as an honorable thing his hive does. Something about the "Old Way."

**BittplexMutt: Some guy named Georgie was talking about "The New Way."
ThatUnknownPony: And some guy named Frank was singing about "His Way".
Mono: And some guy named Patrick was talking about "his way or the highway".
Crazy56U: And some guy name Turner was singing about "rolling down the highway". Some guy named Doobie was, quite frankly, peeved.**

He did it for a stallion who was dying after a mishap happened during an adventure."

Crazy56U: Everyone in the room promptly had an aneurysm and died while trying to process that sentence. And then reality imploded. THE END

Said HEART explaining even futher.

SC276: As indicated by how she *won't fucking shut up*.

"So I would be magically unable to be myself?

SC276: ["Apple Bloom"] "Is this supposed to be like karmic retribution and you're just fucking up?"

Still....does she have family members that love her?" Asked Shining Mirror.

"Depends on the filly you might replace. If she didn't, well I think child abuse is enough to lock them away for a long time.

BittplexMutt: So, no trial?

Mono: **seething* fuck you...*

I see that happen occasionally and well they should be glad Discord isn't given the privilege of handing out punishments cause he's creative."

ThatUnknownPony: Can we have him handling punishments instead? I plead for some creativity right now.

Topher: I have some ideas! You could [CENSORED] her [CENSORED] [CENSORED] [CENSORED] [CENSORED] [CENSORED] and then set fire to the [CENSORED] [CENSORED] and then slam it in a car door and [CENSORED] [CENSORED] [CENSORED] and then give the one in her tear duct a twist and [CENSORED] [CENSORED] [CENSORED] [CENSORED] tie it in a knot and slap her silly with it! Then take her remaining teeth and [CENSORED] [CENSORED] [CENSORED] with a [CENSORED] [CENSORED] [CENSORED] in the soup!

"but yeah if you choose this path we'll find ones who loved their daughter to the end." spoke HEART.

"I would be happy to be someone's beloved daughter, since it will do some good." Said Shining.

Mono: *You don't deserved to be loved, waste of space.*

PRINCESS HEART looked at her and says, "I see. Is that the punishment you ultimately choose Shining Mirror?"

"Yes, it is." Shining says as she bows her head low.

ThatUnknownPony: Again, how is this a punishment?! This is as much punishment as Twilight making Starlight her assistant and subjecting her to her strict control and drunk tirades and... *Okay, maybe Starlight did get quite the punishment.*
SC276: *I would rather rewatch Princess Spike than keep reading this.*

PRINCESS HEART looks to the jury as she speaks again. "Any objections? Speak now or forever hold your peace.

SC276: [damned soul] "That's marriages-"
[DOKI-DOKI PANIC] "SHUT UP"

And if I hear one cabbage out you vendor..." She threatens eyes glowing.

Mono: "I'll single handedly throw you before Ozai's feet."

One pony suggests, "Why not give her twelve lashes first, make her suffer some pain?"

ThatUnknownPony: Why not subject her to the entire story? If pain is what they want...

"I guess that could work. She does need to make up for the crimes. Shining to you object to this?" HEART asks.

She sighs. "Do what you have to do."

SC276: She wants this story over with already.

"Very well then. said HEART as she pulls out of her inventory

Mono: An invincibility potion?

a whip

SC276: why the fuck are you even carrying a whip

and gives her 12 quick lashes. Shining wails but makes no attempt to avoid her well-deserved punishment.

ThatUnknownPony: I don't know about well-deserved, but it sure feels like a punishment. Not for her, but us.

"Ok that takes care of that. Curaza!"

Mono: ...Adios, amigos?

shouted HEART as she casts a powerful healing spell, fully healing Shining's wounds and glaring at the pony who suggested the whips.

"You happy then?"

Mono: Nope.

Topher: WHY ARE YOU GIVING THE MASS MURDERER A PASS? FOR THAT KIND OF CRIME THE NORMAL PUNISHMENT IS TO BE SHUT IN A ROOM READING TERRIBLE FANFICTION FOR ETERNITY!

The stallion nods and Shining manages a weak smile at being healed.

SC276: If PRINCESS CAPSLOCK objected to the lashings, *why didn't she just lash that guy?* She's the fucking Sue, she can do whatever she wants.

