

To whom am I writing?

Where are they now?

Where do I want to take them?

What steps do I need to take to take them where I want?

I need to grab their attention with a headline. I must use intrigue, unanswered questions, and curiosity. . I must use fascination and fear to make them even more willing to take action (click the link).

Subject Line: Work hours you will never get tired.

I work 8-9 hours in the office on my laptop and my arms start getting tired after 2 hours because of using the mouse.

This is the same problem of some students and people who work in an office.

Does this happen to you?

I shared my problem with my friend and he gave me the best solution and now sometimes I work 12 hours but my arm never gets tired.

I want to share this with you, that you can work how long you want without getting tired.

Don't worry, this is not any exercise that I'm gonna suggest to you.

This is the easiest and simplest way to keep your arms relaxed.

You are going to thank me everyday after using this.
