

100th Day of School Math Homework

Friday, February 8th is the 100th Day of School!

Collect 100 small objects.

Count carefully to make sure that you have counted correctly.

You will need exactly 100 objects.

You may want to break 100 into smaller groups of 10 first.
Remember, counting by tens is one of our most efficient strategies!
Or, try making an array to show 10 rows of objects in 10 columns.

Then...

1. Place the objects in the paper bag.
2. Complete the back of this sheet.
3. Bring this sheet and the bag to school on the 100th Day.

Also, if you are up for it, find 100 things to wear,
like 100 polka dots on a shirt or 100 beads on a necklace.

Shhh...

Keep what's in your bag a surprise!

Name: _____ Date: _____

100th Day of School
My 100 Objects

Now that you have collected 100 small objects, give some clues about them. Do not say what you have collected.... Just give clues.

Write 6 words that describe your objects:

_____	_____
_____	_____
_____	_____

How are your objects used?

Imagine you could use your objects in another way. What would you do with them?