"Tirek what say you? Shall we end the proceedings with your judgement and sentence?" Asked HEART.

ThatUnknownPony: WHAT JUDGMENT?! This was as much of a trial as anything in *Mysterious Death*, but at least not quite as painful.

**SC276: AND HE ALREADY DECLARED HER GUILTY
AND IF HE'S THE ONE DECIDING THE VERDICT, WHY IS THERE A JURY
DOES THE AUTHOR NOT KNOW WHAT A GALLERY IS**

"Which race do you think she should become in her new life?" Asked Tirek.

"Hmm...lets see...I think Unicorn will do." spoke HEART.

**ThatUnknownPony: Sure, let her reincarnate on the one species that *can* use magic!
That won't backfire at all.**

"Very well then. If you ever try and repeat your offences or say who you are you will be unable to,

SC276: ["Apple Bloom"] "So... you're *geasing* me."

nor will you ever wipe off a love kiss.

SC276: ...what?

Mono: Because fuck you, I guess...

Let's find a suitable Unicorn to turn her into." Said Tirek.

Mono: "This "Lightning Dawn" fellow might be suitable..."

"Sounds appropriate. though one thing your honor, make it so there's an exception. That the only ones she'll be able to say who she really is, is to Applebloom and her family as they occasionally check on her.

SC276: [Applejack] "Hey, I work on a busy farm! What makes you think I have time to be a parole officer?!"

I think trying to earn their forgiveness in her new life will be a good thing to add to her sentence as well as, learning the magic of friendship." HEART says smiling at Celestia and Twilight as she suggests the friendship lessons.

ThatUnknownPony: *gags* Seriously, stop shoehorning the friendship card like if you knew what it means.

SC276: The part of Mirror whoever will be played by Starlight Glimmer.

"Good idea, now all we have to do is find a foal for her to take the place of. There is one in Canterlot hospital that might fit the bill." spoke Tirek.

SC276: [Applejack] "Not only do you expect me to be a parole officer, but it's for someone who lives in a *different city*?!"

"Yes..hmm..lets see.. Would she happen to be related to Diamond Tiara by chance? Cause if so this will work well." asked HEART.

ThatUnknownPony: *FuckyoufuckyoufuckyoufuckyouFUCKYOU!*

Mono:

AAA

AAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAH!

"That would be good to make her Diamond's sister. Except Diamond is an earth pony." Applebloom said.

ThatUnknownPony: First of all, when the hell did you come in, Applebloom? Second, then is she replacing a dying pony, or being reborn? If Diamond had a sister you should know her species, dumbass.

"So? Pony genetics are all weird and wonky. We have 2 earth ponies who's children are an unicorn and pegasus. Pumpkin and Pound Cake anyone?

Mono: Hey, Mrs. Cake cheated in that scenario!

SC276: Nice job on the subtle allusion by *blatantly stating it*.

This would make sense easy." Said HEART mentioning the chaotic logic of pony genetics.

ThatUnknownPony: But what if Tiara's sister wasn't born an unicorn? Wouldn't her family, you know, recognize the sudden horn in their offspring?!

Topher: [Whatever Mom's name is] "Aww, she's as horny as her Dad!" *brick'd*

"You will provide a bridge between Diamond and the CMC then as well. You shall replace the dying Shapphire Tiara and be the best little sister friend forever Diamond Tiara ever had and will get through to her and end her bullying ways lest she eventually ends up here from the path her deeds may eventually take." Spoke Tirek giving his full sentence.

ThatUnknownPony: And thus erasing *Crusaders of the Lost Mark* from continuity. HOW ARE YOU CALLING YOURSELF THE "GOOD GUY" HERE?!

PanzerThiefZero: Because they are evil. And it's okay since they are good. Yeah, you keep telling yourselves that.

SC276: [CAPSHEART] "I MUST SOLVE EVERY PROBLEM THAT EXISTS IN THIS SHOW"
Tophr: [Tirek] "Also, when you die, you're going STRAIGHT into the pit full of sharpened fire. How did we make fire sharp? Trade secret."

Diamond

SC276: [Diamond Sparkle] "Wait, why am I suddenly in the story now?"

meanwhile sits by her dying sister, stroking her with a hoof with tears in her eyes. "Oh Shapphire please live. I'd give anything just to see you smile." Said Diamond Tiara crying.

