

#### SPEAKER 1

Would you like to increase the size of your penis? Then pay close attention to this video because I'm going to show you how a simple watermelon trick can grow your penis by more than 2.5 inches in 21 days. This watermelon tonic works like a homemade Viagra that makes your erections bigger, harder and longer. In addition to boosting explosive orgasms and skyrocketing sperm production by 440%, it also restores strength and power to your erections, increases sexual desire and energy levels, and protects you against prostate problems. And even if you're in your 40s, 60s, or even 80s, this watermelon trick can make your penis bigger and stiffer. And all you will need is a ripe watermelon so that you can increase your size to more than 8 inches naturally. Just like these men who have already done this watermelon trick and had amazing results, my erections didn't last long. If my wife jumped three times, that was enough for me to quit for good. But when I started doing the watermelon trick, my performance just skyrocketed. I just need to take it every morning and I know I'm ready to last 40 minutes easily. It really turned my game around. I highly recommend it to anyone who wants to have firmer erections. I've always been dissatisfied with the size of my tool. You know, it's the most important thing in bed. For all these years, I believed I was cursed with a short penis. But I didn't know that it was possible to enlarge it in a natural way until I watched the video which shows the watermelon trick. Then I decided to give it a try. The results were fantastic. I gained 2.8 inches in length and 1.6 inches in girth. Now my erections always rise with strength. Everything was natural and safe.

#### SPEAKER 2

Look, it wasn't that big, but look how big it is now. Big, isn't it? And guess what? I'm 64 years old and thanks to this watermelon tonic, I'm able to have intense, long lasting intercourse with my wife. My Testosterone is around 800mg, much higher than any young boy of the new generation. And all I did was take this watermelon tonic every morning. This watermelon trick really got me hard and bigger.

#### SPEAKER 1

And the best thing is that they didn't have to take any medication or blue pills with serious side effects. Nor did they have to change their diet, exercise or change their lifestyle. And even less did they have to resort to dangerous procedures. That's why In a few moments, you'll discover why seeing my wife with another guy in bed was the best thing that ever happened in my life. I'll also reveal how I met the world's oldest porn actor. Hint. At the end of this video, I'll reveal the secret watermelon trick he used to gain 4 inches in length before entering the adult industry. And why 92% of men have contaminated testosterone which may have deprived you of powerful erections. But before I tell you all that, I need to explain why I recorded this video. My name is Michael Lewis and what I'm going to tell you now will surprise you. I'm not a doctor and I didn't graduate from an Ivy League university. I'm just a normal guy who always wished he could wake up with a bigger penis. That's all. I'm no different from you. In fact, I'm just like you. And I'm sure we share some similarities. I don't know about you, but I've lived through a humiliating situation that destroyed my marriage and threw all my trust in the trash. Listen. I found out that my wife was having sex with another man. But that wasn't the worst part. I remember it like it was yesterday when I unlocked the password on her cell phone and saw dozens of videos of wild sex between them. Videos that lasted 40, 50 and even 60 minutes of that strange man fucking her violently. He pressed her neck without pity while she screamed for him to spit in her face and call her my hot little bitch. There are videos in which she sucks that 9 inch cock while he puts that huge thing in her mouth for hours. But one video in particular almost made me take my own life. A two and a half hour video of the strongest sex scenes I've ever seen in my life. He put her in the doggy style position and started penetrating her ass with his 9 inch penis with brutality. She

moaned like a lust addicted nymphomaniac begging for that man to dominate her and make her his sex slave. Every day I watched for hours as her body was butchered by a nine inch penis. Punched, slapped, bitten and sucked. But I couldn't believe it when I saw that bitch swallowing his cum three times in a row and begging him to fuck her all over until she passed out. The worst thing was that this guy was poor, broken and fat. That day, my manhood and virility were cruelly murdered by a nine inch penis as thick as a soda can. That was just a short summary of all the crazy scenes I witnessed, but I think that was enough. For you to understand, I had been humiliated enough. And that day I decided to put an end to it all. I had all the evidence to leave you speechless. And when I confronted her, the cutting words that came out of her mouth annihilated my confidence.

#### **SPEAKER 3**

Well, what did you expect, Michael? That I should spend the rest of my life faking pleasure with your tiny penis? That's the truth. I always faked the moans and the orgasms because it's impossible to feel pleasure and desire from that ridiculous thing you dare to call a penis? Yes. A real penis is 9 inches long, thick and full of veins. That's why me and my friends like to joke about your size. We call you dwarf penis in our conversations. And you want to know why I've been having sex with that man even though he's poor? Because he has something I want. A big, thick, hard penis that can come inside me hard for three hours, nonstop. That's what really matters. Women don't care about your car, your profession, or how much money you have. You just want to be fucked like wild animals in bed. That's all I've needed all this time. Nine inches inside me for three hours. But you would never be able to give it to me with your tiny, limp penis.

