

How to find the largest schema in oracle database?

```
set pagesize 200
col Size_MB format 999,999.99
with Large_Schema AS
(
SELECT
    owner,
    Round(sum(bytes)/1024/1024,2) as Size_MB
FROM
    dba_segments
group by
    owner
order by
    2 desc
)
select
    owner,
    Size_MB
from
    Large_schema
where
    rownum <=10;