ThatUnknownPony: This sudden cutaway was brought to you by Seth MacFarlane.
Mono: No, at least he knows what the fuck he's doing!
Crazy56U: (loud gasp) YOU SHUT YOUR MOUTH

Back in Tartarus, Shining Mirror says "Very well then, I'm going to enjoy my final new life to the fullest."

Mono: Until you eventually die...
Tophr: And isn't the filly on her deathbed to begin with?
SC276: [DEATH] "Wait, you're telling me I fucking reaped her and now she's going to live *again*?! This is fucking bullshit!"

"Alright then. Well your honor lets end the proceedings then." HEART says.
Tirek taps his gavel and speaks. "Very well then! Court is adjourn!"

ThatUnknownPony: And then the jury just wondered why the fuck was there even a trial in the first place.

Author's Note:

Mono: "Did I mention I was drunk while RP'ing?"

And the verdict is decided. Poor Diamond Tiara though at least Shining Mirror will become just as good a sister as Shapphire was and get Diamond to be nicer to the CMC.

ThatUnknownPony: Except the CMC were meant to make her nicer, you just gave Tiara a sister out of nowhere and decided to kill her just so this 1500 year old pony can live happily ever after!

And can you guess the references that occurred here?

ThatUnknownPony: You mean the joke you dragged to the ground even more than the "Sonic Apple Bloom" gag?
Mono: I don't fucking want to!
SC276: You don't get the benefit of my thought processes!

Flitter is from the story Flitter belongs to Nyerguds also a wonderful author. I highly recommend the story.

Mono: FUCKING MAKE ME READ IT, YOU [censored]!

Crazy56U: Don't worry, I highly doubt we'll ever get around to talking about that story.

Mono: Thank Christ!

Crazy56U: No problem, just looking out for you!

CHAPTER 6: Time for rebirth.

ThatUnknownPony: Said DC after seeing the sales numbers of *New 52*.

Invisible to all except who he wants to see him, the STEED REAPER appears in the hospital to reap Shapphire's soul and begin Shining Mirror's rebirth. "It's time."

SC276: Did he just say it's time?! ~We didn't have a lot of fun in the desert...~

He says as he reaps Shapphire Tiara's soul and Shining Mirror replaces her.

Mono: [Sapphire] "*Feels her soul get lifted up* Wait, what the-?"

"Hello little one. It's tragic you had to die like this Shapphire but sadly we're on a deadline.

BittplexMutt: Screw that, Shapphire deserved better.

Is there anything you wish to say to Diamond before we get you to the spirit world?" Asked STEED REAPER as he quickly filled Shapphire in on what was going to happen.

ThatUnknownPony: [Tiara's Sister] "Yeah. HOPE YOU DIE A PAINFUL DEATH!"

Mono: [Sapphire] "What the fuck is going on?"

SC276: I know I'd like to tell the narrator to stop assuming the reader is an idiot.

"Y..Yes there is.. Goodbye my beloved sister. I wish I could've lived to watch you grow up but things don't always work out huh? And to the one replacing me, take good care of her. Treat her like I would've. Or I'll haunt you for the rest of your new life til to you do!" Said Shapphire.

PanzerThiefZero: Our heroes, everybody. Killing an innocent sibling who could've potentially been saved just to teach the main antagonist a lesson.

Topher: That lesson being "If you kill HUNDREDS OF PEOPLE FOR COMPLETELY SELFISH REASONS you'll get a pass.

"May you rest in peace little one." Said DEATH as he goes with Shapphire to the spirit world.

SC276: Take us with you!

Shining Mirror opens her eyes in her new form with Diamond leaning over her and giving her a cuddle and kiss.

ThatUnknownPony: SURPRISE INCEST!

Mono: I DON'T WANT TO GO TO JAIL!

Topher: LIFE ON THE OUTSIDE AIN'T WHAT IT USED TO BE!

"Sis..sister.." said Shining as she woke up.

"Shapphire you're awake!" Exclaimed Diamond in happiness hugging her sister with tears in her eyes.

"I..I thought you'd never wake up again Shapphire." Said Diamond as she cried.

ThatUnknownPony: *I have some bad news for you, Tiara...*

"There there Diamond I'm here and that's all that matters now." "I was hanging on by a thread and Death appeared.

Mono: [Diamond] "...Are you high?"