#### **SPEAKER 1**

That was the end of the line for me. That miserable bitch had changed our marriage, our family, and the life we had together just to open her legs for a huge 9 inch penis. You can try not to believe it, but it's a fact that women can swap their partners for another man so easily that they don't even think twice before dismissing you. After all that, I hired a lawyer and divorced that unfaithful bitch. That's when I promised myself that I would do everything in my power to find a solution that would make my penis bigger and harder. But I have to tell you, it wasn't an easy search. Initially, I tried all those ineffective options that you probably already know about, like the blue pill and penis pumps. At first, the pills even worked for me. My performance actually got firmer and longer. But then I was rushed to hospital because my heart was leaping out of my mouth. And I became almost dependent on three blue pills a day. I decided to stop taking them. Those pumps that promise to increase size are no good either. I just wasted my money for nothing. But I decided to go further. I tried stretching exercises like Gelking. But what happened was that the blood stuck for hours and the head of my penis turned pale, as if it was going to fall off. After that, I never dared to do a Stretch like that again. And so many other fake methods like Kegel, indigenous growth practices, and even some strange African rituals. But as you can imagine, it all turned out to be a big waste of time and money. But there was still one last way. Surgical procedures. There are some high risk treatments which, as well as taking thousands of dollars out of your pocket, put the health of your penis at risk. And of course, I would never pay that unfair amount for no guarantee of results. At that point, I was almost giving up. I had no more hope that one day I would have a 9 inch penis, thick and hard enough to fuck a woman for as long as I wanted. That's when I embarked on an obsessive journey of Internet research. I started looking for articles and scientific studies from all over the world that talked about some effective natural solution for enlarging the penis and improving erections. Believe me, I spent sleepless nights reading everything I could find on male enlargement and sexual enhancement methods. After four months of a lot of research, I came across a headline that made me curious.

I had just discovered the world's oldest porn actor. Yes, you heard right. His name is Shigeo Tokuda. He is 82 years old, has recorded more than 600 adult films, and is considered the oldest porn actor in the world. And today he's still active in the industry, shooting scenes with gorgeous young actresses. His penis measures over 9.2 inches. And his tool doesn't get soft, flaccid and weak in front of the girls. I immediately asked myself, how does an 82 year old manage to keep erections so hard and so strong that he can have sex for hours without stopping? Or rather, how was a Japanese man able to have such a big penis when Japanese men don't grow more than five inches? Well, that was crazy. And when I saw this news, I decided I was going to uncover Shigayo Tokuta's secret. Contact with him is extremely restricted and difficult. But every adult actor needs to make a contact available in order to find partnerships, right? So I went to his profile on one of those adult sites and sent him an email. I introduced myself and told him that I had caught my slutty ex wife passionately sucking off another man. I begged him to tell me how he grew his penis to 9 inches and what the secret was to his monstrous erections. And as luck would have it, I received his reply a few days later. Shigeo Toukuda told me that he was very busy, but that when he had a free hour of his day, he would invite me to a call. I was so anxious to talk to Shigeo Tokuda that I couldn't sleep. Finally, the day arrived and I had the opportunity to discover the secret of porn actors. And then Shigeo Tokuda confessed why he had agreed to talk to me.

#### **SPEAKER 2**

You see, Michael, when I read your story by email, I identified with your story. And that's why I decided to help you. Now listen, we have one thing in common. I started my career in the adult industry at the age of 60. Pretty old, don't you think? But before all that, I led a normal life. Just like you. I was married and had a family. Until I discovered that my wife was cheating on me with the letter carrier. I caught the footage on the cameras installed in my house. When he came to deliver the packages, which she ordered almost daily, they had sex all over the house. That poor ugly guy was having sex with my wife while I was working hard at my job to make her dreams come true. This is too humiliating a story for me to tell, but the truth is that I know exactly what you're feeling. There's nothing more painful for a man than seeing his beloved wife sucking another guy's cock, asking to be fucked hard and moaning his name wildly. At that time, it was the worst phase of my sex life. I couldn't keep my erections as long as I used to. My penis was always soft and lifeless and wouldn't come up when I needed it most. And when my penis miraculously got hard, I'd finish in 30 seconds. The worst thing is that I've always had a small size. You know, the Japanese tend to have small penises. And that was reason enough for her to leave me for another man she thought was better. And that's when I took a step forward and decided to enter the porn movie industry. But they said I was too old, too flabby, and that my penis wasn't big enough until. Fortunately, a director at the top of the industry took a liking to me and told me I'd be accepted as long as I agreed to do the watermelon trick. The director promised me that I would go from 5 inches to 9 inches in no time at all, and that my erections would be firm and long lasting. Again, this is something that great porn actors take every day to increase the size and duration of their erections, as well as to ensure iron hardness for as long as you like. I agreed to do it, obviously, and well, it's history from now on. This watermelon trick turned me from a dysfunctional old man into the porn actor with the longest career in history, over 9.2 inches long. The longest sex time in the history of Asian pornography at three hours and 18 minutes. And over 600 movies released since I started at the age of 60. Look, Michael, I'm sure you deserve to regain your male potency and have these same results. And I'm going to reveal the secret that made me a legendary actor in the adult industry.

