

Engineering Pathway FAQ's:

Is the Engineering Pathway a 3 or 4 year pathway?

It can actually be 3 OR 4 years. The classes offered are Introduction to Engineering and Design, Principles of Engineering, Computer Integrated Manufacturing, and Engineering Design and Development in that order. If you choose to begin engineering as a sophomore you can take both IED and POE in that same year and complete the pathway in 3 years.

Do I need to have previous experience to take the first course?

No previous experience is not needed to join the pathway.

Can I skip a course?

Unfortunately, you can not at the moment. We may decide to have an IED course over the summer in the future but there are no plans as of yet and this would need to be approved.

If you have any additional questions, please feel free to click on the following link to access the slide show from last year explaining the pathway a little further and in more detail. Thank you!
