

Animal Cell

Cell membrane: Light brown

Cytoplasm: yellow

Nuclear membrane: light green

Nucleoplasm: polka dotted

Nucleolus: black

Golgi apparatus: pink

Flagella: red/blue striped

Rough Endoplasmic Reticulum: dark blue

Smooth Endoplasmic Reticulum: light blue

Mitochondria: orange

Lysosome: purple

Microtubules: dark green

Ribosome: red

You might not use all of these parts

If you do not have the correct color, use what you have and create a key on the back so I know which part is which

Plant Cell

Cell membrane: light brown

Mitochondria: orange

Vacuole: purple

Cell wall: dark green

Chloroplast: light green

Smooth ER: light blue

Rough ER: dark blue

Ribosome: red

Cytoplasm: white

Golgi Apparatus: Pink
