## Operations Meeting February 28, 2025

**Attendees:** Derek, Jeff, Ashton, John, Huijun

**Apologies:**

### Fires

- Tiger outage - network issue to rados nvme ceph cluster, UW needs someone from Networking to investigate, affecting OSDF, Tiger Factory, GRACC

### Announcements

- Jeff P is on Freshdesk triage next week, Jeff D is up the following week

### Nebraska (Derek, John, Huijun, Ashton)

- **GRACC**
  - GRACC geo-replication enabled for OSDF transfer accounting information.
  - Disaster recovery exercise for GRACC scheduled ~**Feb 2025 Moved to March, at earliest**
    - Planning will occur during Jan. 2025
  - Accounting data issue with APEL was solved on their end, nothing wrong on our side. **January was just working today, we implemented features before they were ready.**
  - Moved all but one report over. Last report is WIP due to refactoring. Should be last thing needed to migrate from old gracc server at UNL
- **OASIS**
  - Working on updating cvmfs (John)
- **OSG Status Page** (<https://status.opensciencegrid.org/>)
  -
- **Check\_MK - Alerting**
  -
- **CVMFS origin**
  - Adding new repo for Fusion, authenticated CVMFS  
/cvmfs/fdp-d3d.osgstorage.org
- **XRootD monitoring collector**
  - Ugh at the alerts and backing up
  - MQ has recovered as of late Wed

- Investigating options to reduce MQ load
- **CVMFS Singularity sync**
- **Other:**

## Madison (Brian Lin, Jeff Peterson, Jason)

- Intermittent Hosted CE cert check failures from  
<https://opensciencegrid.slack.com/archives/C02BJ1J3G8N/p1736264100694889>
  - <https://opensciencegrid.atlassian.net/browse/INF-2772>
- Working on standing up central Grafana, initially aimed at OSDF Operations

## Chicago/Collaborations (Pascal)

- 

## Michigan (Shawn)

- Waiting to renew the data to transport to Opensearch and FNAL tape

## UCSD (Jeff, Diego, Fabio)

### MISC:

- 

### Central Manager

- 

### Frontends

- UCSD CMS:
  -
- UCLHC
  -

### Caches:

- Another IceCube issue in the ticketing system.
- New caches being stood up at Kansas (very soon), New York, Chicago (new year)
- XCache bug found that will lead to file descriptor limit:  
<https://github.com/xrootd/xrootd/issues/2392>

## Hosted CEs

- Ashton is working on restricting IP access to CEs from factories only (k8s cluster IPs, CERN, FNAL)

## GWMS Factory

- Tempest factory is up, OS Pool is registered to it. We now are running full scale there for OS Pool entries, next we will need to non-OSG non-CMS FEs to it

## AOB
