

Privacy Policy for Web Insight GPT

Web Summary GPT is a Chrome extension designed to enhance your browsing experience by allowing you to interact with webpage content using GPT-4. Summarize the page you see with one click. Below is our privacy policy, outlining what data we collect, how we use it, and your rights as a user.

1. Data Collection

Web Insight GPT does not collect any personal data. The extension stores user preferences, such as conversation history, locally on your device to provide a personalized experience.

2. Data Usage

The data stored locally on your device is used solely to provide a seamless and customized experience within the extension. This includes storing conversation history for your convenience.

3. Data Storage

All data is stored locally on your device using Chrome's local storage. This data is not transmitted to any external servers or shared with third parties.

4. Data Sharing

Web Insight GPT does not share any user data with third parties. All interactions with the GPT-4 API are conducted securely, and only the content you choose to query or summarize is sent to OpenAI's servers for processing.

5. User Rights

As all data is stored locally on your device, you have full control over it. You can clear your conversation history directly within the extension at any time.

6. Contact Information

If you have any privacy concerns or questions about the use of Web Insight GPT, please contact us at jacobtor@kth.se. We are committed to addressing any issues and ensuring your privacy is protected.
