Bus Stop location	Bus #	Distance from Venue
E Hastings and Hawks	16 - 29th Ave 14 - Hastings 20 - Victoria	80 meters or <1 block

Westbound

Bus Stop location	Bus #	Distance from Venue
E Hastings and Hawks	16 - Arbutus 14 - UBC 20 - Downtown	60 meters or <1 block

Parking

There is street parking on E Hastings street by the Vines Den and across the road (no parking 7AM-10AM Mon-Fri, 2H parking 10AM-6PM Mon-Sat)

Space Accessibility

Entrance

- Please note that entering the space using a wheelchair will require assistance. We're not able to add a permanent ramp to the building, so we've purchased a portable metal ramp. Using it requires someone to place it and put it away after use. The ramp is heavy.
- The building has a fenced entrance 49 inches wide, up 2 steps. The portable metal ramp (29 inches wide, 1:3.7/15° slope) can be placed over the steps.
- The landing is 44 inches long from the end of the ramp to the Vines Den door.
- The Vines Den door opens outwards from the right side and has a clearance of 32 in.
- There are no steps once inside the Vines Den.

Bathroom

- The door opens outwards and has a clearance of 33 in.
- The bathroom can be accessed on a wheelchair
- The seat is 15 inches above the ground
- There are holding bars in the bathroom
- The sink is outside the bathroom. It is 35 in tall

- There is a sharps disposal bin in the bathroom. See [harm reduction](#)

Kitchen

- The kitchen is accessed through the main space. The door has a clearance of 35 in.
- Countertop is 36 inches above the floor

Studio and event space

- The studio is accessed through the kitchen. The door has a 32 in clearance
- The space is large and clear of furniture to allow for different set ups.

Patio

- The double doors at the back of the studio open into a patio. The doors are opened and locked with a steel bar and slide latches at the top and bottom of the doors. Opening may require assistance.
- There are steps to the bottom of the patio, with a wide railed landing at the top of the stairs.
- There are wide pallet seats at the bottom of the patio.

Harm Reduction

Much of our work at Vines Art Society is led by and is in solidarity with drug users. Our communities are at high risk of overdose and death due to the toxic drug supply, drug stigma, drug criminalization, and the targeting of community led initiatives to provide

safe supply. Drug users are our family, friends, colleagues, and community members. We recognize drug use as a necessity for many folks. With that in mind, **we have these items available in our bookshelf:**

- Info booklets on harm reduction practices and STI's
- Safer snorting kits
- Safer injection kits
- Safer smoking kits
- Condoms
- Sharps disposal units

Please check out [this map](#) for nearby supervised consumption sites, overdose prevention sites, and drug testing services. Vines staff are trained in narcan use, but for your safety, we recommend that you use at one of these sites. They are much better prepared to respond to medical emergencies than us. If that's not an option for you and you would still like to use in the space, feel free to let us know so we're ready to respond to emergencies!

Remember to [Get Your Drugs Tested](#) and don't use alone!