SC276: [Diamond Tiara] "Maybe they gave you too much morphine?"

He told me it wasn't time and to live my life.

SC276: *~It's my life, it's now or never...~*

He also mentioned how you've been bullying others.

SC276: [Diamond Tiara] "Um, you knew about that for months. You helped every so often when Silver Spoon was sick."

Please for my sake please stop." Said Shining Mirror as she explained her "encounter with Death."

ThatUnknownPony: [Diamond Tiara] "...Sister, you really need to drop the alcohol."

Mono: [Diamond] "Okay, you've definitely taken too much medicine."

"V..very well then little sister. Anything for you." Said Diamond Tiara.

SC276: *Because, y'know, canon's cheap.*

A week later Shapphire Tiara was discharged from the hospital with a clean bill of health as she helped her sister become a better filly, forging friendships with the CMC she used to bully and tease.

ThatUnknownPony: "Sparing" us from a fantastic musical episode, a good redemption arc, the Crusaders earning their Cutie Marks... *HOW IS THIS A GOOD THING?!*

PanzerThiefZero: *It's good because shut up.*

After a few months had passed and the apple family checked up on her, she revealed the truth to Diamond having been allowed by Tirek to tell her as well.

ThatUnknownPony: *And then Diamond Tiara reverted back to her old ways when she realized she was just lied to by a Body Snatcher.*

SC276: *And then shot her and a bunch of insect robots with a gun.*

Needless to say Diamond was shocked at first but upon hearing what her real sister's last words were, she soften up and accepted Shining Mirror as her new Shapphire Tiara.

ThatUnknownPony: Completely disregarding her biological sister. *Don't you love unfortunate implications?*

Mono: And all had a happy end! Except for the audience.

Tophers: And then later Diamond stabbed her to death, finally her sister could rest.

Author's Note:

Another short chapter. Couldn't think of anything else to add at this point. any suggestions?

SC276: Ah, so your RP partner finally ditched you, having found that that moment made for a nice wrapped-up ending.

ThatUnknownPony: How about just stopping and never continuing this travesty?!

PanzerThiefZero: Here's one: END! END!

Epilogue's coming up next so stay tuned.

SC276: Which you are ignoring because you have no real respect for them. Of course.

Mono: You just got done saying you had no ideas anymore!

Tophers: Does that EVER stop these authors?

EPILOGUE: 5 years later.

SC276: Six years too late.

A few years later, Shining Mirror has fully adapted to being Diamond's sister and has managed to stop her from teasing the blank flanks so much.

ThatUnknownPony: Now she just occasionally teased them.

Mono: Only on Fridays.

She has since explained who she really was to Diamond Tiara

SC276: Did you literally forget the last paragraph of the previous chapter?

and that she's living the life Diamond's real sister asked her to for her.

ThatUnknownPony: Except no, you were pretty much "punished" into replacing her.

To be there for Diamond when she no longer could. PRINCESS HEART soon Returned to check up on Shining Mirror's progress

SC276: [Applejack] "You made *us* the parole officers and then you check up on her anyway?! What in tarnation is wrong with you?!"

and see how everyone was doing. "Hmm...it's been awhile, I should go check up on Shining Mirror to see how things are since then.

ThatUnknownPony: Thanks for repeating what we've been already told.

Mono: *impersonating Peppa Pig's narrator* "Unknown thanks Ma-Ti for repeating what we've already been told."

Said HEART as she walks around looking for Shining Mirror and seeing the CMC hanging out with Diamond Tiara now that they have become friends with Diamond Tiara and Silver Spoon. Diamond and Sapphire/Shining are currently helping them, get their cutie marks it would seem.

SC276: They were actually getting ready to turn Ponyville into a giant crater. Intentionally.

"Hello everyone. How have things been?" Asked HEART cheerfully.
"We've been good princess." they said bowing

PanzerThiefZero: [Diamond] "Me fail english? That's impossible!"

and after they all bow, Sweetie Belle shows her knew cutie mark, a musical note rather like Vinyl's.

Mono: Vinyl Scratch later sued for copyright.

"Diamond and Sapphire helped me get my cutie mark."

ThatUnknownPony: [Sweetie Belle] "She also said something about 'fucking' the canon?"

"That's very good. So a musical note huh? Just like I thought it'd be.

ThatUnknownPony: Because fanon must beat canon, amirite?