#### **SPEAKER 1**

You may have heard that testosterone begins to decline after the age of 45, right? And here's the problem. They've been telling you all this time that age is the factor responsible for the drop in testosterone. But that's not true. Recent research proves that there is a little known factor behind the decline in this vital hormone. It's not advancing age, genetics, or your lifestyle. In fact, your testosterone is decreasing because of a contamination. Let me explain. As you know, we live in an extremely polluted world. The air you breathe, the water you drink, and the food you eat are exposed to chemicals and substances that are toxic to human health. According to recent studies published by the Mayo Clinic, the average American absorbs around 3 kilos of toxic pollutants every day. And unfortunately, this is something we can't control because thousands of industries, cars and cities are releasing tons of pollution all the time. And this exposure causes millions of toxic particles to enter your testosterone every day. A recent study published in the Journal of the American Medical association showed that Most men have 86% of their testosterone contaminated due to exposure to pollutants. While similar research conducted by Harvard Medical School with 329 men aged between 40 and 55 showed serious levels of contamination in the testosterone of 92% of these men. What's more, scientists have proven that this contamination reduces their testosterone production. This explains why your testosterone levels drop after the age of 45. So if you've noticed problems such as low sex drive, lack of energy, hair loss and difficulty maintaining erections, or if you feel that you can no longer climax on demand, or that your penis is getting flaccid and weaker, then your testosterone is certainly contaminated. Let me simplify things for you. Imagine that your penis is like a garden. Just as fertile soil is the most important thing for a garden to grow, testosterone is what drives the size of your penis forward. Just as sunlight and water help to keep the garden alive, healthy testosterone helps your penis to be ready to stand up rigidly. But here's the point. When weeds and pests infest the garden, what happens? The plants die in a matter of days. The same thing is happening to your body because this contamination not only decreases your testosterone production, but also doesn't allow your penis to grow beyond average size. This contamination acts like a lethal poison that makes your penis limp, weak and small. So in summary, just as a garden will only grow in fertile soil, your penis will only be big and hard if your testosterone is free of this contamination. And now you may be wondering, why does pollution affect my testosterone so much? Look, it's because these pollutants reduce nitric oxide in your body. Nitric oxide is responsible for the hardness of your erections. It also boosts the growth of your penis and increases the durability of your erection. Nitric oxide even won the Nobel Prize for medicine in 1998 when it was considered the erection hardening molecule. So imagine that your sexual potency works like a rocket. Nitric oxide would be the propulsion turbines that help launch that rocket. It's the same with your penis. The more nitric oxide you have, the faster, more often and stronger your penis will rise when you need it to. However, when the amount of nitric oxide in your body is low, your testosterone goes into a state of contamination. This is why exposure to toxic pollutants is the real cause behind male size and performance problems. Because pollutants decrease nitric oxide and consequently your testosterone starts to fall and becomes contaminated. This is when your body starts to show signs of soft, weak erections. But how do you know if your nitric oxide is low? Let me ask you something. In the last 180 days, have you experienced the following situation? You go to bed with a woman, she starts kissing you, and slowly she goes down to your penis to suck you eagerly, but all she finds is a limp, drooping, tired banana. Or this situation. You've just come home from work and you're itching to use up that pent up energy with your partner. You both enter the bedroom, you unzip your pants, hoping that your buddy is going to put on a show tonight. But suddenly your penis can't get hard. You even

