

Sep. 2024 update- Visit to North Africa- and i was called Berber Blue Man/ Father- as the color of MENA has changed in the last 100 to 200 years from black to fair. When you look at the 1620 map of Jamaica before Kingston was named all Scottish cities like Fort William named. Places my dad and grandad were born, sang oldest Jacobite songs with not 1 record of slavery or link to Africa only Scotland. I am managing 80 DNA kits / opened a few graves / finding more Hebrew Haplogroup Es are matching up to Scotland and Euro matches vs Haplogroup Rs . My Polish wife's family are Hs and Rs all from the Caucasus region and DNA tied to modern Jews non Hebrews also Rs with mix of some Js and Is. They also match up with western Rs who also hail from the Caucasus. Oxford University is coming out with a new earth shattering book this fall to change the way we examine history / black history. Africans may be black but most if not all blacks who were the real American Indians are not African. Blacks lived in Europe and America for over 2000 years. I love my Indian mum and Polish wife of 19 years dearly but they both have humble roots in the CAUCASUS region just 300 years ago when the planet was black when the population was 600 million. Have a read of Ben Franklin's essay on the increase of mankind 1751 paragraph 24 on all black planet. MENA region which I visited last week is a recent creation [ie people were a lot darker 200 years ago]]. When I walked the streets they called me blue man / berber and Roman as I am a black man . Hard to imagine MENA is a new creation. I was in Algeria and Tunisia and asked when was this town hall installedthis church etc They told me ohhh in the early 1900s.. imagine the planet added 6.5 billion people from 1.7b souls alive at the end of the Victorian age in 1900. In 1800 AD after Ben wrote his essay we had 700m people on planet. Fact check away. Meanwhile over 200 million blacks mostly poor aboriginal real black Indians and black Euromoons of lower classes died over 400 years ago. If those people lived we would be way past 12 billion and whites of that figure 3 percent ? So what am I ? Descendant- black Hebrew YAHYA / Davidic (King David) paternal line. Added- Sep 5, 2023__1. Following opening of graves in Jamaica - and finding out prominent persons with surnames St Clairs/ Sinclairs and other Scots who moved to Jamaica over 300 years ago from Scotland are haplogroup E- like myself- I've moved on this summer to New Zealand and Ayer's Rock / Uluru in Australia. Currently analyzing 4 DNA samples of Maori and Aboriginal men. More news to come.....2. www.yfull.com has decided to upgrade its Y tree. Possibly all the trouble i am creating concerning the false narrative of mankind, whitewashing has turned enough heads to stamp out corruption in the DNA lab. I still have 350 plus orphan DNA files- ie matches where i am matching a person over 10 - 15cm and neither parent (whose DNA is on the same DNA site- ie My Heritage, 23 and me, FTDNA) is a match which in itself is classic FRAUD.3. I am taking a closer look at the West African slave migration story. As the Bible says "Even a Child will lead them". Listen to basic nurse give her reasons as a healthcare professional - why this story was a hoax-- www.youtube.com/watch?v=WrupxyOyFhs . The logistics does not work and not even a superhuman would survive with hardly any food, no antibiotics, bed sores, e-coli --. Moreover Europe was too broke to afford 12,000 slave ships. With so many blacks in the New World pre black Columbus arrival in 1492 and blacks living in Europe for 2000 plus years who were displaced and fleeing after Cromwell's deportation/ French revolution and

fall of the black nobility in France - why would they need to bring 12 million Africans to America? And in hurricane seasons? And where have the so called Indians gone ? Just like those Scottish Picts who disappeared ? Too many lies and not enough answers. Classic stories told to grab land from blacks. Take the lands from native black Americans and enslave them- same thing done in the UK/ in Europe (which according to Ben Franklin's 1751 on the increase of mankind, the planet pre 1700s was mostly black), lands taken away from locals in NZ and Australia. As the continent of Africa is concerned - Africans do not / black Africans do not own what comes out of the ground. And what is extracted - goes for pennies on the dollar keeping Africa POOR. Well the globe is now insolvent - where do we go from here and who will become the owners of the earth once the re-set button is pressed? Will 10 percent of the global population still control 70 percent or more of the wealth ? July 2023 update-Biography of 33rd great grand-dad Kenneth MacAlpin the NIGER.

