

IMSA Innovation Grant - Students

Call for proposals

Due January 27, 2023

This IMSA Innovation grant is designed to give students an opportunity to improve the IMSA experience for fellow and future students in two possible ways:

1) Class of 2024/2025 Belonging:

Design and implement an opportunity that promotes an identity group having a deeper sense of connection or appreciation on campus. We want students to know they are valued, they can feel safe and secure, and their differences can be respected.

2) Class of 2023 Leave a Legacy:

For seniors, there might be one project or improvement you would like to make for future generations of IMSA students. Use your last semester to leave IMSA better than you found it.

To apply for a grant, please follow these steps:

1. Secure a staff/faculty sponsor for the project who will be responsible for working with the IMSA Fund and Business Office to access the funds and to authorize expenditures for the grant project.
2. Submit the grant application [on this form](#) by April 1, 2025, to support efforts between February 13 and May 22, 2023. Grant awards can support expenses up to \$1,000 for student initiatives.

Grant recipients are expected to spend the funds no later than May 30, 2025. No grant funds will carry over after that date. Grant recipients are also expected to share a summary of their work in the digital commons.

Submit questions to Dr. Evan Glazer at eglazer@imsa.edu.