try to excite and stimulate that dysfunctional penis, but it wasn't able to get hard enough to have sex with her. You felt embarrassed and frustrated, not knowing what to say. And your wife was certainly disappointed by your limp penis. Maybe she even got angry and argued with you. In the end, you both went to bed frustrated and upset. You because you weren't able to get hard enough to have sex with her, as a man is supposed to do. And her because you didn't fulfill your obligation to be masculine enough. To satisfy her needs. Have you ever experienced this? If so, then your nitric oxide levels are probably so low that your testosterone is completely contaminated. But now you're probably asking yourself, how can I regulate nitric oxide so that my testosterone is free from contamination? You see, the only proven way to increase nitric oxide is through watermelon. Watermelon is a superfood with hundreds of pieces of evidence about its performance enhancing properties. That's because watermelon is the only food in the world that preserves nitric oxide in its purest and most natural state. By eating watermelon, you help balance the amount of nitric oxide in your body. And this is crucial for producing pure testosterone, so you can gain extra inches on your penis and have monster erections whenever you need them. According to a study published by the National Institute of Health, watermelon increases nitric oxide in your body by 270%, as well as boosting vasodilation in the penis and renewing the penile growth cycle. Another study, conducted by Men's Health Boston, selected 329 men with low testosterone and erectile dysfunction. For a period of four weeks, these men took a concentrated nitric oxide extract based on watermelon. And after this period, 87% of them reported a considerable increase in libido. But what really surprised me was that they had satisfying sex with their partners again, and their erections became stronger and longer lasting. Some even reported that their penis grew 1 inch, 2 inches and even 3 inches in length and width. But there's a problem. In order for you to have optimal levels of nitric oxide in your body and get your testosterone 100% pure, you need to eat at least 2.5 kilos of watermelon a day. Although it's the only fruit to contain this male enhancing property, the amount of nitric oxide inside a slice of watermelon is not large enough to bring visible results in a short time. So you certainly wouldn't be able to eat a whole watermelon every day. Right? That's why I've gathered the concentrated extract of nitric oxide present in watermelon and put it in a capsule. At that moment, Shigeo Tokuda handed me the capsules and said, take this every.

**SPEAKER 2**

Morning with warm water to increase nitric oxide and decontaminate testosterone.

**SPEAKER 1**

The next morning, I started doing this watermelon trick. Our goal was to ensure the clean and pure production of testosterone so that my penis would gain more strength, hardness and size. In the first two days, I felt nothing but improvements in My mood and energy. My mind cleared up a bit, and I felt that my night's sleep was much better. But it was after five days that something incredible happened. I woke up to a powerful morning wood. I felt like I was 18 again. The strangest thing was that I hadn't woken up stiff like that for years. That same day, when I was about to get in the shower, my penis simply felt heavier than usual. I looked down and realized that it was finally real. And it had happened. My penis was almost an inch longer, and its thickness had increased significantly. A week later, my penis was measuring 6.78 inches. I had to buy another ruler to measure that huge thing between my legs. Now I'm over 8.2 inches, and Shigio Tokuta says I'm the same size as the big porn actors. But that was just the beginning. Because the results didn't stop there. I melted away that stubborn belly fat I'd gained over the years. This gave me a lean, strong and masculine body without even stepping foot in a gym or taking supplements. It's literally like I can overcome any challenge. All my stress and anxiety was gone, and I can't even explain how happy I was looking down. When you see the hot girls smiling

