

Bere's 1v1 Gambling Arena Rules

Welcome to the only gambling arena in Europe! For suggestions, feedback or complains contact Bere.9128.

How it works:

Both duelists meet up and agree on an amount to bet (50 silver minimum), both then send the money to one of the mods and once the mod confirms both sent the money, duelists bow (bow=ready) and the fight can start. First one to get in downed state loses. The winner receives 90% of the sum (For every gold bet you win 0.9 silver).
