- 25:58 comparing fights in tight spaces to slay the spire. Similar, but definitely different games

36:24 sekiro's boss fight update, the final owl fight and some talk of mortal shell

- 38:50 how many final bosses did you beat? Fromsoft being super obtuse

- - 41:48 sekiro as a divisive game for woolie personally

- - 43:24 pat absolutely did not figure out the final boss stuff on his own

- 46:41 with how obtuse it is, the less woolie cared about the circumstances.

- 48:02 "We live in a society where we have access to the internet so obtuseness shouldnt matter." The souls messaging system

- 54:01 leaning into something that sucked, the idea of having different experiences being a good thing but not right at the end

- - 57:13 "but what about chrono trigger?" and Persona 4's bad end

58:50 playing more persona 5 strikers. Woolie is starting to feel the attempt to stay super close to the RPG system and applying it to musou might be too much. Fights ending in 10 seconds

- 1:01:32 did you get to the first boss? And fights being either 10 seconds in either direction of 50 minute fights

- 1:04:30 pat gives some advice: always buy the revive item, and you can swap the active team from the menu

- - 1:08:39 the showtime mechanic trying to find the meter, and being a bit too much
- 1:11:52 the difficulty curve is more like jagged mountains, and you can still like the game, just bringing up their gripes. Trying to learn the game when fights are so short
- 1:14:33 bosses demand you knowing the game's mechanics. Going in with characters that cannot hit the boss's weakness

- 1:18:27 it's still a cool game

1:53:00 capcom fighting evolution, Ono's producing debut. It all leads back to ingrid

- 1:54:14 was this really ono's first? Chaos legion
- 1:56:28 pat vehemently insists capcom fighting evolution is trash. Go check it out over on woolieversus!

- 1:57:49 there's original comic endings in that game! The game is bullshit. Also, warzard.

PAT

1:58:33 how hath god blighted pat this week? Pat's HDMI inputs started dying, so he got the same model TV as woolie. Its a GOOD TV.

- 2:01:30 have we reached the point where we can't tell higher frame rates? Pat cant tell above 90

2:03:33 blight 2: pat's power supply started dying. He tracked down ksk computers to fix it for him. Fixed in 3 hours.

- 2:05:42 got a higher wattage power supply. Now his graphics card work gud.

- 2:08:17 on oled displays, screen burning problems. The pixel refresh option. And how to kill your TV the fastest: leave the TV running a news network on all day. Red is the worst.

- 2:12:44 on various levels of pixel refresh

- - 2:16:53 the return of the screensaver. Pat recommends wallpaper engine

- 2:20:38 wanting to make these screens last as long as possible, so time to go for overkill

- 2:22:57 less than a frame of input lag, and game mode

- 2:24:23 woolie's only complaint: the setting for woolie's specific volume set up keeps resetting and the workaround for the mute icon remaining on screen

2:30:21 new skill: docsquiddy's adios. A pig farmer that disposes bodies for the mob decides to leave. Great voice acting and narrative. It got pat in the feels.

- 2:34:05 there's some space waiting for disco elysium to come out, and mysterious schedules while waiting for the release like playing no straight roads for woolie.

- - 2:36:29 but why kenshi and fortnite pat?

- - 2:37:38 how warframe's loot vaulting works and comparing to the fortnite model

- - 2:39:50 kenshi as a means of whiplash. And he only boot it up this morning

2:45:25 new satisfactory update caused him to stop playing satisfactory due to unstable build

2:46:27 mundaun. A horror game with a pencil drawing artstyle

- 2:50:37 its meant to look like a circuit board when you zoom out

- 2:51:35 once you've created a layout you can copy-paste it. The idea of copy paste in satisfactory

2:55:33 Go check out pat over at patstaresat! And they toned down the difficulty for the doom eternal ancient gods DLC

- 2:58:00 that span where woolie played the entire FPS genre basically

- 2:58:53 so, hyping up disco elysium... what cop you playin?
