

2008 Nisqually & South Sound GREEN Summer Teacher's Institute

Forests of Our Watersheds

June 24 - 27 2008

Do you wonder how our South Sound watersheds are affected by forest practices?
How is our community taking on forest issues to foster sustainability?

June 24 9:00 - 1:00 Nisqually Refuge Field Trip Orientation Workshop
June 25 8:30 - 3:30 Nisqually Refuge: Panel, Speakers, & Water Quality Training
June 26 8:15 - 4:00 Field trip to Wild Thyme Farm - Meet at Nisqually Refuge
June 27 8:30 - 3:00 Nisqually Refuge: New and returning teacher work, curriculum resources and hands-on workshop with Nisqually Carver, David Wilson

- Meet community professionals doing cutting-edge forestry work in our region.
 - Explore the impacts of forest management on our local watersheds.
 - Receive curriculum resources from & plan projects with local, state & federal environmental agencies.
- Learn how to integrate water quality monitoring and watershed education into your 5th-12th grade curricula

If you teach upper elementary or above, and are interested in getting involved with sustaining our watersheds, then this Institute is for you! We provide training, supplies and equipment, transportation, substitutes & event coordination to participating schools. This workshop is free! Free clock hours available!