at you in the street and sticking out their tongues as if they were salivating to suck your penis, it's definitely the best feeling a man can have in his life. In fact, you become much more confident when your bulge is noticeable in your pants. You exude virility and masculinity like a wild lion ready to mate with dozens of females in heat. The best thing is that it gave me an extreme feeling of liberation. Now I know that no woman would dare leave me for another guy. I had finally freed myself from the shackles that had made me a lonely, insecure guy all my life. At that moment, I knew it was my duty as a man to share this discovery with everyone else. For all those who suffer from a small penis and difficulty maintaining an erection, I have the ultimate solution to boost your performance. Naturally, I talked to Shigeo Tokuda about making this powerful capsule available in a simple and accessible way for any man. So he contacted the best doctors in the business with the aim of further enhancing the nitric oxide capsule by adding natural male enlargement and enhancement compounds. So we agreed to put all these ingredients together in a few capsules. There was no doubt about this watermelon trick. After all, I've seen the results myself. But we still needed volunteers to test and prove it in practice. With other men. So we went to some public forums such as Quora and Reddit and posted a message saying we were looking for volunteers. The next day we had 90 men signed up for a 21 day program and the results were incredible. All of them had an increase of more than 2 inches. Their erections went back to the way they were in their youth. They were stronger, thicker, bigger and longer lasting. Most surprisingly, they all reported that their relationships had become more intimate and loving, that their wives were asking for sex almost every day, and that they were finally having wild and intense sexual experiences like in adult movies. It may sound crazy, but we received dozens of medical examinations from men in their 50s, 60s and even 70s who had raised their testosterone to over 1000 Milanos. Naturally, I've received real reports of men who went to bed with more than three women at the same time. And believe me, they were able to have sex with all of them for hours and in several different positions. A curious fact is that even a man who had a 2 inch micro penis used this watermelon trick and his tool grew by more than five inches. And for the first time in his life, he felt confident about having sex with a woman by showing scary strong erections for more than 30 minutes. As I said before, these special ingredients guarantee a complete renewal of your virility. That's why many participants in the program went from a tired, heavy and fat body to a fit and toned body. They reported that their energy levels went through the roof and that after a restorative night's sleep, the good mood and enthusiasm lasted all day long. The truth is that seeing so many men overcoming erectile dysfunction, recovering their masculinity and feeling like young boys, gave me the confidence I needed to get this out into the world as soon as possible. That's when Shigeo Tokuta used all his connections with doctors and specialists to ensure that the formula had only high quality ingredients. We also made a point of selecting only FDA certified producers. That's why we believe so strongly in this special combination. Because everything has been carefully calculated for you. The ingredients are 100% pure, FDA approved, and free from pesticides, preservatives, GMOs, or any other modification hazardous to health. After more than days of hard work, we've finally done it and we named it Man Plus. Man plus is the first and only natural nitric oxide based treatment capable of eliminating contaminated testosterone and reversing erectile dysfunction. For the first time ever. There is now the definitive solution that will increase the size of your penis, harden your erections and trigger your purest testosterone naturally. Man plus is very simple to use. Take a look. Just take it every morning with a glass of warm water and later this week you'll see your tool lifting hard as iron whenever you need it. Toxic pollutants will no longer be contaminating your testosterone. You'll see your penis getting bigger and thicker. And if you can no longer get hard after waking up, rest assured

because your morning wood will come back with such force that it might even pierce the blanket. Man plus has already helped thousands of men across the US to have a better sexual performance. Just like 59 year old Frank, who is maintaining thundering erections for more than 30 minutes without rest after using Man Plus. I've just had sex with my wife for the third time today. I've just had sex with my wife for the third time today. And the amazing thing is that this time it was she who asked for a break. My penis is really hard and I don't get tired. Thanks to Man plus, my performance is now on another level. Or Malcolm, 47, who reversed his premature ejaculation and can now stay hard as long as he wants with ease. I'm dating a 25 year old girl and yesterday we had sex and it was crazy. She humped my penis hard for about 30 minutes without stopping and I held my ejaculation without making any effort. She even told me that I'm a lion in bed and that she'd never seen anything as hard and as resistant as my penis. Man plus is the real deal. But here's the most surprising story of all and it involves a miracle. Joe. This 64 year old grandfather started having sex with his wife again after 11 years of suffering from erectile dysfunction. Hello, my name is Joe. Oddly enough, I'm 64 and I still have good sex with my wife.

**SPEAKER 2**

My worst problem has always been soft directions.

**SPEAKER 1**

But after I started taking man plus they came back in full swing.

**SPEAKER 2**

My penis is firm and immediately rises when my sweetheart calls me into the bedroom.

**SPEAKER 1**

It's really boosted my manhood and rekindled.

**SPEAKER 2**

The fire in my marriage.

**SPEAKER 1**

Thank you. All the men saw visible results after trusting Man Plus. And now I ask you, can you imagine what your life will be like when your penis measures more than 8.5 inches? When you go to bed looking at your wife and be sure that from now on you will always deliver maximum power. Your tool will always be hard, strong and ready for the moment. And that you can take full control of your erections. Imagine the amount of time and Money you'll save on blue pills or pumps or those replacement treatments costing \$20,000, which are not only expensive, but also put your health at risk. It will be a turning point for your relationship. Look, many men are already using man plus and winning the desire and admiration of their wives again. But I can assure you with absolute certainty that your results will be much bigger and better and faster than those men. You know why? Because these were the first men to take man plus in its initial formula. But think about it. Just this simple formula was able to increase size and make erections stronger and longer lasting. Imagine what it will do for you when you try our more complete and powerful formula. Yes, the new version of man plus has been specially designed to boost the sexual potency of any man at any age. That's why we've put together a unique combination of seven ingredients. All of them are 100% natural, selected in their purest state, and scientifically prove it to improve erections. The first ingredient is watermelon extract. Watermelon extract brings together only the best seeds, rinds, and liquid solutions that are highly concentrated in nitric oxide. This way, you'll replenish the necessary amount of nitric oxide your body needs to produce normal levels of pure testosterone. The second ingredient is bamboo extract. This powerful formula will cleanse contaminated testosterone so that it can make way for the new clean

