[Marin Prevention Network](#) is launching a [Social Host Ordinance \(SHO\) Awareness campaign](#) and we are asking for help from all our community partners to share these important messages throughout the county.

**About SHO**

All cities and towns in Marin, as well as Marin County itself, have adopted some form of Social Host Ordinance. The SHO holds adults responsible for underage use of alcohol and other controlled substances in their households whether the adults are present or not. The ordinance is

designed to confront and mitigate the prevalent problem of underage drinking and drug use at private residences or rented facilities.

Law enforcement officials can issue citations for civil fines and fees for such gatherings. However, restorative justice is a key component which allows for learning on part of both youth and adults.
