Hit the Road, Drax

after [Hit the Road, Jack.](#)

Oh Drax, oh Drax don't you tell me you're clean
'Cos you're the dirtiest company we've ever see,
You take subsidies that keep you alive
While Sun and Wind and Water have to struggle and strive.

*(So hit the road Drax and don't you come back no more, no more, no more, no more.)
(Hit the road Drax and don't you come back no more.)*

Oh the damage you do is a crying shame
Chopping down the forests for your sinister gain.
You fake sus-tain-a-bil-it-y
Take the money, leavin' wreckage as your legacy

(chorus)

*An now you got plans to burn a lotta gas,
Which is going to bite the planet on the ass,
You burn all the things cos its the only way
To keep yourself alive at the end of the day
(You know to make money at the end of the day)*

Forests from America

After the Proclaimers' [Letter from America:](#)

Oh you know you should Axe Drax: burning forests from America
They go straight up a smoke stack, from Nova Scotia to Florida.
I read the papers, every day
Spend time thinking what is to be done about climate change.
I wonder if we stand a chance
When ecocide is part of your long term plan.
Oh you know you should Axe Drax: burning forests from America
They go straight up a smoke stack, from Louisiana to Canada.
I've looked at the ocean tried hard to imagine
What Selby will look like when the river Ouse comes oozing over.
We should have closed it, we tried to tell you
You've had your power and your station for far too long.
Oh you know you should Axe Drax: burning forests from America
They go straight up a smoke stack, from Nova Scotia to Florida.
Black Bears no more, Bald Eagles no more, (Louisiana)

Crawfish no more, Cyprus no more.
Lichen no more, Ghost Antlers no more, (Nova Scotia)
Harlequin no more, Goldeneye no more.
Warblers no more, Something no more
Something else no more, something else no more.
I wonder will Tabaco's farmers ever return
to the land you took to mine and burn and send
You're liars love money. See the truth will come out.
And watch as your investors each abandon you in turn.
Oh you know you should AxeDrax, burning forests from America
They go straight up a smoke stack, from Nova Scotia to Florida.
Invesco no more, Friends life no more,
Edelman no more, M&G no more,
Invesco no more, Friends life no more,
Edelman no more, M&G no more,
Invesco no more, Friends life no more,
Edelman no more, M&G no more,

Drax is a Lumberjack

after Monty Python's [Lumberjack Song](#).

Drax is a lumberjack, it's NOT okay,
It burns all night and it burns all day.

*CHORUS: Drax is a lumberjack, it's NOT okay,
it burns all night and it burns all day.*

They cut down trees, they grind them up,
For Ee-lectrici-tee
They say its green and cheap
The government agrees

CHORUS

'Biomass' is what they call it
Don't mention it's a tree
It sounds all natural, you know
And much more cuddl-ee

CHORUS

Drax ships em in, and piles them up
Pellets now, not trees
Denies that it harms forest

Or bears or bird or bees.

CHORUS

They chop down trees, they tell their lies
All so sustainable
They lobby and they certify
With complete impunit-y

CHORUS

Drax says it all their strategee
As green as green can be
But DECC did crunch some numbers
Which made it look shit-ee

CHORUS

They cut down trees, they burn 'em up
And collect the subsidiee
They claim it's all low carbon,
Cos' that the scam, you see.

CHORUS

Six hundred million, from our bills
For Drax to burn those trees
Keeps this old monster living on
dino-technolog-ee

CHORUS

NEW CHORUS

Drax is a DINOSAUR, let it die,
It eats trees all night and eats trees all day

Drax is a DINOSAUR, let it die,
Says it's low-carbon - it's livin' a lie

Drax is a DINOSAUR, help it die,
Keep trees in the woods, not in the sky

Drax is a DINOSAUR, help it to die,
(shout!) TELL THE GOVERNMENT to STOP THE SUBSIDY! (shout!)