testosterone needed to start the growth process. Bamboo extract is well known for its detoxifying and antioxidant properties. We've also made sure to add hyaluronic acid, which will ensure the reconstruction of contaminated tissue in your penis that has been affected by pollutants. Hyaluronic acid also naturally contributes to filling out your penile muscle, giving you more length and girth. So to restart and boost testosterone production, we've selected a very precise combination of bovine collagen peptides, chicken cartilage, and marine collagen. This powerful combination will make your body create and boost testosterone levels. Some people wonder, why are these compounds so important? Well, collagen is an incredible and powerful trigger for human testosterone. It also causes your body to produce new cells for your penis, again helping you to gain more length and thickness. We've also added vitamin C and vitamin B6. These will speed up the growth process of your penis by energizing and enabling the penile cells to multiply. And that's not all. We've also added ashwagandha, a powerful Asian root that will double your sex drive in the first week alone. This powerful root increases blood flow to the penis, guaranteeing firmer erections for longer. It will also protect your bladder against infections and is able to stop hair loss. Next, we add proteins, nutrients your body can't live without. And then we add horsetail extract, a strong plant that helps treat erectile dysfunction and make erections last longer. It will also increase your stamina during sex so you can enjoy the moment for as long as you like. Native peoples have been using it for centuries to improve libido and enhance sexual performance. We've added all these ingredients and nutrients with one purpose in to help you get a penis bigger than 8 inches naturally and make your erections hard as iron. All these ingredients together work like a natural armor that will protect your testosterone and virility from toxic pollutants. But I have to tell you something. The reason why no other pill, supplement or prescription has worked for you before, it's because they're all generic. And you probably already know that generic formulas don't work for your body. But your man plus capsule will be customized to your need. This means that you will have a unique and special formula so that you can achieve really visible results. Because think about it. When you go to the nutritionist, he plans a very specific diet or recipe for your goals, right? Instead of getting a generic prescription, you get a unique diet tailored to your needs. And it's the same with Man Plus. Man plus capsules are perfectly manipulated according to your body. So pay close attention now, because just as I'm recording this presentation, there are only 109 bottles left. That means you're literally competing with hundreds of men for a single bottle of the formula that can turn you into a real sex machine. So the only way to secure this hardening solution is to act now while there are still bottles available. And I know you're probably wondering now, how much will man plus cost? It will cost you a lot less than you've already spent on other options that didn't work. It's less than a third of the price of those supposed solutions to deliver 100 times better results. But that's not the right question to ask right now. The right question to ask is how much is it worth to you to be absolutely sure that your wife would never cheat on you because she knows that you are capable of satisfying her in bed every night as she deserves? How much is it worth for you to go into the bathroom, take off your underwear, look down and be proud to be the only man with a mega large, thick and sturdy penis to last 2 hours non stop? How much is it worth to you to never again go through the same humiliation and shame of failing in front of your sweetheart. Or even those embarrassing appointments with the doctor where he always prescribes the same drugs

that never work. If having that would be worth a lot to you, then man plus will be your best choice this year. Just as it was the best decision of thousands of men's lives. Men who had already fallen for the fallacies of testosterone replacement, blue pills and pumps. And after everything I've told you so far, I'm sure you're already aware that all these alternatives don't provide half the results that man plus can deliver. So now, and only on this page, you have the chance to secure the only truly effective solution to male performance problems. All this for less than the price charged for the most sophisticated treatment in this country, which would be \$20,000. In fact, you won't even pay 10% of that amount, which would be \$2,000 and no less than half, which would be \$1,000. They called me crazy when I made the proposal. You'll see now. So here's the deal. You've just proved that you really deserve to have bull power in bed. If you've come this far, it's because you've committed to improving your performance, masculinity and confidence in the relationship. So if you act now, you can secure your bottle of Man plus for just \$49. Right now. Below this video, you'll see a short form where you'll enter your age, weight, height and how long you've been dealing with ed. So read the options carefully and select only the option that works best for you. But remember, there are less than a hundred bottles left and when the stock runs out will raise it to the original price of \$129 indefinitely. That's why if you decide to follow the full six month treatment plan, I'll give you a super discount on every bottle. This reduces the price to just \$49 per bottle for a total of \$294. When you choose the six bottle pack only now and on this page, not only will you get a personalized treatment for your body, but you'll also get a one time discount. For if for some reason you decide to take only two bottles and want to get more bottles later, you'll have to pay more money for that because that would require redoing our entire process to create your formula again, which would require redoing a job with more time and resources to complete. This means that taking six bottles is the best option because you don't run the risk of paying more for man plus later or running out of stock. That way you'll get better results and save your money. However, this offer is only available today while stocks last. Get your bottle of man now to say goodbye to your erectile dysfunction worries. But beware, when stocks run out, we will probably only offer a new batch in 2025. That's because man plus adheres to a strict standard of high quality, so you can be sure that you're consuming only the purest, most natural and most effective compounds against male dysfunction. So the best thing to do is to take advantage of the full six bottle offer. That way you'll have all the bottles you need to enjoy a complete treatment, ensuring that your penis is bigger and harder forever and the best thing for only half the original price. You won't find an offer as advantageous as this anywhere else. This symbolic investment costs less than a cup of coffee a day. It's something that will take your virility and sexual drive to heights you' felt before. Of course, two bottles of man plus is enough to start the first step on the journey to male enhancement. Three bottles will significantly help reverse the contamination in your testosterone. But choose the six bottle combo now and I can guarantee that you'll have a penis as big and stiff as a baseball bat in your pants. So if you'd like to increase your penis size permanently in length and width without feeling painful, paying for expensive procedures or suffering a rebound effect, man plus is for you. You want to have stronger, harder and longer lasting erections just like the great adult actors, then man plus is for you. If you'd like to increase your sexual desire and stamina to last as long as you want in bed with your wife, then you can count on Man Plus. If you just want to sleep better, wake up with more energy to go