Cináed

mac Alpin aka Kenneth MacAlpin the Niger in See revised bio in the following book- <https://www.amazon.com/Negro-Rulers-Scotland-British-Isles/dp/1734975121> The Christian converted Moorish Pictish Kenneth MacAlpin (b. AD 843) who was called "Niger Val Dubh" was the first king of the Scottish Alpin Dynasty. The Scottish archaeologist David MacRitchie stressed that Alpin the father of Kenneth MacAlpin was a half black Pict and half black Scotch whose son Kenneth was the first to merge the two foremost branches of the Blacks in Scotland. When Kenneth MacAlpin died his younger Moorish brother Donald I succeeded him. Following the death of Donald I, his nephew Constantine I, the older son of Kenneth MacAlpin succeeded him. Constantine I, after suffering a defeat and beheaded by Vikings (BLACK skinned Vikings noted) and succeeded by his Moorish younger brother Aedth whose reign was short lived. After the death of King Aedth, his nephew Eochaid and cousin Giric (Greg or Gregory) succeeded the throne and ruled jointly. Following their abdication, Eochaid's cousin Donald II son of the Moorish Constantine I ruled the throne. After the death of Donald II, his cousin Constantine II the son of the Moorish Aedth ruled Scotland. The Moorish Constantine II who chose to become a monk voluntarily gave up his rule to his Moorish cousin Malcolm I, the son of Donald II. Every king who followed Kenneth MacAlpin was of the Moorish descent. MacAlpin's descendant Kenneth Dubh (Niger, Duff, or Duffy) and all of his successors were called "the sons of the Black". The four most popular African Moorish kings to rule Scotland were Kenneth MacAlpin, Niger Val Dubh, Kenneth the Niger, Macbeth, and James VI/ I. King James VI went on to become the first African Moorish Scottish King of England. All rulers of Scotland until the 17th century were descendants of Kenneth MacAlpin, either through the male or female line. The African Moorish Kenneth MacAlpin Niger Val Dubh is the 33rd great grandfather of the late Queen Elizabeth II (died in 2022). he King fathered Constantine, Aedth and three daughters. He died in AD 859 at Forteviot Perthshire in Scotland. NOTES_____ 1. The Septuagint and Geneva Bibles, in Zephaniah 2:12, the Ethiopians are identified as "Moors" "Mauros" or Black or "Morians". 2. The ancient Alpin religion which was called Celtic Druidism was characteristically a Negro Canaanite ritual called Baalism or Ham-ism. Druidism which also

promoted the One God worship had existed long before Judaism, Christianity, and Islamism, by which many Jewish, Christian and Islamist values are borrowed (Christmas tree, Easter etc.). The Canaanite Chief God El or El-Elyon also called the Most High God, was adopted by the Hebrews. (Numbers 24:16).

History

needs to be re-written in favor of blacks/ black history. Even more interesting is how the Moors described their European foes: Sa'id of Andalusia (1029-1071) in circa AD 1050- the Moor wrote the following of his White Iberian opponents: (T)hey "are nearer animals than men ... They are by nature unthinking and their manners crude. Their bellies protrude; their color is white and their hair is long. In sharpness and delicacy of spirit and in intellectual perspicacity, they are nil. Ignorance, lack of reasoning power and boorishness are common among them." (Kitab Tabakat al Umaxn (Blachere K. p. 36. 1935). Graeco-Roman Ancients unequivocally describe the Moors as black skinned: "And I have heard this man say that beyond the country which he ruled there was no habitation of men, but desert land extending to a great distance, and that beyond that there are men, not black-skinned like the Moors, but very white in body and fair-haired. So much, then, for these things." Procopius. History of the Wars, Books III and IV / The Vandalic War (Kindle Locations 1921-1923). This source - not available in English and only in Arabic debunks a whitewashed history given to us on a rusty poisonous spoon. March 2023 update (sets basis for existence of Euro Africans before the 1600s) - note Ben Franklin's 1751 essay on the Observations of the Increase of Mankind- where he states the number of pure whites in 1751 on the planet was very small. "24. Which leads me to add one Remark: That the Number of purely white People in the World is proportionably very small. All Africa is black or tawny. Asia chiefly tawny. America (exclusive of the new Comers) wholly so. And in Europe, the Spaniards, Italians, French, Russians and Swedes, are generally of what we call a swarthy Complexion; as are the Germans also, the Saxons only excepted, who with the English, make the principal Body of White People on the Face of the Earth. I could wish their Numbers were increased.

"Dec 2022 Update to

Biography (Yahya family and King David BCE 1000): Over 3 separate STR DNA matches on www.yfull.com connecting Scotland and Iberia with ancient Yahya family of the Davidic line to King David of Israel up to BCE 1000 which is a straight-shot to ADAM (First Man) BCE 4000. Historical day in my personal genealogy world to learn of such exciting news cementing my Big Y from Orkney Scotland circa AD 1000 to the Middle East / United Kingdom of Israel- BCE 1000, which is a confirmation of my faith and faith in the correct 5800 to 6,022 year timeline of earth history from ADAM (with Caucasoid giant/ human hybrids in existence after the fall of man which is confused today with Neanderthal DNA). The Yahya (יאחיא) family can be traced some 1000 years back to the 11th century Portugal, and before that to the Hebrew Exilarches of ancient Babylonia[1] Chiya al-Daudi (יאחיא

