

Welcome to **the Omnic Lab**. We're a podcast that focuses on the strategies inside of the game of Overwatch. We learn through trial and error in the lab, even if things get a bit crazy and blow up sometimes! We'll brew up team composition strategies, stir in some tips to play better, and hopefully equip listeners with the instruments they need to gain a strategic edge!

In the Lab **this week** PVPTwitch joins the Lab again this time we're talking Map Mastery again! Now we dip our toes in the realm of KotH, King of the Hill, or Control with Lijiang Tower! Buckle up for coverage on the Garden, Night Market, and Control Center located in China!

>I started playing Overwatch in early 2018. This podcast has been a great help! I am still only up to Ep. 11 - digging it so far!

>This is such a great show for OW players. As other reviewers have mentioned, it's a good cover of all skill levels. While the guests may be grandmasters or top 500 (nearly always) they never forget that us mere mortals are working on things a bit more basic. That said, if you don't think you can apply some of what's learned here to your rank, think again! Add in a heaping great dose of camaraderie and a terrific discord community behind em, you've got yourself a winner. Thanks Andres for the enthusiasm and tales from the front...erm ladder and Rob for the humor and keeping it real (and mostly on topic ;))Don't be a lab rat, be a scientist!