about your daily routine, get rid of fatigue, raise testosterone levels, fight baldness, prevent prostate inflammation, gain toned muscles, or lose belly fat. There's no doubt in my mind that man plus will be perfect for you. So click on the button below this video now and choose the six Month Plan to guarantee a real transformation in your sex life. Once you've chosen your six bottle plan below, you will be redirected to our payment page. It only takes three steps to make your purchase. The first step is to fill your basic information such as name, email address and cell phone number. We need this information because it is through your email and cell phone that we will contact you to send you your tracking code. The second step is to fill in the address where you want the product to be delivered. And the third and final step is to fill in your credit card payment information. Your information is 100% safe and secure with us. That's because our payment is approved by the same payment technology as companies like Amazon, Walmar, Ebay, and which was also chosen by JP Morgan Chase as the most secure digital payment system from 2019 to 2024. So the only thing you need to do now, choose your promotional 6 bottle combo below and finalize your order. And if you're in doubt about which option to choose, there are two reasons why you should opt for the six bottle kit. First reason, this is the option where you'll get the biggest discount. After all, a single bottle of Man plus costs \$129. But by taking the six bottle combo while stocks last, you'll invest just \$49 per bottle. That's a valuable discount of almost \$500. Of course, this price won't stay the same for long. And this is where the second reason comes in. As I said, our current stock only has 109 bottles available. And once this launch stock runs out, we'll have to go back to the original price and you'll never be able to secure your unmissable man plus plan at this discount again. So if you were in doubt and didn't know which option to choose, perhaps these two reasons will help you consider the six bottle option. Well, if you haven't acted yet, you're probably on the back foot. And honestly, I understand you. You've probably spent a fortune on products that haven't helped you at all. So how can you be sure that man plus will work for you? It's normal to be afraid. But I'm going to propose something that will clear things up for you. Take a look. All the active ingredients that make up the formula of our natural hardening pill have been awarded prizes by renowned urological laboratories and institutions. The unique nitric oxide composition is considered by science to be the most powerful erection booster recipe in the world. Our formula has been named Discovery of the Year by the University of California, the University of Zurich and the John Hopkins Institute of Medicine. And on top of all these studies and scientific evidence, all the men who used Man plus for at least six weeks grew their penis by approximately 2.4 inches and increased the time and strength of their erections by more than 33 minutes. And they reported being as hungry for sex as they were were in their 20s. So the chances of our formula not working for you are practically zero. But we Want to prove it to you. That's why we decided to do something new. You'll have an extended guarantee never before offered on the market. No matter which plan you choose, secure your man plus today. You'll also get a 365 day money back guarantee. This means you have 365 days to test our and for as long as you like. If you're still not satisfied with the results, you can get your money back at any time. And don't worry, we've made it as easy as possible for you. So if you want to get your money back, you don't have to write an email, send a message or call us. It's much simpler than that. Take a look. When you complete your order, you will receive an email entitled Purchase Confirmation. Inside this email,