(אל-דאודי), born circa 1080-1090, was the progenitor of the Ibn Yahya family of Portugal and Spain [see number 76 in this article]. The name al-Daudi is Arabic name referring to a descendant of David ben Zakai (Rosh Golah, died year 940) who himself was descendant of King David[4]. Chiya al-Daudi was a composer, poet, and advisor to the King of Portugal. His hymns are still used in Sephardic congregations throughout the world[5]. The word 'Chiya' stands for the Hebrew Hayyim (חיים), meaning 'life'. It is also spelled Yachya, Hiya, and Yahia[6]. A nickname for the name Yahia is Vivante[7]. The name Chiya takes various forms in Arabic writing. In the 11th century in Lisbon, the name was known as Ya'ish, meaning 'he will live' or simply 'life'[8]. Other forms were Ayush, Wa'ish, and Yahya. Members of the family bore the appellation Abulaish, meaning 'father of life.' This became Bulaix in 13th century Barcelona. Other common written forms of Yaish which appear in ancient Spanish documents are Abenahaya, Binaffia, Abenafia, Bar Hiya (Bar Chiya (Bar means 'son of' in Hebrew)), Aben Yahie, and Haya. A further written form of the name for life was Amron. The name was often preceded by the sign of a filial relationship – 'the son of' – 'Ben' (Hebrew) and 'Ibn' (Arabic), hence Ben Hayyim, Ibn Hayyim, and Ibn Yahya[9]. The son of Chiya al-Daudi was Yaish Ibn Yahya (יאיש איבן יחיא), born circa 1110-1120. He may have been a military leader in North Africa [see number 77 in this article]. Yaish's son, Don Yahya Ibn Yaish "Ha-Nasi" (דון יחיא איבן יאיש, הנשיא), was born circa 1150. 'Ha-Nasi' stands for 'the president' in Hebrew, referring to a lofty person [see number 78]. The written form of the name Ibn Yaish in ancient Spanish documents also appears as: Abingais, Alaish, Avinayes, Ibn Alaish, Abenayes, Abenaix, Aben Jaes, Abenayex, Aben Ayish, Abeniex, Abenaex, and Belais. Don Yahya Ibn Yaish "Ha-Nasi" was the eponymous of the branch of the family that lived in Lisbon, Portugal, which became to be known as the 'Ibn Yahya' family[10]. One of Don Yahya's descendant was the author Gedaliah ben Yosef Ibn Yahya (גדליה בן יוסף, איבן-יחיא), who wrote the book Shalshet HaKabbalah ('Chain of Tradition'). Gedaliah writes about his ancestor, Don Yahya[11]: ושם האיש היה הרב דון: [...] יחיא ו' יעיש [...] ומזה השר התחילו זרעו ודורותיו להקרא ממשפחת יחיא Jewish man was Rabbi Don Yahya Ben Yaish [...] and from this minister his children and their children were known as the Yahya family. The name Yahya was now used as a family name, by this branch of the family. The story goes that Don Yahya Ibn Yaish "Ha-Nasi" was honored for services in support of King Alfonso I. After the conquest of Santarem, the King gave him a gift of several villages that had belonged to the Moorish Arabs (known as 'Negros'). A head of a Moor was added to his coat of arms, hence he adopted the name Negro – Yahya el Negro.

Old Biography: For those persons just meeting me for the first time- a warm welcome. Prior to 2020 so much of my family history was missing and I was not aware of the existence of Euro Africans who lived in the UK & Europe from BCE throughout Roman times (BCE 150 to 480 AD), manifested in the bloodlines of African Picts and black Scottish lines including the Royal Stewart House, and up to the mid-1600s when largely deported by Sir Oliver Cromwell -