Mono: I guess... look at Slice of Life...

SC276: Good idea. Beats watching this.

What of you 2? Have you gained yours yet?" Asked HEART looking at Applebloom and Scootaloo.

SC276: [Scootaloo] "I got one for using numerals in prose!"

"We don't have our marks yet." Applebloom says rather sadly.

ThatUnknownPony: [Applebloom] "And neither does my Granny, though now she has several suitors behind her."

Topher: "Suitors" or "people waiting in line?"

PRINCESS HEART smirks as she speaks. "I see, have you tried building things Applebloom and scootering more Scootaloo? Those may very well be your talents."

SC276: [PRINCESS ROIDMUDE] "So declares fanon!"

"I so wish I could fly," Scootaloo says. "Don't worry about that Scoots, you'll be able to soon that's for sure.

Mono: Ummmmmmmm... about that...

Topher: HAHAAHAHAHAHAHA! IT'S FUNNY BECAUSE SHE'S DISABLED!

I could even help you if you want." mentioned HEART happily.

ThatUnknownPony: I mean, why take flight lessons from Rainbow Dash when you can learn from the Mary Sue? *Please tell me this is almost over.*

"That'll be nice, thanks." said Scootaloo smiling. And this story comes to a close,

SC276: *Despite the author's best efforts.*

an evil was stopped and reformed and wrongs were righted.

ThatUnknownPony: Except no, there were more wrongs made with your bullshit plan.

PanzerThiefZero: As was foretold by literally the beginning of the fic.

In the end all you need is a hero to help you through.

ThatUnknownPony: Or in this case, a Mary Sue to dictate your reality to fit your headcanon.

Mono: Thank fuck we're finally done!

THE END

Author's Note:

Final chapter's up. Well this has been an eventful week writing this story before finally completing it and posting it all today.

SC276: [author] "And by that I mean 'forcing the original author to do half of it with passive-aggressive politeness.'"

A short epilogue but couldn't think of anything else to type.

SC276: *Then don't type it.*

if anyone has any suggestions feel free to comment them.

Mono: NEVER WRITE ANYTHING AGAIN!

Topher: BURN YOUR KEYBOARD!

I hope you enjoyed this story as much as I did writing it.

ThatUnknownPony: Spoilers: **NO, WE DIDN'T!** The original story was already bad enough, but this stupid sequel is just worse! On top of the horrible sentence structure, the clumsily edited RP text, the unnecessary references and jokes ripped from better series just make this just a clusterfuck of nonsense. And for what is titled a "Scary Story", the only scary thing in this is the fact it exists. If there's one thing I can give it is that at least it isn't near as bad as *Mysterious Death* or God forbid *Living the Dream*. Now, if you excuse me, I'd rather get something to drink this headache away.

Mono: Was this the worst thing we've ever ran? No. Some parts were way too dull for that. But this was definitely a stupid fic that needs to die and gives RP'ers everywhere a bad name. Goodbye! *leaves*

Topher: The sad thing is, the first story isn't a bad concept, it could work as a thriller if we get more characters involved and keep the mystery going as to who our body-snatching villain is. The sequel? It just SHITS ALLLLL OVER IT! The Mary Sue comes and solves all the problems while facing no conflict, and then the villain gets a redemption at the drop of a hat, through something that's supposedly called a punishment! WHAT THE FUCK?

SC276: I agree with Topher here. The first story is easily the best thing we've read in the last three months. It's racist as hell, needs far more polish, and could use slightly more intelligence on the part of the victim, but it knows what it wants to be - a small concise horror one-shot about Granny Smith secretly being an ancient evil space parasite. Completely the exact opposite of what the main feature is. The padding is out of control with information and actions repeated ad nauseum, padding surrounding basically nothing as there's no conflict whatsoever. The actual plot consists of the sort of retaliation fantasies I have when I read something that rustles my jimmies through either smug snakes or the like, only I'm smart enough to know that writing those out and posting them on the Internet - or even worse, *forcing the author* to participate in such blatant disrespect of their work - is a fucking terrible idea. Everything this character tries to enforce is fanon contradicted in seasons 4 and 5, and basically the entire thing is bullshit. I feel *sorry* for Diamond Sparkle having to RP with this inane fangirl that does nothing but prove she wants to be herself all over her work.
