

Tour Creator - The sun is shining finally but maybe a vacay is in order? Check this out -

<https://poly.google.com/view/8v-l0wldO1r>. Last week at our TRT meeting, Ms. Ashley Faulkner (follow her @Frizzle\_of\_FCPS on Twitter) showed us how to use Google's Tour Creator, which allows you and your students to develop

your own VR expeditions using either Street View from Google Maps or by uploading your very own 360 images (can use apps Google Street View to take 360 pics). You can embed notes, pictures and videos into the tour as well! There are so many applications - see

Ms. Faulkner's slides for more: <http://bit.ly/VRcreate> Don't forget that we have a set of VR goggles in the library!
