

How to sign up for the Accuplacer
READ CAREFULLY

- Accuplacer tests are all virtual at this time via zoom, with an online Accuplacer proctor
- You may test on your chromebook or another computer that has Zoom, a working webcam and microphone (you may NOT use your cell phone or tablet)
- You will need to secure a quiet room for “testing” the time you have signed up for the test
- You will need to have information from your counselor which test you should sign up for; math or writing or both
- You will need a photo ID BEFORE you test

IF you have never taken a CMC concurrent enrollment class, first you need a **CMC ID** to sign up for the Accuplacer:

1. Go to this link and fill out a short form. Then use your CMC ID to go to step 2

coloradomtn.edu/graduate

If you already have a CMC ID number, (for example if you have registered for a concurrent enrollment class) you may skip Step 1. And go to this link with your CMC ID number:

2. <https://coloradomtn.edu/apply-get-started/placement-testing/calendar/>

Click on the date, click a group of times, then scroll down to the bullet point “ Click here to schedule appointment”. Sign up for a time for either the math or writing test or both (whichever one your counselor advised you to take). *If the time doesn't appear available on the dropped down arrow it means the times have already been reserved by another student.*

You will receive a confirmation email immediately. If you do not, then you have incorrectly typed your email address. To correct your email address.
email CMCaccuplacer@coloradomtn.edu

Watch your email either the day before or the morning of your test for your Accuplacer Voucher and Zoom Link. The subject line will read: **Online ACCUPLACER via Zoom WHAT YOU NEED TO KNOW before you test.**

You will need to test in a quiet/empty room, (at home is fine if your testing time is outside of school). It is your responsibility to arrange where to test ahead of time. If you need help see your counselor.

How do I prepare for the Accuplacer?

Here is [a link to practice opportunities](#)! It includes a study app you can download-- a little bit of practice everyday (5-10 minutes, 5 days a week) is better than a whole lot of practice just one time.