you'll find a button that says Request a refund. So if you want to get your money back, you don't have to write an email or call our customer service team. All you have to do is click on the Request a refund button and in less than a day, we'll refund the money to your card. Simple, isn't it? But that's not all you'll get. I want to make this offer even better for you. Look, I know you're committed to improving your mail performance, so I've put together two exclusive opportunities. Here's the first gift. If you choose the six bottle plan, you'll get the most advantageous combo with free shipping. Yes, we're giving away free shipping to people who buy six bottles of Man Plus. So if you're watching this video and there are still bottles available, choose the six bottle kit and you'll pay nothing for shipping. It doesn't matter which state you live in. That's why the best decision you can make today is to get the six bottle kit. Because you'll get the best results and you won't pay for shipping. But that's not the only gift. If you opt for the six bottle combo, not only do you get a huge discount on the price of your man plus, but you also get free shipping. You'll automatically be entered into our weekly prize draw for tickets to watch the next NFL season at the stadium closest to your home. But don't worry, it's not over yet. You'll also receive a VIP pass to watch the 2025 Super bowl with three other guests, all expenses paid, including tickets and accommodation. In other words, by choosing the plan with the most bottles, you'll join a select group that participates in weekly ticket draws for the entire upcoming NFL season, plus the Super Bowl 2025 with all expenses paid and three companions included. Hi guys, I'm Mark and I'm here with my wife and two kids watching an NFL super bowl in New York. Five months ago I bought six bottles of man plus and ended up winning this raffle. Not only did I get a bigger, harder penis, but I also got a free trip. Paid absolutely nothing for it. Been an incredible experience. Wife is doubly happy. Get the idea right? I'd like to thank the entire man plus team for this incredible opportunity. All you have to do is select your six bottle plan below and finalize your order. Remember that we only have 109 bottles available. When this stock runs out, we'll take this launch presentation offline and we'll offer man plus at its original price. So don't waste any time. Select your six bottle plan now and finalize your order before it's too late. This is the only way you won't regret missing out on. And if you think about it, how many opportunities have you missed in life thinking you could take advantage of them later? How many times did you think you'd get a second chance and you didn't. And how long will you continue to miss the opportunities that life puts in front of you? The truth is that this is the easiest decision of your life for one simple reason. You're not taking any risks now. Not making that decision today is the biggest risk for you. Do you know why? How long will you put up with seeing your small, flaccid and lifeless penis in front of your wife? You can bet she's itching for some hard style sex. But if your penis has been getting soft, flaccid and short lived, she'll seek pleasure in another man. The truth is, if you're not penetrating her with a hard 9 inch penis every day, I'm absolutely certain that she's already looking for a real man who can give her that. This didn't just happen to me and Shigeo Tokuta. It happens in more than half of all marriages. How long will you put up with a tiny 6 inch size? Even though women say that size doesn't matter when they're with friends, they always confess that they'd like to have sex with guys who are 8, 9 and even 10 inches tall. This video probably opened your eyes and if you keep doing the same things, you'll get the same results. I know you can choose to ignore all the facts I've presented to you today. Like for example, the studies that Prove that the real cause of your erectile dysfunction and small size is

contaminated testosterone, which infests your virility with toxic pollutants, leaving your penis increasingly flaccid, weak, ugly, small and lifeless that you yourself no longer admire as you used to. And you can also ignore the studies that have proven that the combination of nitric oxide activates the natural production of pure testosterone. And ignore the fact that this is the only pill 100% made from natural compounds and approved by the FDA for the sole purpose of making your penis bigger and stronger. Stronger? Look, ignoring all this is an option, but choosing not to take Man Plus Today is not the smartest decision. The truth is that your penis isn't going to suddenly get bigger or harder all by itself. In fact, if you do nothing, everything will get worse and it's your masculinity that will suffer every day you fail to eradicate erectile dysfunction. You get less respect and admiration from your wife, the less virility, confidence and sexual power you show in bed, and the greater her perception that you are effeminate and weak, incapable of providing real pleasure. That's why if you ignore the fact that the six bottle combo is the best way and simply accept that your tiny penis can't get hard, it's only a matter of time before you see your wife sucking another man's giant penis in your own bed. That's not a possibility, it's a certainty. Again, that's exactly what happened to me and Shigeo Tokuda and so many other men who traded for a real big penis. So for your future as a man, choose your six bottle plan right now below this video. I know it can be hard to invest in yet another path, even when you've spent the last few years believing in false solutions. But this path is real and it's called man plus. And on this path, you will win once and for all. This is what you deserve. You deserve to invest in your masculinity, your sexual potency and your confidence. You deserve to be sure that you really are a dominant man in bed. This so just choose what's best for you. I know you're an intelligent person and you know the smartest decision to make here. I hope you do what's right for you and your sexual performance. That's all for today. I'll leave it at that. Thanks for watching and see you later.