Lord Protector prior to the West African slave trade. My paternal grandfather, William Edward McDonald Jr was born circa 1912 to Daniel McDonald/ Macdonald of Westmoreland Jamaica, son of William Edward McDonald Sr. who is the son of James Macdonald b 1788 in Scotland UK so no surprise Dad's "regal" family home was like a ghost town since everyone including dad's siblings just moved away not knowing their own family history. Added footnote- several key SLEAT Haplo E Scottish MacDonalDs who are no longer tracked by the www.23andme.com- for over 300 years for reasons unknown are lost in the records or to time. I have 2 USA connected Haplo E MacDonalDs on my STR list of matches and I'm certain others are there but either do not test or have their haplo E results hidden from the public. Just discovered several key MacDonalDs from the Westmoreland area and most likely connected to my Haplo E Sleat line moved to Costa Rica, Cuba, Panama, and the USA and changed their surnames to Henry, Anderson, Ennis, Davis, and James (surname). Note that in Latin cultures it is common for men to adopt their mother's name as well and this is incorporated into their own birth name as a suffix pushing "Macdonald/ Mcdonald" in as a middle vs. last name/ surname when referencing / tracing such persons. On a positive note thanks to DNA tracing a large part of the paternal McDonald/ Macdonald's family history and ancestral lineage (combined Gabon/ West African, Scottish/ Irish, English and French origin) has been unlocked. My great great grandfather James Macdonald b. 1788 Inverness, Scotland was an E-M2 haplogroup and Scottish royal and I've taken over his profile on FTDNA. The Scots arrived in Jamaica in the early 1700s after the Glencoe massacre- links to Port Maria, St Mary, Jamaica (full 100 years before the Irish McDonalds descended upon St Elizabeth) ..some stayed and others moved on to PEI / Cape Breton, Canada. Seeking DNA links to 18th great grand dad King Somerled 11th to 12th century Scotland (not convinced re haplo R assignment since Somerled's origins are unknown) - and Isak Orkney b. 1082 - Scotland (STR match- Collins & St Clair/ Sinclair). Equal Y tracing and SNP matches to surnames McDaniel, HENRY- (IRELAND), James, Logan, Wiley/ Wyllie, Oakley, Campbell, Graves, Richardson, Corbett, Calhoun, Brown/ Brownlee, and surname Black. Other associated names include Harris, Powell/ Ebanks, Bent, Henriques, Silveira and Dacosta/ Desouza. Proud of my paternal E-M2 haplo - dated 50 to 350 years with max formation period under 1100 years with closest cohorts and Big Y DNA cousins, and traced to the British Isles (with matching STRs to R-M222) and maternal haplo- M-33b2 tri-racial haplos. I brand my paternal haplo - the "Amazing E" haplo (sources: <https://www.bbc.com/news/uk-scotland-17740638> and https://en.wikipedia.org/wiki/Haplogroup_E-M2) connects me to over 40 US ex-presidents and VPs, half of the Hollywood A listers, world class inventors, bankers, musicians, poets, writers, royalty and nobles going back over 1000 years. Also love the Biblical characters (contained within a Judeo-Christian earth timeline of over 6.021 years) used as a learning device for my kids touching on Ramesses II, King David and Jacob aka ISRAEL held to be the first E haplo member. Such a rich and exciting journey and cannot wait to reach the next milestone to discover more family members on my mom's side which is Indian/ Nepalese. My biggest discovery this past year was to confirm via whole genome sequencing performed in Poland that all Scottish male St Clairs/ Sinclairs who migrated to

Westmoreland, Jamaica including patriarch Daniel Sinclair d. 1860s and buried in Westmoreland, Jamaica were all Haplo Es. In touch with living male descendants who are also Haplo Es. Sad most people don't know the world before 1700 was mostly black, Picts, 1st US President Washington and George III of England were all black.

Brief note on

Missing Books. Concerning the reference to the white invaders from the Caucasus that book - item 1 is also missing. This is fit for a TV movie ! Missing books covering up black history-1. MISSING !
<https://www.amazon.com/Kitab-Tabaqat-Al.../dp/1295657201>(describes barbarian whites from Caucasus region in Asia-)2. MISSING
<https://www.amazon.com/adventurous-Huguenot.../dp/B07QVDFLZY>(book describing Pres. George Washington as black)3. MISSING - all of the works of 1st century Tacitus who observed the black people of Europe/ black Picts.4. Scrolls of the Library at Alexandria Egypt- all gone.5. All the books of Donald Monro- 16th century who observed the black Scots6. 97 percent of the black relics in the United Kingdom, statues and images destroyed during the Tudor age,7. the thick lips and negroid nose of the Great Sphinx in Egypt observed by Count Volney in 1787 all gone with the wind ! 8. Over 700 years of Ulster Scot/ Irish genealogical records destroyed in the fire of 1922,9. 14 of 80 books kicked out of the Holy Canon from 1611 including the Book of Enoch and relegated to tales of myth (yet much glory is attributed to obviously fake stories like King Arthur and Ragnar Lodbrok)!!!!!!!!!!!!!!!!!!!!!!!!!!!!10. Every piece and fragment of the bones of giants/ nephillim (typically burried in those mysterious hills/ dirt mounds they cannot figure out today what purpose the hills / mounds served). These giants would most certainly be haplogroup Rs/ or very close DNA cousin to the Rs. providing us with those missing DNA links causing lots of confusion on invented neanderthals / Big Foot and unicorns! Yet the truth is coming out-----from the Russian Icons to other hard evidence ie broaches and coins made several hundreds and thousands of years coming to light to debunk a whitewashed history forced fed to us.
