

# Innovation Day Plan Sheet

Topic: \_\_\_\_\_

To which subject(s) does it align: \_\_\_\_\_

Brief description of the project:

---

---

---

Materials needed:

I'll provide from home	School Resources

*\*No materials may be used that are in violation of school rules or safety regulations (power drills, soldering irons, etc.). Check with your teacher if you are unsure about any materials.*

What will you learn about?

---

---

---

---

What resources will you use to learn about your topic?

---

---

---

---

Why does this topic interest you?

---

---

---

---

Product: What will be your final product? What will you create?

---

---

---

---

Explain the step by step process you will take to learn about your topic and then create your final product.

---

---

---

---

---

---

---

---

What did you learn through your project that you didn't already know?

---

---

---

---

---

---

---

---

What are other questions you still have or other areas of interest you might pursue? (If you finish your project early, what could you use your time doing?)

---

---

---

---

---

---

---

---
