## Evaluation

**Your own evaluation of the event.** - It was nice, me and Gabo held a presentation on OpenGov and introduced the key challenges of liquid democracy.

**Were you happy with it? Yes!**

**What went well?** Everything, I like to organize meetups.

**What can be done better? -**

**The Hydration token minting UI was frozen somehow, so we halted the token minting process in half way.**

**Scaling: There were around 15 people, and my target per meetup is 25 people so could be nice if the meetups will scale up. I am on it. ;)**
