

No Waste Wednesdays

#NoWasteWeds #OPSustains #ZeroWaste

MOTIVATION: Address [Goal #12 of the UN Sustainable Development Goals](#) as well as [district goals](#).

PROJECT: No Waste Wednesday: We are trying to *get the entire OPHS community* to practice the [Four R's](#):

1. Refuse
2. Reduce
3. Reuse
4. Recycle

HOW: We are hoping everyone will try to generate “no trash” on our first #NoWasteWeds which will be **JANUARY 29TH!** We are suggesting containers and utensils that are reusable, resulting in our custodians having an easier job that day and keeping our campus clean. We are going to choose an endangered species to go with each #NoWasteWeds. The first one will be the Koala...and we hope to eventually raise some funds to donate toward the Australia fire fight. We hope to do this every Wednesday.

We plan to measure, analyze and continue to improve our program. One way to improve will be to get more people involved.

YOUR TASK:

1. **Brainstorm** - *what do you think Students could do* to support this? *Teachers/Staff?* What will this look like in reality? We will try to come up with our “**Top Ten**” tips. (Team, Sister Team, Side, Classroom)
2. **Get the message out** - what do you think would be best? These are the social media tags [#NoWasteWeds](#) [#OPSustains](#) [@MsLittenBiology](#) [@oakparkusd](#) **POST** an image of your “message” in [this Google Slide Presentation](#) (I WILL PUBLISH OUR PRESENTATION ONCE IT DEVELOPS)
3. **Be a Leader**: model it! Post images of you and your friends doing your bit towards #NoWasteWeds This will hopefully motivate others to do the same - we can encourage one another!

I AM ALREADY SO PROUD OF YOU GUYS - YOU ARE LEADERS IN CLIMATE CARE!
