

Aoki and Moo's Terms of Service (ToS)

Please remember that we have a right to decline any commission!

(That probably won't happen without good reason, though!)

General

*This ToS is for SFW and NSFW commissions. Please keep in mind that you **must** be 18 or older to commission us!*

The Artist

- We are currently only accepting PayPal
- We are both allowed to use your commission in our respective art portfolios.
- We are allowed to post your commission to our respective social medias with a credit to you, unless you express you do not wish to have your name posted. This version of the commission will have a large watermark to discourage theft. It may also be run through an anti-AI program.
- We will have a small signature on your version of the commission- and you can choose where to put it (within reason, it cannot be in any of the corners and must be close to the subject itself)! We will try to blend it into the piece so it is not disruptive.

The Buyer

- You should also look over our [Commission Price Graphic](#)!
- Don't be afraid to talk us through an idea. It's what we are here for and what you are paying us for! No worries!
- You only have to pay one artist and they will divide it appropriately between themselves.
- You may not use any commission from us in a commercial way without explicit written, text, or verbal consent from BOTH original artists. This includes but is not limited to:
 - Selling prints
 - Using the artwork in a game, book, or movie
 - Explicitly advertising the commissioned art
- You may, however, print the commission for *yourself*, use it as a cover for a fanfiction, or use it as a YouTube thumbnail. If you use the comm in this way, show us! This is not required, but we would love to see it.
- Please *discuss* references with the artists! (Do not send any explicit references without getting an okay from the artist before you send it)
- Please credit us by our BlueSky handles whenever you post your commissioned art and use a watermarked version of the art when posting publicly, if possible.

Payment

- Please provide your email address that is connected to your PayPal so we may invoice you. Though it's not required, you may leave a tip via the invoice. Tips are split evenly between the two artists.
- Please do not try to pay another way.
- Invoices can be paid in segments. The minimum payment is required before the commission is started. You may cancel your commission before the first payment.
- If you need to cancel after the comm was started and your commission had Add-ons, the Add-ons will not be completed. You will be allowed to have whatever parts of your commission you have already paid for.
- We do not offer refunds. Please be aware of how much you are paying initially.
- If you wish to cancel your comm, You will receive what you have already paid for and the rest of the invoice will be nullified.

Maximum Wait Times

Times vary depending on complexity and detail of individual commissions. Commission types are listed in order from maximum to minimum wait time. Please discuss with the artists to determine a more accurate and tailored estimate.

Commission Wait Time Chart	
SUBJECT	
Portrait	2-6 days
Full Body	4-8 days
SCENE	
Small Scene Build > Adding <i>a few objects</i> to an existing scene	1-4 days
Medium Scene Build > Adding <i>many objects</i> to an existing scene	2-4 days
Large Scene Build > Building a scene <i>from scratch using preexisting objects</i> already in SFM	6-12 days

Commission Timeline

After you read our Terms of Service (almost done!) and my [Price Sheet](#), you will have to fill out our [Commission Submission Form](#) or message us on Discord or BlueSky. Then, we can start talking about the commission's details such as cost, estimated completion time, posing, and small details. We will start your commission after receiving minimum payment at least.

This is the first WIP checkpoint!

I will show you a low res screenshot of the completed block out pose. It's at this point you can change some *major* details, then I will work on the adjustments. Be sure to mention ALL adjustments before I start my tweaks, it just makes things easier. If you need more time to think, just say so! No worries.

Next WIP checkpoint!

I will show you a low res screenshot of the completed pose and camera angle. At this point, you can change some *minor* details. Last minute adjustments will be made on the spot. After you confirm any adjustments, the scene is sent off to the second artist.

Final WIP checkpoint!

The lighting artist will show you a low res render of your scene with lighting and edits. If everything seems to be in order, they will render it!

Once your commission is finished, you will receive the proper res, signed version and the watermarked version (if applicable). You may also get the project file, if you request it.

How to Get Banned from Commissioning Us

You are not allowed to do the following with anything you commission from us, under any circumstances:

- ★ use it to train or guide a generative AI program or its output in ANY way,
- ★ use it as a Non-Fungible Token (NFT) in ANY way,
- ★ remove any signatures or watermarks,
- ★ edit without explicit written, text, or verbal consent from BOTH of the original commission artists
