

Grapevine is looking for a Django Developer to join our team.

About Grapevine:

Grapevine is a MassChallenge finalist and investor backed company bringing advocates and brands together to execute large-scale marketing campaigns through a powerful end-to-end marketing platform. Hundreds of brands rely on Grapevine to create compelling, trustworthy, and original content reaching millions of engaged consumers every day. Check out more information on our website <http://www.grapevinelogic.com>

What you'll bring:

- Solid knowledge of Python and Django 1.7
- Solve complex problems with innovative and elegant design and deliver robust functionality on time
- Knowledge of OOP and scalable design patterns
- BS in Computer Science or equivalent
- Sense of humor and ability to work well with other humans
