Are video games a good way to keep fit?

Nowadays, many teenagers have got video consoles at home and they often like playing active video games. These are good for you for a number of reasons.

First of all, I think that active video games are a good way to keep fit. What's more, you can play them in the comfort of your own home. in my opinion, these games are fun and interactive because you can play them with friends, if you play online, you .don't need to be in the same place as your friend to play

In addition, you can play them whenever you want. Some people think that it's better to do exercise outside in the fresh air. Although this is true, it's actually difficult to play outside when it's raining or very hot so video games are a good alternative.

To sum up. I believe that video games are a fun and social way to keep fit. I think they are a good option when you can't play outsides and they might encourage people to do more exercise.

For each item, shade	in the bubble 🗢 next	to the correct option.
